SUBJECT: Revised 2023 SRA Appendix IV Review Requirements Matrix

Background

The SRA Appendix IV Matrix is updated annually in accordance with renewal of the Standard Reinsurance Agreement unless a revision is needed.

Matrix revisions are needed to reduce redundancies, simplify the display of Individual Yield plans with separate endorsements, update Post-Application Coverage Endorsement (PACE), and update conflict of interest review requirements for Downed Rice and High-Risk Alternate Coverage endorsements.

Specifically, the following revisions are made:

1. Reference to CAT for High-Risk Land is removed;
2. Conflict of Interest review requirement column revised from 'YI*' to 'YIY' for Individual Yield \High-Risk Alternate Coverage and Downed Rice endorsements;
3. Individual Yield plans with Endorsements are consolidated and grouped by those endorsements having an insurance plan code verses those having an option code;
4. PACE review requirements revised to match other Individual Yield plans\endorsements with an insurance plan code;
5. Information appearing directly underneath the Matrix and in the illustration box has been incorporated into the box for codes used in the review matrix;
6. Three new boxes added for notes, endorsement categories and codes.
