81	Filler	454	1	X(01)	Must be spaces.
82	Rate Yield	455	10	9(08)V9(02)	Required. Continuous rating insurance plans 25, 44, 90, 92 and 96 – rate yield will be used to determine base premium rate and must match rate yield on the record type 15. Rate yield does not have to match yield (field 28). Rate yield can be greater than zero or “zero”. A rate yield of “zero” will be used to determine base premium rate, resulting in a higher rate (lower the yield, higher the rate). For Cotton and ELS Cotton, this must be the skip-row rate yield and match the converted rate yield on the record type 15 (record type 15, Rate Yield * skip-row factor). Non-continuous rating insurance plans 41, 42, 45, 46, 84 and 86 – rate yield must match rate yield on the T15 record. Insurance plan 55, rate yield must match yield (field 28). Non-continuous rating insurance plans 12, 40, 50, 51 and 73 – zero fill rate yield and yield (field 28).

Notes:

The Type 11 record must contain a corresponding Type 15 record number (in field 16) if a yield record is required for the crop. The corresponding Type 15 record must match to the Type 11 on:

Fields 2 thru 13, field 28 and field 78.

A matching Insurance in Force Record (Type 14) must exist for each crop policy.

Acreage will not be accepted by DAS more than 60 days prior to the earliest final planting date for the crop/type/practice in the county. This does not apply to California Sugar Beets (except counties 025, 035, 049, 089 & 093). This does not apply to Wheat and Barley in Idaho, Oregon and Washington.

Notes con't

Does not apply to Wheat if the type code = 011 or 997.

Rate State and Rate County can only be different from Location State and County if a written agreement is in effect.

Organic Option

If crop is being insured as Organic by a Written Agreement do not report the organic code in the common option field.

If crop is being insured as Organic and does not need a written agreement, then report the applicable Common Option code (OT = Organic Transitional acreage and OC = Organic Certified acreage).

CIMS Process

This option will provide the current year's (2006 only) crop and acreage information, all crop and acreage information from FSA Compliance database which matches the CLU information identified on the RMA DAS acreage Type 11 record, and all crop and acreage information that matches the insured crop and county identified on the RMA DAS acreage Type 11 record.
