

(ACREAGE RECORD – TYPE 11)

Format/Edits

Field No.	Field Name	Begin Pos	Size	Picture	Field Edits
1	Record Type	1	2	9(02)	Required. Must be 11.
2	Approved Insurance Provider	3	2	X(02)	Required. Edit with AIP/Company table.
3	Location State	5	2	9(02)	Required. Edit with FIPS State table.
4	Policy Issuing Company	7	3	9(03)	Required. Edit with company table. Must be valid Pic code for reinsurance year.
5	Policy Number	10	7	9(07)	Required. Must be > zeros.
6	Crop Year	17	4	9(04)	Required. Must be the crop year of the crops reported under the policy. This will equal the Reinsurance Year or Reinsurance Year +/- 1 for applicable crop code.
7	Crop Code	21	4	9(04)	Required; Edit with ADM2. See Exhibit 99-a.
8	Insurance Plan Code	25	2	9(02)	Required; Edit with ADM2. See Exhibit 99-a.
9	Location County	27	3	9(03)	Required; Edit with FIPS County Table.
10	Unit Number	30	5	9(05)	Required; Must be > zeros. Unit number must end in '00' for Enterprise and Whole Farm Units (i.e. 00100). For plans 13 and 14, PRF, crop 0088 and Apiculture, crop 1191, only basic units by unique crop type/crop practice/grid id # and share are allowed. Unit number must be "00000" if Zero Acre Flag (field 70) equals "1" or "C" for plans 13 and 14.
11	Type Code	35	3	9(03)	Required; Edit with ADM2. For 2010 crop year Florida Fruit Trees, report sub type code in this Field, if applicable. For 2010 crop year Grapes (0053) and Table Grapes (0052), type code is required for ALL states.
12*	Practice Code	38	3	9(03)	Required; Edit with ADM2. Index Interval for Pasture, Rangeland and Forage and Apiculture. Edit with ADM1-E. (Required for timely processing).
13	Coverage Flag	41	1	X(01)	Required; Must be: C = Catastrophic "Cat" Coverage A = Additional Coverage For Revenue Assurance, CRC, GRIP, ARH, RI and VI must be 'A'. For Pumpkins (0147) must be 'A'.
14	Filler	42	8	X(08)	Must be spaces.
15	Filler	50	3	X(03)	Must be spaces.
16*	Grid ID	53	8	9(08)	Grid ID from Map for Pasture Rangeland and Forage Products and Apiculture. (Required for timely processing). Right justify with leading zeros. If not applicable, zero fill.
17	Type 11 Key Reserve	61	15	X(15)	Space Reserved for Additional key data required in the future or for other record types. Must be spaces or blanks.
18	Record Number	76	3	9(03)	Must be > zero and unique within a Crop Policy (fields 2 thru 9).

(ACREAGE RECORD – TYPE 11)

Format/Edits

Field No.	Field Name	Begin Pos	Size	Picture	Field Edits
19	Type 15 Record Number	79	3	9(03)	Required; The record number of the Type 15 record that established the yield, rate yield, revenue amount or oyster pounds for this Type 11 record. See Exhibit 15-4 for the crops and plan codes that require a 15 record. Zero fill if not applicable.
20	Agent SSN	82	9	9(09)	Enter the SSN of the agent responsible for the acreage report. Agent SSN is required on ALL acreage reports.
21	Rate Class	91	3	X(03)	See Exhibit 11-2 for ADM validation rules. Required for Florida Fruit Trees, Mac Trees and Hawaii Tropical Trees. If not applicable, zero fill.
22	Filler	94	4	X(04)	Must be spaces.
23	Map Area (High Risk)	98	3	X(03)	Required for HRC dual coverage unless Rate is from 33 Supplement. Cannot be spaces if field 87 is an "H". See Exhibit 11-3 for reporting requirements. Must be spaces if not applicable.
24	Crush District	101	2	X(02)	Required for California Grapes Only. Crush District = 01-17. Otherwise; spaces.
25	Reference Crop Year	103	4	9(04)	Required for Pecans only. Enter the first year of the current 2 year module. Format CCYY. All other crops, zero fill.
26	Written Agreement Type	107	2	X(02)	Valid Written Agreement types are: GP, HR, NB, OC, OP, PE, RE, SC, SG, SM, SP, TC, TD, TP, UA, UC, XC and 33. Enter spaces if <u>NO</u> Written Agreement is in effect. Enter '33' if the insurance rate is provided on a FCI-33 (rules page, map or supplement). For Revenue Assurance (RA) plan 25, only valid types are "33, HR, NB, SM and UC". All entries, except a "33" require a valid Written Agreement Number in field 27. For Plan code 47, must be blank. For Pumpkins (0147) must be blank.
27	Written Agreement Number	109	8	X(08)	For RMA issued Written Agreements enter the identification number for the approved written agreement for the RO, state, county and crop. The first 3 digits identify the issuing RO and must be valid for the location state. For Plan code 47, must be blank. For Pumpkins (0147) must be blank. Enter spaces if <u>No</u> Written Agreement exists.

Format/Edits

Field No.	Field Name	Begin Pos	Size	Picture	Field Edits
28	Written Agreement Processing Flag	117	2	X(02)	<p>All single values must be left justified. Must be: H = Use only for High Risk land with a Written Agreement that changes the High Risk rate, factor or yield. Use the Written Agreement type of "HR". P = FCI-2 Dollar Amount of Insurance exception for Macadamia Trees. R = FCI-2 Agreement with a Reference County. W = FCI-2 Agreement with no Reference County 3 = FCI-33 (rules page, map or supplemental) Rates RC = Certified organic acreage with a location or reference county RT = Transitional acreage with a location or reference county NC = Certified organic acreage with no reference county NT = Transitional acreage with no reference County XX = Uninsurable acres with no actuarial due to Written Agreement. Must have positive acre record with Written Agreement. For Revenue Assurance (25) only valid flags are "3, H or R". For Plan code 47, must be blank. For Pumpkins (0147) must be blank. Otherwise, spaces. See Exhibit 11-8 for edit details.</p>
29	Date Planted	119	8	9(08)	<p>Enter zeros if the crop has not been planted or is listed in Exhibit 11-10, otherwise must be a valid date in MMDDCCYY format. Date Planted cannot be greater than the submission date and should be the latest date acreage was planted for the acreage reported on this record.</p>

(ACREAGE RECORD – TYPE 11)

Format/Edits

Field No.	Field Name	Begin Pos	Size	Picture	Field Edits
30	Guarantee Reduction Flag	127	1	X(01)	<p>L = Late Planting M = Maximum Late Planted Reduction P = Prevented Planting E = Company verified eligible PP acres from another unit and/or crop or qualifying crop payment acres do not constitute 20 acres or 20 percent of the unit (as allowed by section 17 (h) of the Common Crop Insurance Policy Basic Provisions). F = First Year thinning for Pecans For Pumpkins (0147) must be blank. Space = No Reduction</p>
31	Yield	128	10	9(08)V9(02)	<p>Insurance Plans 12, 13, 14, 40, 50, 51, and 73: zero fill, except Macadamia Trees, 0024. Insurance plan 50, crop 0024: If the average yield of Mac. Nuts exceeds 3,000 pounds per acre and the producer qualifies for an indexed amount of insurance for Mac Trees, then report the average yield in this field and the index in field #44. Insurance plans 41 and 47: yield must be in whole dollars and match Type 15 record for approved yield. Insurance plan 55: (Yield from FCI-35 * Coverage Level Factor) – minimum payment: yield must be > 0 and ≤ ADM yield * coverage level factor. Insurance plans 25, 42, 44, 45 and 90: Yield must match Type 15 record for approved yield (crop 0067: yield is in pounds). For crop code 0047, type 062 and crop code 0067, type 098: this yield must be in pounds, and DAS will internally convert this yield to whole dollars and match to the Approved Yield on the corresponding type 15 record. For Cotton and ELS Cotton, this must be the skip-row yield and match the converted approved yield on the Type 15 (record type 15 Approved Yield * skip-row factor). See Exhibit 11-12 for yield requirements.</p>

51	Experience Factor	299	4	9(01)V9(03)	Must be 1.000 if the crop code is: 0012, 0013, 0015, 0019, 0022, 0023, 0024, 0029, 0036, 0043, 0044, 0046, 0049, 0050, 0052, 0057, 0058, 0059, 0060, 0062, 0083, 0085, 0086, 0088, 0089, 0090, 0147, 0215, 0255, 0256, 0257, 0265, 0266, 0267, 1191, all GRP/GRIP Crops (Ins. Plan code 12, 13, 14 & 73), all Revenue Assurance Crops (Ins. Plan Code 25), all CRC (Ins. Plan Code 44), all IP (Ins. Plan Code 42) and all IIP (Ins. Plan Code 45) . All Texas Citrus Trees, All Florida Fruit Trees & All Hawaii Tropical Fruit and Tropical Trees. Must be in the range 0.500 - 1.000 for all other crops.
52	Premium Rate Surcharge	303	1	X(01)	Values as Follows: Y = APH Yield was cupped or floored, for non-yield-span crops, or cupped for yield-span crops (from type 15 approved yield) and a 5% premium surcharge is applied. Blank = No premium surcharge has been applied.
53	Unit Premium Adjustment Factor	304	5	9(01)V9(04)	Required for all Revenue Assurance records and for CRC & APH Enterprise Units. See calculation exhibits. All other plans, zero fill.
54	RA Fall Harvest Price Option	309	1	X(01)	<i>Required for RA.</i> Enter Y if producer selected the Fall Harvest Price Option or N if it does not apply. For all other plan codes leave blank.
55	IP/IIP & County Average Yield	310	8	9(07)V9(01)	Required for IP (42) and Indexed IP (45). Must be > zero. All other Plans, zero fill.
56	RA Whole Farm Discount Factor	318	5	9(01)V9(04)	Required for all Revenue Assurance records, see Exhibit 11-12 for calculation. All other plans, zero fill.
57	Price Indicator	323	1	X(01)	This field must equal 'A' or 'E'. 'A' = Additional Price: If the additional price has not been released, DAS will validate to the established price. 'E' = Established Price Plan codes 55 and 90 can be 'A' or 'E'. Plan code 90, Hawaii Tropical Fruit (crops 0255, 0256 and 0257), indicator must be "E". Plan code 90, Peanuts 0075, indicator must be "E". Plan code 47, indicator must be "E". All other Plan codes must = 'E'.
58	Qualifying Prevented Planting Crop	324	4	9(04)	If field number 30, Guarantee Reduction Flag, equals "E", this field should be the crop code for the qualifying crop. Otherwise, zero fill.

(ACREAGE RECORD – TYPE 11)

Format/Edits

Field No.	Field Name	Begin Pos	Size	Picture	Field Edits
59	Unit Number of Qualifying PP Crop	328	5	9(05)	If field number 58 is greater than zero, then this field must be greater than zero and must be the unit number of the qualifying crop. Otherwise, zero fill.
60	Ineligible Tracking Validation Flag	333	8	X(08)	Internal Use. Reserved.
61	Skip-row code	341	5	9(05)	Cotton: Enter the appropriate skip-row code for the planting pattern and row width from the table for skip-row cotton, if applicable. See note on last page on the Type 15 record. Corn: Enter the appropriate skip-row code for the planting pattern and row width from the table for skip-row corn, if applicable. Otherwise; zero fill.
62	Total Premium	346	10	9(10)	Required; edit according to the premium calculation for the crop and insurance plan. This field is based on the CEO coverage level, if elected, for TX Citrus Trees ONLY. If any total premium is less than \$1, round to \$1. For Peanuts, if field #45 is greater than zero, this field must be greater than zero.
63	Subsidy	356	10	9(10)	Required; enter dollar amount of subsidy for the crop and insurance plan. If less than \$1.00 round to \$1.00. For CAT, subsidy must equal Total Premium. For Peanuts, if field #45 is greater than zero, this field must be greater than zero.
64	Additional Subsidy Flag	366	1	X(01)	Reserved; must be a space.
65	Additional Subsidy	367	10	9(10)	Reserved; zero fill. Does NOT apply to 'CAT'.
66	State/Private Subsidy Flag	377	1	X(01)	Reserved. Must be a space.
67	State/Private Subsidy	378	10	9(10)	Reserved. Zero fill.
68	Producer Premium	388	10	9(10)	Edit according to producer premium calculations for the crop and insurance plan. This field is based on the CEO coverage level, if elected, for TX Citrus Trees ONLY. Cat coverage policies zero fill. For Peanuts, if field #45 is greater than zero, this field must be greater than zero.
69	Private Policy Code	398	3	X(03)	First three letters of a valid acronym for the type of reinsured private policy. Not applicable for Cat coverage policies. See Exhibit 11-14 for list of valid codes.

70 Zero Acre Flag 401 1 X(01)

A = Number of Florida Fruit Trees uninsurable for ACC coverage.
 C = Nationwide Total Insurable Colonies for Apiculture by plan code (13 or 14) in which the insured has a share. **Only allowable for crop 1191.**
 I = Total Insurable Acres of Pasture, Rangeland and Forage (PRF) or Total Insurable Colonies for Apiculture for the crop in the county in which the insured has a share, by plan code, crop code and type code. This should be very similar to a zero acreage report. **Only allowable for crops 0088 and 1191.**
 Z = Zero County Acres – insured crop not planted in the entire county (only one T-11 for the crop/county)
 X = Zero Unit Acres – insured crop not planted in an entire unit (only one T-11 for the crop/county/unit; **must** have planted acres on different units)
 U = Uninsured Acres – planted to the insured crop, but not insurable (can have records with planted acres) reported acres must be greater than zero, or Number of uninsurable Fl. Fruit Trees (can have records with insurable Fl. Fruit Trees), or Non-insurable Acres – acres that do not meet the requirements in section 9 of the Common Crop Insurance Policy, Basic Provisions (e.g. unrated land). Do Not report acres under a written agreement that provide a premium rate for unrated land under this flag.
 N = No History Acres – never planted
 Blanks = This is a regular acreage report. See Exhibit 11-1 (pg.6) for Reporting Requirements.
 The agent SSN is required on **ALL** acreage reports.
 If the crop is Hybrid Sorghum Seed (0050) or Hybrid Corn Seed (0062), edit with the seed company table; Otherwise, zero fill.

71 Seed Company Code 402 3 9(03)

(ACREAGE RECORD – TYPE 11)

Format/Edits

Field No.	Field Name	Begin Pos	Size	Picture	Field Edits
72	Rate State	405	2	9(02)	Edit with the FIPS State table. See Notes.
73	Rate County	407	3	9(03)	Edit with the FIPS County table. See Notes.
74	Farm Serial Number	410	7	X(07)	Required for Peanuts, Burley Tobacco (0231) Plan 90 (with coverage flag of A, and Flu cured Tobacco (0229) Plan 90 in state 37 where the EU option is used. For Burley Tobacco each FSN must have a unique unit number. For all other crops and states this field is optional. If greater than spaces, must be left justified with no special characters or imbedded spaces. Must be spaces if no FSN is submitted.
75	Number of Sections	417	2	9(02)	Required for Revenue Assurance when Unit Option Code = EU (Enterprise Unit) or WU (Whole Farm). Enter the number of sections for the entire unit. Otherwise, zero fill.
76	Seed Cycle Code	419	1	X(01)	Internal Use. Companies must leave blank. DAS will determine the seed cycle for RMA reporting. Must be used to sum unit liability.
77	Insured's Acreage Report Signature Date	420	8	9(08)	Required. Format = MMDDCCYY. This date cannot be less than the Reinsurance Year – 1 or greater than the submission date. For FFT this date should be the date proration is based on.
78	Filler	428	2	X(02)	Must be spaces.
79	CEO Coverage Level	430	5	9(01)V9(04)	If CEO coverage is elected, for TX Citrus Trees ONLY, enter CEO coverage level; must be greater than Coverage Level (field 34). Used to determine premium. Zero fill if CEO option does not apply.
80	Agent's Signature Date	435	8	9(08)	Required. Format = MMDDCCYY. This date cannot be less than the Reinsurance Year – 1 or greater than the submission date.
81	Sheller Warehouse Code	443	5	9(05)	Required only if reporting Peanuts with contract price and Pumpkins (0147); must be greater than zero. This code must be reported on liability/premium T11 records with a processing flag of "M" and a contract price, and on T11 records with a processing flag of "S" which must have a contract price. This code must be reported on all T11 records for Pumpkins (0147). See Exhibit 11-5 for codes. Other crops; zero fill.
82	Proration Factor	448	3	9(01)V9(02)	For 2010 Florida Fruit Trees, the applicable proration factor for 2011 crop year by option code and map area, if applicable. See calculations in Exhibit 11-11. For 2011 crop year contracts, factor = factor for signature date + 45 days.

(ACREAGE RECORD – TYPE 11)

Format/Edits

Field No.	Field Name	Begin Pos	Size	Picture	Field Edits
83	Filler	451	3	X(03)	Must be spaces.
84	Peanut Processing Flag	454	1	X(01)	Required for all peanut records in the Unit, IF there is more than one price for the Unit. IF all peanuts in the Unit have the non-contract (Established) price, leave this field blank. 'S' = one single contract price for the unit 'M' = multiple prices for the unit If a UNIT has ALL non-contract peanuts (established price), then ALL records for that unit must have a "blank" flag. If a UNIT has ALL contracted peanuts with ONE contract price (NO non-contracted peanuts and total guarantee must equal contracted pounds), then ALL records for that unit must have an "S" flag. If a UNIT has MORE THAN ONE PRICE (non-contracted peanuts and one contract price or two contract prices, etc.), then ALL records for that unit must have an "M" flag. Else space.
85	Rate Yield	455	10	9(08)V9(02)	Required. Continuous rating insurance plans 25, 44, 47 and 90 rate yield will be used to determine base premium rate and must match rate yield on the record type 15. Rate yield does not have to match yield (field 31). Rate yield can be greater than zero or "zero". A rate yield of "zero" will be used to determine base premium rate, resulting in a higher rate (lower the yield, higher the rate). For Cotton and ELS Cotton, this must be the skip-row rate yield and match the converted rate yield on the record type 15 (record type 15, Rate Yield * skip-row factor). Non-continuous rating insurance plans 41, 42, 45 – rate yield must match rate yield on the T15 record. Insurance plan 55, rate yield must match yield (field 31). Non-continuous rating insurance plans 12, 13, 14, 40, 50, 51 and 73 – zero fill rate yield and yield (field 31). For Peanuts, if field #45 is greater than zero, this field must be greater than zero.
86	Residual Factor	465	4	9(01)V9(03)	Internal. DAS will store the residual factor used in calculation of total premium for plans 25 (RA), 44 (CRC) and 90 (APH). Company will not submit a value.

115	FCIC Initially Accepted Batch	595	4	9(04)	RMA Internal Use. The sequential number identifying the file that was initially submitted by the AIP to FCIC/RMA and accepted by DAS.
116	Filler	599	1	X(01)	Internal Use.

* Data elements that must be accepted to meet timely reporting of an eligible crop insurance contract.

Notes:

The Type 11 record must contain a corresponding Type 15 record number (in field 19) if a yield record is required for the crop. The corresponding Type 15 record must match to the Type 11 on:

Fields 2 thru 13, field 31 and field 82.

For Oysters (0115), the Type 11 record must contain a corresponding Type 15 record number (in field 19).

For Pumpkins (0147), the Type 11 record must contain a corresponding Type 15 record number (in field 19).

A matching Insurance in Force Record (Type 14) must exist for each crop policy.

Acreage will not be accepted by DAS more than 60 days prior to the earliest final planting date for the crop/type/practice in the county. This does not apply to California Sugar Beets (except counties 025, 035, 049, 089 & 093). This does not apply to Wheat and Barley in Idaho, Oregon and Washington.

(ACREAGE RECORD – TYPE 11)

Format/Edits

Field No.	Field Name	Begin Pos	Size	Picture	Field Edits
-----------	------------	-----------	------	---------	-------------

Notes con't

Does not apply to Wheat if the type code = 011 or 997.

Rate State and Rate County can only be different from Location State and County if a written agreement is in effect.

If a producer has a Sheller contract, Peanut records will be reported for 2 primary reasons, 1) to report and calculate the Total Guarantee for the Unit, and 2) to report and calculate the Liability by price and Premium by rate for the Unit. These primary reasons will require the submission of two type 11 records, these are referred to as the total guarantee record and the liability/premium record. If there are variable conditions within the unit that require additional records, (ie late planting, prevented planting, type, practice or share), they will need a total guarantee and liability/premium record.

Total premium for Peanuts is based on the Total Guarantee for Timely Planted Acres (not reduced for late or prevented planting). For Late and Prevented Planting situations, companies must report the appropriate amount of Contracted Pounds on the Liability/Premium records for the Timely Planted Total Guarantee so Total Premium can be calculated correctly. However, do not report contracted pounds that exceed the total guarantee for timely planted acres.

The above reporting requirements may apply to records with a peanut processing flag of "S" or "M".

1) For the Total Guarantee records, the companies will submit data for field numbers, 1-13, 18, 19, 20, 29, 30, 31, 34, 35, 36, 37, 38, 41, 58, 59, 74, 77, 80, 87, 88, 96, 97 and any other field that will affect the total guarantee. Even though Insured Share will not affect the total guarantee, if the share is different, it must be reported with the different acres for the share. All other fields must be "zero filled" or left "blank" on the total guarantee record.

2) For the Liability and Premium records, the companies will submit data for field numbers, 1-13, 18, 19, 23, 26, 27, 28, 33, 34, 38(for non-contracted pounds, if applicable), 39, 40(for contract pounds only), 41, 42, 43, 45, 46, 48, 49, 51, 52, 57, 62, 63, 68, 72, 73, 81 (for contract pounds only), 85, 89, 96, 97, and any other field that will affect the liability or premium. All other fields must be "zero filled" or left "blank" on the liability/premium record.

The Peanut Sheller Warehouse Code must be reported on liability/premium T11 records with a processing flag of "M" and a contract price, and on T11 records with a processing flag of "S" which must have a contract price.

Organic Option

If crop is being insured as Organic by a Written Agreement do not report the organic code in the common option field.

If crop is being insured as Organic and does not need a written agreement, then report the applicable Common Option code (OT = Organic Transitional acreage and OC = Organic Certified acreage).

Biotechnology Endorsement (BE Option Code)

The BE is ONLY available for Corn for Grain in the areas identified in the Pilot Biotechnology Endorsement for plan codes 25 (RA), 44 (CRC) and 90 (APH). The BE option code will be found on the ADM-K record with the applicable factors. The BE option code must be reported on T11 records that qualify and have the discount applied. BE does NOT apply to prevented planting acres, ~~or~~ high-risk acres (ADM F or written agreement type 'HR') or acres with written agreement (other than written agreement types 'UA' and '33'). At least 75% of the total insurable corn acreage PLANTED, including any replanted acreage, in the unit must be Corn for Grain planted to a qualifying hybrid.
