Fresh Market Sweet Corn Growers Need to Make Insurance Decisions Soon

VALDOSTA, Ga., July 13, 2017 - USDA's Risk Management Agency (RMA) reminds Georgia fresh market sweet corn growers that the final date to apply for crop insurance coverage is July 31. Current policyholders who wish to make changes to their existing coverage also have until the July 31 sales closing date to do so.

Crop insurance is a key component of the farm safety net, as it provides protection against a loss in production due to natural perils, such as drought or excessive moisture. Coverage is available for fresh market sweet corn in Decatur, Grady, and Mitchell counties.

Growers are encouraged to visit their crop insurance agent soon to learn specific details for the 2018 crop year. A list of crop insurance agents is available at all USDA Service Centers and online at the RMA [Agent Locator](#). Growers can use the RMA [Cost Estimator](#) to get a premium amount estimate of their insurance needs online.

For more information about crop insurance and the modern farm safety net visit www.rma.usda.gov.
