Clary Sage Producers Need to Make Insurance Decisions Soon

RALEIGH, N.C., June 26, 2020 — USDA's Risk Management Agency (RMA) reminds North Carolina clary sage producers that the final date to apply for crop insurance coverage for the 2021 crop year is July 31. Current policyholders who wish to make changes to their existing coverage also have until July 31 to do so.

Federal crop insurance is critical to the farm safety net. It helps producers and owners manage revenue risks and strengthens the rural economy. Coverage for clary sage is available in select counties. Additional information can be found on the [Actuarial Information Browser](#) page on the RMA website.

USDA's Risk Management Agency (RMA) is authorizing additional flexibilities due to coronavirus while continuing to support producers, working through Approved Insurance Providers (AIPs) to deliver services, including processing policies, claims and agreements. RMA staff are working with AIPs and other customers by phone, mail and electronically to continue supporting crop insurance coverage for producers. Farmers with crop insurance questions or needs should continue to contact their insurance agents about conducting business remotely (by telephone or email). More information can be found at farmers.gov/coronavirus.

Crop insurance is sold and delivered solely through private crop insurance agents. A list of crop insurance agents is available online using the RMA [Agent Locator](#). Producers can use the RMA [Cost Estimator](#) to get a premium amount estimate of their insurance needs online.

Learn more about crop insurance and the modern farm safety net at www.rma.usda.gov.
