2 Projected Prices and Volatility Factors apply for Stacked Income Protection (STAX - cotton only).

3 In accordance with the Commodity Exchange Price Provisions (CEPP), RMA used the CBOT September rice contract to derive the projected rice prices since the November contract lacks sufficient volume and open interest activity.

Malting Barley Endorsement

The Malting Barley Endorsement (MBE) utilizes a Chicago Board of Trade (CBOT) soft red wheat price component to derive the projected price for any insured whose malt barley contract provides for a premium amount above or below a base price to be determined, and the base price is not determined by the acreage reporting date.

Malting Barley Type	Exchange Contract	Projected Price	Volatility Factor
Spring Planted Type	CBOT September SRW Wheat	\$8.06/bushel	0.24

Hybrid Seed Price Endorsement

RMA approved the following 2022 CY hybrid seed corn prices for the Hybrid Seed Price Endorsement: \$5.90 per bushel for the non-organic practice; and \$11.72 per bushel for the certified organic practice.

These amounts reflect the higher values of either: 1) the previously-released 2022 crop year MPCl hybrid seed corn price elections [non-organic practice: \$5.19 per bushel; certified organic practice: \$10.12 per bushel]; or 2) the futures-based prices derived from the average daily settlement price in February for the 2022 December CBOT corn contract [non-organic practice: \$5.90 per bushel], multiplied by an organic corn price factor [certified organic practice: \$11.72 per bushel].
