Producers Need to Make Insurance Decisions Soon

SAINT PAUL, Minn., Oct. 13, 2021 — USDA's Risk Management Agency (RMA) reminds Iowa, Minnesota, and Wisconsin producers that the final date to apply for crop insurance for perennial crops such as apples, cranberries, grapes, and tart cherries is November 20 for the 2022 crop year. Growers who are interested in the Whole-Farm Revenue Protection policy and are late fiscal year filers have until November 20 to apply for crop insurance. Current policyholders who wish to make changes to their existing coverage also have until the November 20 sales closing date to do so.

Federal crop insurance is critical to the farm safety net. It helps producers and owners manage revenue risks and strengthens the rural economy. Producers may select from several coverage options, including yield coverage, revenue protection, and area risk policies. Additional information can be found on the [Actuarial Information Browser](#) page on the RMA website.

Producers are encouraged to visit their crop insurance agent soon to learn specific details for the 2022 crop year.

RMA is authorizing additional flexibilities due to coronavirus while continuing to support producers, working through Approved Insurance Providers (AIPs) to deliver

services, including processing policies, claims, and agreements. RMA staff are working with AIPs and other customers by phone, mail, and electronically to continue supporting crop insurance coverage for producers. Farmers with crop insurance questions or needs should continue to contact their insurance agents about conducting business remotely (by telephone or email). More information can be found at farmers.gov/coronavirus.

Crop insurance is sold and delivered solely through private crop insurance agents. A list of crop insurance agents is available online using the RMA [Agent Locator](#). Producers can use the RMA Cost Estimator to get a premium amount estimate of their insurance needs online. Learn more about crop insurance and the modern farm safety net at www.rma.usda.gov.

USDA touches the lives of all Americans each day in so many positive ways. In the Biden-Harris Administration, USDA is transforming America's food system with a greater focus on more resilient local and regional food production, fairer markets for all producers, ensuring access to healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate smart food and forestry practices, making historic investments in infrastructure and clean energy capabilities in rural America, and committing to equity across the Department by removing systemic barriers and building a workforce more representative of America. To learn more, visit www.usda.gov.
