Davis, Calif., Sept. 6, 2023— The U.S. Department of Agriculture (USDA) is updating its Actual Revenue History (ARH) Citrus Pilot crop insurance program for the 2025 and succeeding crop years. These changes, implemented by the USDA's Risk Management Agency (RMA), will add the Cara Cara type to the ARH program.

"Adding the Cara Cara type will benefit citrus producers who will have better options for tailoring their insurance to the unique risk management needs of the different types of citrus they grow," said Jeffrey Yasui, RMA Davis Regional Office Director. "For example, the Cara Cara type has higher prices and lower yields than other Navel oranges; separating out the Cara Cara type will mean producers' insurance will more accurately reflect their operation's risk."

The addition of the Cara Cara type provides consistency across other California citrus insurance programs. The Cara Cara type was added as a separate type for the California actual production history (APH) coverage program starting with the 2024 crop year.

The sales closing date for the 2025 crop year is **November 20, 2023**.

More Information

Crop insurance is sold and delivered solely through private crop insurance agents. A list of crop insurance agents is available at all USDA Service Centers and online at

the [RMA Agent Locator](#). Learn more about crop insurance and the modern farm safety net at rma.usda.gov or by contacting your [RMA Regional Office](#).

USDA touches the lives of all Americans each day in so many positive ways. Under the Biden-Harris Administration, USDA is transforming America's food system with a greater focus on more resilient local and regional food production, fairer markets for all producers, ensuring access to safe, healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate smart food and forestry practices, making historic investments in infrastructure and clean energy capabilities in rural America, and committing to equity across the Department by removing systemic barriers and building a workforce more representative of America.
