Flournoy 6/27/2022 Subject Malting Barley Endorsement Changes Effective for the 2023 and Succeeding Crop Years

Background

The Risk Management Agency (RMA) revised the Malting Barley Endorsement to make the following clarifications for the 2023 and succeeding crop years:

- Throughout Crop Provisions, changed "fall" to "winter" to be consistent with terminology in the Small Grains Crop Provisions.
- Clarified the definition of "local market price" to ensure the local market price applies to malting barley accepted at a reduced price (in addition to rejections) for failing to meet contract or Special Provisions specifications, as applicable; and
- Limited minimum calculated indemnity to zero in section 8(a)(6).

Action
