Subject

Price B for Cotton Quality Adjustment

In accordance with the Special Provisions, Price B will be established by adding premiums and/or discounts associated with the predominant cotton quality characteristics, as determined by the Farm Service Agency, to the Upland and Extra Long Staple (ELS) Cotton National Average Loan Rates. The predominant quality characteristics of cotton in each state are determined from the most recent three years of Agricultural Marketing Service cotton classing data.

Insurance Providers must use the applicable Price B for quality adjustment purposes from the attached Upland and ELS Cotton Quality tables for the 2021 crop year.

DISPOSAL DATE: December 31, 2021
