

# Weaned Calf Risk Protection

## Overview

Weaned Calf Risk Protection (WCRP) is designed to offer beef cow-calf producers revenue coverage for their calves from birth through weaning. WCRP is unique among other livestock insurance plans by providing both yield and price protection. Coverage is based on the average weaning weight per calf with T-Yields available. Program projected and harvest prices are based on the CME Feeder Cattle Futures Contract and adjusted according to weight utilizing a price slide. Notice/reporting requirements and exclusions apply.

## Commodity Insured

Spring born beef calves are insurable from live birth through weaning if:

- You have a share in the calves
- Premium rates are available for the county
- Calves are a type designated in the Special Provisions and grown for the production of beef
- Produced using generally recognized and acceptable practices
- Insurability requirements are met and calves are reported on your calf report and
- If inspected, your livestock operation is considered acceptable by the AIP.

## Availability

Insurance is available in all counties in Colorado, Nebraska, South Dakota, and Texas.

## Causes of Loss

You are protected against the following:

- Adverse weather conditions
- Fire
- Earthquake

- Wildlife
- Volcanic eruption
- Disease, but not damage due to insufficient or improper application of disease control measures
- Other causes directly damaging pastures and other forms of grazing (e.g., insects, provided acceptable control measures were followed)
- Calf death due to a covered peril occurring during the insurance period (e.g., disease, freezing temperatures, flood, fire, hail, wildlife, etc.) provided you submit acceptable supporting documentation of calf death and the insured cause(s) of loss or
- For revenue protection, a change in harvest price from projected price unless FCIC can prove the price change was the direct result of an uninsured cause of loss specified in section 12(a) of the Basic Provisions.

## Insurance Period

Insurance attaches to calves reported on your calf report the earlier of the:

- Date you submit your calf report, including any revisions
- Calf reporting date or
- Final calf reporting date.

Coverage ends at the earliest of:

- Total destruction of the insured calves
- Final adjustment of a loss
- Abandonment of the insured calves
- Putting the insured calves to an alternative use (backgrounding, etc.)
- Sale of the insured calves
- The calendar date calves are weaned
- Moving the insured calves to another country or
- The January 31 end of insurance date.

## Important Dates

Sales Closing/Cancellation.....January 31

Final Calf Reporting.....August 1

## Coverage Options

You may buy WCRP coverage under one of the insurance plans offered: Catastrophic Risk Protection, Yield Protection, Revenue Protection, or Revenue Protection with Harvest Price Exclusion, where available.

## Unit Division

**Basic Units** – Includes all of your insurable calves in the county by share arrangement. For example, you own 100% share in 50 calves and a 50% share in 20 calves. In this scenario, you would have two basic units.

## Coverage Levels and Premium Subsidies

Coverage levels range from 50 to 85 percent of your approved yield. Insurance premiums are subsidized as shown in the following table. For example, if you choose the 65 percent coverage level, your premium share would be 41 percent of the base premium.

Item	Percent							
Coverage Level	50	55	60	65	70	75	80	85
Premium Subsidy	67	64	64	59	59	55	48	38
Your Premium Share	33	36	36	41	41	45	52	62

Catastrophic Risk Protection (CAT) coverage is fixed at 50 percent of your approved yield and 55 percent of the price election. CAT is 100 percent subsidized with no premium cost to you. There is, however, an administrative fee of \$655 per county, regardless of the number of head.

## Where to Buy Livestock Insurance

All multi-peril livestock insurance, including CAT policies, are available from private insurance agents. A list of livestock insurance agents is available at all USDA Service Centers and on the RMA website at [Agent Locator](#).

Customer Note: Agents may reside or have an office in one state/county, but sell and service policies in other states/counties. An agent authorized to sell livestock policies is not required to sell crop policies, and vice versa.

## Calculations

Assume Revenue Protection is elected and you have a 100 percent share in a unit. A general overview of the revenue protection guarantee and indemnity calculations are as follows:

### Revenue Protection Guarantee

X	Approved Yield per Calf Coverage Level
<hr/>	
<b>Production Guarantee Per Calf</b>	
X	Production Guarantee per Calf Calves Reported
<hr/>	
<b>Total Production Guarantee</b>	
Total Production Guarantee	
Greater of Applicable Projected or Harvest Price	
X	<hr/>
<b>Revenue Protection Guarantee</b>	

### Indemnity Calculation

X	Actual Yield per Calf Calves Weaned
<hr/>	
<b>Total Production to Count</b>	
Total Production to Count	
X	Applicable Harvest Price
<hr/>	
<b>Total Value of Production to Count</b>	
Revenue Protection Guarantee	
Total Value of Production to Count	
—	<hr/>
<b>Indemnity</b>
