PART 1: GENERAL INFORMATION AND RESPONSIBILITIES

1 General Information

A. Purpose

The FCIC is a wholly owned government corporation established by the ACT, 7 U.S.C. 1501. Its purpose is to promote the national welfare by improving the economic stability of agriculture through a sound system of crop insurance and providing the means for the research and experience helpful in devising and establishing insurance. RMA is charged with regulation and oversight of the ACT and the administration of the crop insurance program on behalf of FCIC.

This handbook provides the official FCIC-approved standards for use in the sale and service of any eligible crop insurance policy; required statements and disclosures; and the standards for submission and review of NRS in accordance with the SRA for the 2025 and succeeding CYs.

B. Source of Authority

Federal programs enacted by Congress and the regulations and policies developed by RMA, USDA, and other Federal agencies provide the authority for program and administrative operations; and basis for RMA directives. Administration of the Federal crop insurance program is authorized by the following:

- (1) the ACT, 7 U.S.C. 1501 et seq.;
- (2) The Food Security Act of 1985, 16 U.S.C. 3801 et seq.;
- (3) Controlled Substance Act of 1970, 21 U.S.C. 801 et seq.;
- (4) PRWORA, 8 U.S.C. 1601 et seq.;
- (5) Privacy Act of 1974, 7 U.S.C. 552a;
- (6) Freedom to E-File Act, P.L. 106-222;
- (7) Agriculture General Administrative Regulation, 7 CFR part 400;
- (8) HELC and WC, 7 CFR part 12; and
- (9) SRA and LPRA.

C. Title VI of the Civil Rights Act of 1964

The USDA prohibits discrimination against its customers. Title VI of the Civil Rights Act of 1964 provides that “No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” Therefore, programs and activities that receive Federal financial assistance must operate in a non-discriminatory manner. Also, a recipient of RMA funding may not retaliate against any person because they opposed an unlawful practice or policy, or made charges, testified, or participated in a complaint under Title VI.

It is the AIPs’ responsibility to ensure that standards, procedures, methods, and instructions, as authorized by FCIC in the sale and service of crop insurance contracts, are implemented in a manner compliant with Title VI. Information regarding Title VI of the Civil Rights Act of 1964 and the program discrimination complaint process is available on the USDA public website at www.usda.gov/oascr. See [Para. 503](#) for information about the RMA Non-Discrimination Statement.

E. Procedural Issuance Authority

This handbook is written and maintained by:

USDA-Risk Management Agency
Office of Deputy Administrator for Product Management
Product Administration and Standards Division

For applicable RMA Regional or Compliance office contacts referenced throughout this handbook, refer to www.rma.usda.gov/rmalocal#region-state.

F. Procedural Questions

Questions regarding form standards and procedures may be directed to RMA PASD, Underwriting Standards Branch via the PIL or the e-mail addresses as provided in GSH Para. 1G.

G. Acronyms and Abbreviations

See the GSH for applicable acronyms and definitions.

2 Responsibilities

A. AIP Responsibilities

AIPs must develop documents in accordance with RMA standards and other RMA form standard issuances. Upon request, each AIP must provide documents, document completion instructions and applicable computation results to the RMA or any other USDA oversight agency for review of compliance with these and other RMA form standards.

B. RMA Responsibilities

RMA must establish and maintain the DSSH to provide the minimum form standards for the applicable crop insurance documents and provide guidance and clarification to the AIPs as requested.

3 The Privacy Act of 1974

The Privacy Act of 1974, 5 U.S.C. § 552a (Privacy Act), establishes a code of fair information practices that governs the collection, maintenance, use and dissemination of information about individuals that is maintained in systems of records by federal agencies. A system of records is a group of records under the control of an agency from which information is retrieved by the name of the individual or by some identifier assigned to the individual.

In accordance with the Privacy Act, RMA is authorized by the ACT or other Acts and the regulations promulgated thereunder, to solicit the information requested on documents established by RMA, or by AIPs, that have been approved by the FCIC, to deliver Federal crop insurance. The information is necessary for AIPs and RMA to operate the Federal crop insurance program, determine program eligibility, conduct statistical analysis, and ensure program integrity.

3 The Privacy Act of 1974 (Continued)

See [Para. 501](#) for information about the RMA Privacy Act statement.

4 Freedom to E-File

The Freedom to E-File Act, P.L. 106-222, requires the USDA to establish an electronic filing and retrieval system to enable producers to file paperwork electronically with USDA.

A. General Information

- (1) Sec 5 of the Freedom to E-File Act required FCIC to develop a plan which would allow agriculture producers:
 - (a) To obtain, over the internet, from AIPs, all forms and other information concerning the program under the jurisdiction of FCIC in which the producer is a participant (see GSH Para. 814 for electronic communication requirements for policy provision changes);
 - (b) To file electronically all paperwork required for participation in the program; and
 - (c) To have the option to file electronically, or in paper form in accordance with the Freedom to E-File Act; Sec 3(b).
- (2) AIPs are required to comply with the Freedom to E-File Act and provide electronic accessibility to producers.
 - (a) AIPs are required to establish an E-Business Implementation Plan (EBIP).
 - (b) The EBIP requires an established back-up system to the primary system or the facility where information is housed to ensure computer failure does not deny access to records.
 - (c) AIPs must meet these requirements prior to approval for an SRA.

B. Generated Electronic Forms

Electronic forms must be generated in accordance with the standards contained in this handbook, other applicable RMA standards, and in accordance with the AIP established EBIP.

5-200 (Reserved)

PART 2: NON-REINSURED SUPPLEMENTAL CROP INSURANCE POLICIES

201 General Information

An NRS policy is a policy, endorsement, or other risk management tool not reinsured by FCIC under the ACT, that offers additional coverage, other than for loss related to hail. Loss related to hail includes wind and fire coverage for damage associated with a hailstorm.

202 Submission Requirements

Any NRS policy that covers the same agricultural commodity as any policy reinsured by FCIC under the ACT must be provided to RMA. If changes are made to a previously reviewed NRS or five years have lapsed since RMA's review, the NRS must be submitted for review. Failure to provide such NRS policy or endorsement to RMA prior to its issuance shall result in the denial of reinsurance, A&O subsidy, and risk subsidy on all underlying FCIC reinsured policies unless the underlying FCIC policy was sold by another AIP. If the underlying FCIC reinsured policy is sold by another AIP, the AIP that sold the NRS may be required to pay FCIC an amount equal to the reinsurance, A&O subsidy, and risk subsidy on the underlying FCIC policy.

An electronic copy in Microsoft Office compatible format of the new or revised NRS policy and related materials must be submitted at least 150 days prior to the first SCD applicable to the NRS policy. At a minimum, examples that demonstrate how liability and indemnities are calculated under differing scenarios must be included. Electronic copies of the NRS must be sent to the Deputy Administrator for Product Management at DeputyAdministrator@usda.gov.

203 Review of NRS Crop Insurance Policies

The AIP shall not sell an NRS policy unless it has complied with the requirements of 7 CFR § 400.713. RMA shall review the NRS policy to determine whether it materially increases or shifts risk to the underlying policy or plan of insurance, reduces or limits the rights of insured, causes market disruption, provides an impermissible rebate, or is conditioned upon or provides incentive for the purchase of the underlying policy or plan of insurance reinsured by FCIC with a specific agent or approved insurance provider.

- (1) RMA will have 75 days to review the policies, provided all information required by RMA is included in the initial submission of the policy package.
- (2) The AIP must maintain and make available at the request of FCIC, the underwriting information pertaining to a non-reinsured supplemental contract or similar instrument of insurance, including the policy number and all SSNs, EINs, or RMA assigned number(s) related to the eligible crop insurance contract.

204-300 (Reserved)

PART 3: FORM STANDARDS OPERATING POLICY

301 Form Development

AIPs are to control and develop all forms in accordance with RMA established policies and procedures. The agent, contractor, or AIP representative is not permitted to develop any form for use within policies administered by the AIP under the authority of FCIC, unless authorized by the AIP. The AIP must meet the standards that are set forth in the policies, options and endorsements as issued by RMA.

Standards contained in this handbook are not applicable to AIP administrative forms that do not affect the policy provisions, such as a form for the direct deposit of an insured's indemnity. AIPs may develop additional forms based upon their internal needs, such as electronic transfer of funds.

Form standards not contained in the DSSH may be in other RMA handbooks such as: the Crop LASHs, WAH, and other applicable issuances approved by RMA. Section 508(h) private product submissions or pilot programs approved by the FCIC Board of Directors may also specify form standards. Any forms developed in accordance with form standards from other directives must also adhere to [this Part](#) and [Part 4](#), as applicable.

302 Substantive versus Non-Substantive

Form standards are required to contain all items identified as "Substantive" unless not authorized by a specific policy. See [the exhibits](#) to this handbook for specific form requirements. Form standards provided in other handbooks are considered "Substantive" unless otherwise noted. Items identified as "Non-Substantive" are not required, but are recommended forms standards that may be included on the form at the AIPs discretion.

303 Combined Form Standards

AIPs, at their election, may combine two or more forms. If two or more forms issued are combined into one form, the combined form must meet the applicable standards in place for each individual form.

304 Signatures

The AIP has the discretion of using "printed name," "name," or some other variation on a form where a signature and a printed name is substantive.

305 Interest Rates

Any form standards containing an interest rate for unpaid payment amounts cannot be higher than the rates provided in the 7 CFR § 457.8 sec 24 and 26.

306 Required Statements

Unless otherwise indicated, required statements pertain to all insurance policies administered under the SRA, not only to those standards that appear in this handbook. All required statements must appear verbatim on the AIP-generated form unless otherwise noted. See [Parts 5](#) and [6](#) for applicable required statements and disclosures.

If a person refuses to acknowledge required statements, then the AIP representative should annotate such refusal; affix the AIP Representative's printed name and signature, and the time and date to the form where such statement(s) have been refused.

307-400 (Reserved)

PART 4: GENERAL FORM STANDARDS

401 Form Style

A. Format

Form standard item entries may be formatted as line entries, column headings, boxes, tables, or blocks, as appropriate. Headings for form entries may be abbreviated, provided an explanation is included in the form completion instructions. It is at the AIP's discretion whether the required headings are column headings or row headings.

B. Form Title

The Form Title and a Form Identification Number (alpha and/or numeric) must be on all forms. The Form Identification Number is to be developed according to the internal procedures of the AIP.

C. Font Size

The text for all documents should be developed with an 8-point font size when possible; however, font size shall not be less than 6-point. This will assist the applicants/insureds in reading documents presented to them.

D. Page Numbering

If multiple pages are required for a particular form each page must be numbered as follows:

“Page __ of __.”

E. Required Statements

If a statement is on the back of the form, add “See Reverse Side for Required Statements,” or other similar reference, on the front of the form.

402 Identification Numbers

Identification numbers include SSN, EIN, or RAN.

A. Form Completion Instructions

Form completion instructions must:

- (1) Provide instruction to enter the appropriate identification number;
- (2) Provide instruction to enter the correct identification number type; and
- (3) Provide the applicant/insured the opportunity to verify that their reported identification number is correct.

402 Identification Numbers (Continued)

B. Masking

Masking, also called “truncating,” results in the 9-digit identification number being displayed as XXXXX1234, XX-XXX1234, XXX-XX-1234, or other variation on AIP-generated forms for security.

AIPs must mask the identification number on AIP-generated forms containing an identification number. This includes, but is not limited to, forms generated for such purposes as loss adjustment and underwriting reviews. The identification number must not be masked when reported by the person providing the identification number.

AIP must provide unmasked data when a Policy Transfer/Application from one AIP to another AIP to verify correct policy information.

If the identification number is unmasked in order to provide the applicant/insured an opportunity to verify whether the identification number, or to assist in a transfer, is true and accurate, the AIP must employ a method of protecting such number.

C. Identification Number Type on Forms

Must contain the following, check one:

- SSN
- EIN
- RAN

AIPs may use an alternate format for allowing the identification number type provided all identification number types are present (SSN/EIN/RAN).

403 Person Types

Form completion procedures must provide instructions to enter the specific person type, not the SRA Appendix III entity type code. This entry is verified for accuracy during applicable RMA, USDA oversight agencies, or AIP reviews and during loss adjustment. See Part 2 of the GSH for person type descriptions and see also SRA Appendix III for applicable entity type codes.

404 Substantial Beneficial Interest Holder

For persons with a substantial beneficial interest in the insured as identified on the Application: the person type, identification number, and identification number type are required on each individual form unless it is collected on the Social Security Number and Employee Identification Number Reporting form (see [Exhibit 23](#)).

405 Agent/Loss Adjuster Code

If an AIP assigns a code for its agent or loss adjuster, that code is “Substantive.” The assigned code number cannot be the individual’s SSN or a variation thereof. The code number is required to be completed on the applicable form, as follows:

<i>I.B. Agent</i>	06/01/2018	12RMA34
(Agent’s Signature)	(Date)	(Code Number)

406 State and County Name

The entry for “State and County” must be the state and county name where insurance attaches. Form completion procedures must provide this information.

407 AIP Name and Address

AIP’s full name and address as specified in the SRA. The AIP may select item (1) or (2) to fulfill this “Substantive” requirement where required on an individual form:

- (1) Provide the AIP’s name and address with the policy or policy jacket at time of issue; or
- (2) Provide the AIP’s full name and address on all forms.

Note: This exception does not circumvent the requirement for the Agent’s company name and address to be provided where indicated on the form as substantive.

408 Street and/or Mailing Address

“Street and/or Mailing Address” are substantive items as indicated by the applicable form standard. When the street and mailing addresses are different, only the mailing address is the required entry.

409 City, State, Zip Code

“City,” “State,” and “Zip Code” are substantive items as indicated by the applicable form standard when these items or the form requires “Street and/or Mailing Address.” The AIP has discretion of whether to add these items as independent form entries or provide instruction that the “Street and/or Mailing address” form entry includes the “City, State and Zip Code” as appropriate.

410 Added County Election

Guidelines to administer this election are found in the GSH.

If AIPs elect to include this option on the Application, one or both of the following statements must appear on the Application as “Substantive”:

Yes No I request insurance coverage for my share of the Category B crops (except forage production) specified below with a designated county in all added counties where the crops are insurable.

410 Added County Election (Continued)

- Yes No I request insurance coverage for my share of the Category B crops (except forage production) specified below with a designated county in all added counties within the state where the crops are insurable.

If your designated plan of insurance, level of coverage or price is not available in the added county, coverage will be provided through the Catastrophic Risk Protection Endorsement, if the crop is insurable in the actuarial documents for an added county.”

411 Landlord/Tenant Insuring Other’s Share

Insuring a landlord/tenant is on a policy basis. The form must clearly state the tenant will insure the landlord’s share or landlord will insure the tenant’s share. Form completion instructions must provide an explanation of the landlord/tenant insuring the other’s share and must require evidence of the non-insuring party’s approval. AIPs may use the alternate language with the form’s completion instructions providing explanations. Guidelines are found in the GSH.

Suggested formats (Substantive):

- (1) “Is applicant insuring the tenant’s share?” “Yes No No - My landlord’s share. I am providing a Power of Attorney or Lease Agreement as evidence of my authority to insure their share;
- My tenant’s share under my crop policy. I am providing a Power of Attorney or Lease Agreement as evidence of my authority to insure their share” (Substantive); or
- (3) Enter statement in the Remarks section that landlord/tenant is insuring the other’s share under the crop policy.

412 Price Election

When Price Election appears on the Application, it must be clearly indicated if “Additional Price or Established Price” is elected.

Price Election may be shown as “Price times Price Election Percentage,” or in aggregate. If shown in aggregate, form completion standards must explain “Price times Price Election Percentage.”

413 Options, Elections, or Endorsements

The policy may authorize options, elections and endorsements that require an insured to elect, add, exclude, or otherwise modify coverage. If a form is specifically developed for (or a form is specifically modified to capture) an option, election, or endorsement, it must be used by the AIP.

413 Options, Elections, or Endorsements (Continued)

Otherwise, AIPs must use the following forms for an insured to elect, add, exclude, or otherwise modify coverage.

- (1) Required on or before the SCD, AIPs must use the Application or the Policy Change form.
- (2) Required on or before the ARD or PRD, AIPs must use the Policy Change form.

PART 5: GENERAL REQUIRED STATEMENTS AND DISCLOSURES

501 RMA Privacy Act Statement - Collection of Information and Data

The Privacy Act prohibits the disclosure of Protected Information absent the written consent of the individual. The Privacy Act statement is required for agents, loss adjusters and policyholders. This statement must be included on any form the person signs and a copy maintained by the AIP.

Protected Information includes, but is not limited to, any personally identifiable information about a policyholder, agent, or loss adjuster; and information about the policyholder's farming operation or insurance policy. Such information is generally acquired from the policyholder, agent or loss adjuster, USDA, CIMS, or the insured's previous or current AIP or agent that is protected from disclosure by the Privacy Act, section 502(c) of the ACT, or any other applicable statute. This includes all hard copy or electronic information (see also [Para. 603](#)).

If the Privacy Act statement is provided as a separate document, evidence of receipt of this statement must be shown by securing the signature of applicant/insured/agent/loss adjuster and the date at the time of collection. This process must be completed for each document that requires the Privacy Act statement. The AIP must be able to substantiate the statement was provided in accordance with the Privacy Act. If the AIP can substantiate with legal sufficiency the insured received and acknowledged these required statements by an alternative method, then such method is acceptable.

Required Statement:

The following statements are made in accordance with the Privacy Act of 1974 (5 U.S.C. 552a): The Risk Management Agency (RMA) is authorized by the Federal Crop Insurance Act (7 U.S.C. 1501-1524) or other Acts, and the regulations promulgated thereunder, to solicit the information requested on documents established by RMA or by approved insurance providers (AIPs) that have been approved by the Federal Crop Insurance Corporation (FCIC) to deliver Federal crop insurance. The information is necessary for AIPs and RMA to operate the Federal crop insurance program, determine program eligibility, conduct statistical analysis and ensure program integrity. Information provided herein may be furnished to other Federal, State, or local agencies, as required or permitted by law, law enforcement agencies, courts or adjudicative bodies, foreign agencies, magistrate, administrative tribunal, AIP's contractors and cooperators, Comprehensive Information Management System (CIMS), congressional offices, or entities under contract with RMA. For insurance agents, certain information may also be disclosed to the public to assist interested individuals in locating agents in a particular area. Disclosure of the information requested is voluntary. However, failure to correctly report the requested information may result in the rejection of this document by the AIP or RMA in accordance with the Standard Reinsurance Agreement between the AIP and FCIC, Federal regulations, or RMA-approved procedures and the denial of program eligibility or benefits derived therefrom. Also, failure to provide true and correct information may result in civil suit or criminal prosecution and the assessment of penalties or pursuit of other remedies.

502 RMA Certification Statement

The certification statement must be included on any form that the person signs which collects information from the person, such as the Application, Acreage Report, etc. The certification statement is not applicable to appraisal worksheets.

502 RMA Certification Statement (Continued)

If a form standard contains a modified certification statement, such as the Individual Conflict of Interest Disclosure, this certification statement is not required, unless otherwise noted by the form standards.

Required Statement:

I certify that to the best of my knowledge and belief all of the information on this form is correct. I also understand that failure to report completely and accurately may result in sanctions under my policy, including but not limited to avoidance of the policy and in criminal or civil penalties (18 U.S.C. §1006 and §1014; 7 U.S.C. §1506; 31 U.S.C. §3729, §3730 and any other applicable federal statutes).

503 RMA Non-Discrimination Statement

It is the AIP's responsibility to ensure that standards, procedures, methods, and instructions, as authorized by FCIC in the sale and service of crop insurance contracts, are implemented in a manner compliant with Title VI. The non-discrimination statement must be included on any form the person signs or provided to the person on a separate form in which the person signs and a copy maintained by the AIP. Additionally, applicable AIP marketing materials must also include a non-discrimination statement. The RMA and USDA Non-Discrimination Statement is available on the RMA public website at:

- (1) RMA Non-Discrimination Statement: www.rma.usda.gov/about-rma/website-policies-important-links/nondiscrimination-statement
- (2) USDA Non-Discrimination Statement: www.usda.gov/non-discrimination-statement

A. General

The non-discrimination statement shall be posted in AIP and agent offices, on websites, forms and in newsletters and advertisements. Additionally, all materials released to the public for distribution, including fact sheets, brochures, and any Federal crop insurance related materials must include the non-discrimination statement.

Remedies and complaint filing deadlines vary by program or incident.”

Exceptions will only be made if the size of the material is too small to include the full statement. The font size shall be the same for the following statement regardless: “[T]his institution is an equal opportunity provider” or “[AIP Name] is an equal opportunity provider.”

504 USDA Multiple Benefit Statement

AIPs must include the Multiple Benefit Statement on the acreage report.

Required Statement:

I understand that obtaining multiple Federal benefits for the same loss, such as a Noninsured Crop Disaster Assistance Program (NAP) payment(s) and a Federal crop insurance indemnity, is prohibited by law. I certify that I have or will disclose any other USDA benefit; including any NAP benefit, received for this crop. Failure to disclose the receipt of multiple Federal benefits, or failure to repay one of the multiple Federal benefits such as either the NAP benefit or the Federal crop insurance indemnity for the same crop, may result in my being disqualified from receiving Federal crop insurance benefits, as well as being ineligible for various programs administered by the Farm Service Agency for up to five (5) years.

505 Native Sod

AIPs must provide the Native Sod Statement to insureds in the states of Iowa, Minnesota, Montana, Nebraska, North Dakota, and South Dakota, on or before the ARD for the current crop year.

Required Statement:

I understand that if I till native sod acreage, I will be assessed a reduction in yield guarantee and premium subsidy, these reductions apply in the crop year that my total native sod acreage tilled exceeds 5 acres in the county (cumulated across crops and crop years), and these reduction in benefits may be retroactively applied within a crop year.

506 Conservation Compliance - Exception

A person (individual or legal entity) that began farming for the first time during the reinsurance year, must sign the applicable conservation compliance certification statement to be eligible for this one-time exception (see [Exhibit 3](#)).

The certification statement must be signed by the later of the premium billing date or 60 days after a transfer is approved for transferees who are the beneficiaries of a Transfer of Coverage and Right to Indemnity or because of death, disappearance, or determined judicially incompetent.

The AIP must advise the insured that in order to qualify for the exemption, the insured is required to sign one of the applicable conservation compliance certification statements to qualify for the exemption. AIPs must maintain the signed certification statement in accordance with SRA record retention requirements.

507 Conditions of Acceptance Statement

The Application is accepted and insurance attaches in accordance with the policy unless:

- (1) FCIC determines that, in accordance with the regulations, the risk is excessive;
- (2) Any material fact is omitted, concealed, or misrepresented in the Application or in the submission of the Application;
- (3) The applicant failed to provide complete and accurate information required by the Application;
or
- (4) An affirmative answer to any question appearing on the Conditions of Acceptance form.

See [Exhibit 4](#).

508-600 (Reserved)

PART 6: AIP REQUIRED STATEMENTS AND DISCLOSURES

601 Anti-Rebating Certification Statement

In accordance with Sec 508(a)(9) of the ACT and the SRA, a company and its affiliates are prohibited from providing a rebate, except as authorized in Sec 508(a)(9)(B). For more information regarding rebates, contact RMA Reinsurance Services Division.

The Anti-Rebating Certification is an individual certification of the applicant/insured and the agent required at the time liability is established. This certification is required for each crop year for the crop or crops contained on the Application associated with the policy number. Furthermore, the agent is the agent who accepts and signs the applicable form in which liability is established. The time liability is established is the time specified by the applicable policy, e.g., at acreage reporting time (see [Exhibit 6](#)).

602 Covenant Not to Sue Statement (Covenant)

As defined in Sec 1 of the SRA, before an agent is allowed to act on behalf of an AIP with respect to the sales or service of eligible crop insurance contracts, the AIP must obtain from such agent the written acknowledgement referred to in Sec III(a) of the SRA.

If the agent fails to sign written acknowledgement to the Covenant by the deadline, any policies sold or serviced by such agent will be denied reinsurance by RMA. Below is an example of the Covenant for use by the AIP, or any other Covenant utilized by the AIP which meets the standards required by Section III(a) of the SRA is acceptable.

Example Statement:

“Section III(a)(2)(K) of the Standard Reinsurance Agreement (“SRA”) obligates us, [INSERT COMPANY NAME], to covenant not to sue the Federal Crop Insurance Corporation, Risk Management Agency, United States Department of Agriculture, or any officer, agent, or director thereof (collectively, “FCIC”) in any judicial or administrative proceeding, or not to assist any third party that has instituted or filed any such proceeding, challenging the legality of the terms and conditions of the SRA Section III(a). Section III(a)(2)(K) also obligates us [Insert name of the Company] to obtain the following acknowledgement from you.

I agree to be and am bound by the above-stated covenant not to sue given to FCIC by you [INSERT COMPANY NAME] regarding the terms and conditions of Section III(a).”

A. Incorporation

To the extent that an AIP has contracts with individual agents, the Covenant Not to Sue Statement (Covenant) must be incorporated into or appended to such contracts. If written acknowledgement was incorporated or appended to an agency contract covering multiple agents, it does not meet the requirement of Sec III(a)(2)(K) of the SRA, unless such acknowledgement is signed individually by each agent within the agency.

The AIP is not required to certify to RMA that it has obtained written acknowledgement from each agent. However, AIPs will be required to provide RMA a copy of such acknowledgement for any agent upon request.

B. Prior Reinsurance Year Covenant Acknowledgements

If existing Covenant acknowledgements executed in previous reinsurance years did not have specific references, or any other terminology that would limit its effect to the previous reinsurance year only, such acknowledgement may be considered effective for future reinsurance years.

However, if existing acknowledgements of the Covenant have a reinsurance year limitation, then a new acknowledgement without the reinsurance year limitation must be executed by the agent. If an agent executes or has previously executed an acknowledgement of the Covenant with no date limitation, then no other acknowledgement is needed as long as the executed acknowledgement is provided to each AIP for which the agent acts.

603 **Non-Disclosure Statements (NDS)**

A. AIP Annual Certification for Affiliates/Contractors

AIPs must notify contractors and affiliates regarding the requirement that all persons employed by or having a contract with the contractor or affiliate must have a signed NDS prior to obtaining access to Protected Information. By April 1, prior to the start of the reinsurance year, an AIP must obtain an Annual Certification from each of its contractors and affiliates certifying the respective contractor or affiliate has obtained a NDS from each person who has access to any Protected Information and who is employed by or has a contract with the contractor or the affiliate.

The certification must be signed and witnessed by an officer of the affiliate or contractor. The following statement must accompany the AIP Annual Certification to RMA:

“I hereby certify that [INSERT THE NAME OF THE AFFILIATE OR CONTRACTOR] has reviewed its files and, as of [INSERT DATE REVIEW WAS COMPLETED], all employees or other persons having access to Protected Information have signed a non-disclosure statement.”

B. AIP Annual Certification to RMA

Annual Certification is required to ensure any new employee or other person having access to Protected Information has signed and executed an NDS. The AIP must provide an Annual Certification to RMA:

- (1) An NDS exists from all persons who have access to any Protected Information and who are employed by or have a contract with the AIP; and
- (2) In the case of persons employed by a contractor or affiliate, has obtained a certification from the contractor or affiliate that they have obtained a NDS from their employees with access to Protected Information.

B. AIP Annual Certification to RMA (Continued)

The following certification must be signed by an officer of the AIP:

“I hereby certify that [INSERT AIP NAME] has reviewed its files and as of [INSERT DATE REVIEW WAS COMPLETED], all employees or other persons having access to Protected Information have signed a non-disclosure statement and all affiliates and contractors have certified that their employees and other persons having access to Protected Information have signed non-disclosure statements.”

The AIP must provide this certification with the annual Plan of Operations, which is due no later than April 1 prior to the start of the reinsurance year and emailed to the assigned Reinsurance Services Division Account Executive for the AIP.

AIPs and their contractors and affiliates may use electronic versions of the NDS form which incorporate either a digital signature or an authentication system to properly identify the submitter. Electronic records of signed or authenticated NDSs must be retained by the respective AIP, contractor, or affiliate and be available for inspection. Additionally, [Para. 402](#) applies, see also [Exhibit 7](#).

C. Individual Certification

All persons who have executed an acceptable NDS will be provided access to Protected Information. If a person employed by or having a contract with the AIP has previously executed a NDS with another AIP, that person must either:

- (1) submit a copy of the original NDS to the AIP; or
- (2) sign and submit a new NDS to the current AIP.

If a new NDS is properly executed, the original NDS with the previous AIP is nullified. The AIP must maintain copies of all such NDSs and make the documents available for inspection (see [Exhibit 8](#)).

604 Conflict of Interest (COI) Disclosure Statements

All agents, loss adjusters, employees, and affiliates must submit an executed COI Disclosure Statement by the earliest applicable acreage reporting date. Any changes to a COI Disclosure Statement previously submitted in accordance with these procedures must be submitted within 15 days of entering a relationship requiring disclosure.

For each reinsurance year after the first disclosure, the form may contain a statement that allows the discloser to certify that no previously disclosed information has changed from the information contained in the previous year's disclosure. At the AIP's discretion, the COI may include additional information. When a revised COI is released or issued by RMA, all agents, loss adjusters, employees, and affiliates must submit a new COI in accordance with the terms and conditions of the newly issued statement.

When a claim is filed, the eligible crop insurance contracts associated with the discloser must be identified and the AIP must ensure that the mandatory reviews indicated on the COI reports provided by RMA are conducted. Agents are not permitted to assist the adjuster or assist the insured in any manner regarding preparation of the claim, including without limitation, providing production by unit for use in completing the MPCl claim forms. The agent is prohibited from accompanying the loss adjuster to the field during MPCl claim activities. Elective reviews may be conducted by the AIP on other business, financial, legal, or familial relationships not identified on the COI reports provided by RMA. The chart provides a general reference guide (see also [Exhibit 9](#)).

605 Annual Controlled Business Certification

A. General Information

Sec 508(a)(10) of the ACT prohibits an individual from receiving compensation for the sale and service of a policy or plan of insurance, if the total compensation to be paid to the individual for policies in which the individual or an immediate family member has a substantial beneficial interest exceeds 30 percent of the total compensation for the sale and service of all policies or plans of insurance under the ACT, or a lesser percentage, if the respective State has a lower limit for controlled business. Immediate Family Member is defined in the GSH.

A. General Information (Continued)

AIPs must ensure that all individuals, including subagents, receiving compensation (including any salary commission, profit sharing, bonus, or any other direct or indirect benefit) for the sales and service of FCIC policies or plans of insurance through the AIP or any AIP affiliated entity have timely access to the certification form and have had a reasonable opportunity to complete and return the form to the AIP prior to 90 days following the annual settlement date for the reinsurance year. All certifications are to be retained by the AIP or its affiliate and not sent to RMA.

AIPs may use electronic versions of the certification forms that incorporate either a digital signature or an authentication system to properly identify the submitter. Electronic records of signed or authenticated certification forms must be retained by the respective AIP and be available for inspection.

If an AIP began collecting certification using procedures that differ from those below, the AIP must notify Reinsurance Services Division at the address listed in Subpara. E.

B. Compensation More than 30 Percent - Immediate Family Policies

If the amount of compensation to which the individual is entitled under its contract with the AIP or affiliate would result in the agent receiving more than 30 percent from immediate family policies, the individual is in violation of Sec 508(a)(10). An individual in violation cannot:

- (1) Pay back an amount necessary to be in compliance;
- (2) Defer payments to determine whether they will violate the provision; or
- (3) Take any other action to adjust the individual's compensation owed under the contract with the AIP or affiliate.

An individual in violation of Sec 508(a)(10) will be subject to disqualification and civil fines under the procedures implementing Sec 515(h) of the ACT, and any other procedures approved by RMA implementing Sec 515(h). The gravity of the violation by the individual will determine whether a sanction is imposed and if so, the type and amount.

C. Individual Annual Certification to AIP or Affiliate

An individual subject to the certification requirement of the ACT must submit an annual certification to each AIP with which they have an affiliation or from which they have received compensation; however, certification concerns the aggregate of all direct and indirect compensation from all AIPs with which the individual may have an affiliation.

C. Individual Annual Certification to AIP or Affiliate (Continued)

Example: An agent may write FCIC policies for three AIPs but have family members with substantial beneficial interests in policies written with one of the AIPs. Such an agent would be required to answer affirmatively to receiving compensation (including any salary, commission, profit sharing, bonus, or any other direct or indirect benefit) for the sale or service of policies or plans of insurance reinsured by FCIC for which the agent's immediate family member has a substantially beneficial interest.

D. Salary and Compensation

Salary compensation must not be treated differently than commission or the percentage of compensation received from policies. Salary compensation shall be determined by:

- (1) Dividing the individual's salary by the total amount of premium written by the individual;
- (2) Multiplying the result of (1) by the amount of total premium from the policies in which the individual and any immediate family member(s) have a substantially beneficial interest; and
- (3) Dividing the results of (2) by the total premium written by the individual.

E. Controlled Business Notification to RMA

Within 120 days following the annual settlement date for the reinsurance year, AIPs must notify RMA, from among all individuals who have received compensation (including any commission, profit sharing, bonus, or any other direct or indirect benefit) for the sales and service of an FCIC policy or plan of insurance, any specific individuals who either:

- (1) Have not certified to the AIP by properly completing and returning a signed form to the AIP for the reinsurance year; or
- (2) Have answered affirmatively to receiving compensation (including any salary, commission, profit sharing, bonus, or any other direct or indirect benefit), for the sale or service of policies or plans of insurance reinsured by FCIC for which the individual or the individual's immediate family member have a substantial beneficial interest.

This notification must be emailed to the assigned Reinsurance Services Division Account Executive for the AIP.

F. Individual Controlled Business Certification

Exhibit 31 High-Risk Land Exclusion Option

The CCIP provides insurance coverage on all insurable acres planted to a crop in the county. When coverage and rates are provided in the actuarial documents for high-risk land, insureds are required to insure the high-risk land at an increased cost reflective of the increased risk. Insureds who do not wish to insure high-risk land or wish to insure their high-risk land at a lower level of coverage than their additional coverage policy (base policy) may execute a HRLEO on or before the applicable SCD with the same AIP from which their additional coverage was obtained. The HRLEO is elected on a policy basis and available for land located in high-risk areas identified in the actuarial documents. See CIH for further instruction regarding this option.

1	<p>“Upon our verification of this option, when your Federal Crop Insurance Policy(ies) permit optional units (OUs), they will be established by RMA Grid. The RMA Grid is based on the United States National Grid (USNG), by dividing each USNG polygon (approximately 6.2-mile by 6.2-mile) into 36 equal-sized polygons approximately 686 acres in size. These approximately 686-acre polygons are each identified with a unique Section Equivalent ID and will be considered section equivalent parcels of land legally identified by other methods of measure, in accordance with Federal Crop Insurance Corporation (FCIC) procedure for establishing OUs. The following terms and conditions apply:”</p> <p>(a) “You are allowed one Unit Division by Grid Option (UDGO) per county that covers all insured Category B crops with additional coverage in your operation for the crop year (all applicable insured crops). For all applicable insured crops, the UDGO elections must be made by the representative Sales Closing Date (SCD) for each applicable insured crop and submitted to us on or before the earliest ARD for all applicable insured crops before it is effective. For counties that have crop(s) with a fall or winter SCD and a spring SCD specified in the actuarial documents, the UDGO election may be changed on or before the earliest spring SCD for all applicable insured crops if there is no insured fall or winter planted acreage of any insured crop. If it is determined you have two or more UDGOs, the UDGO with the earliest date will be applicable to all crops, and the other UDGOs will be void.”</p>	Substantive

Each field, which is defined by the Common Crop Insurance Policy, Basic Provisions (CCIP-BP) as all acreage of tillable land within a natural or artificial boundary (e.g., road, waterways, fences, etc.), will be assigned to a single Section Equivalent ID. Different planting patterns or planting different crops do not create separate fields. For fields that cross grid boundaries, the field will be assigned to the Section Equivalent ID in which the centroid of that field lies. All fields under the same BU having a centroid within the Section Equivalent ID will comprise the OU. OUs established by UDGO can further be divided by irrigated and non-irrigated acreage and acreage insured under an organic farming practice as provided in the CCIP-BP and as allowed in the applicable Crop Provisions (CP). You are not required to have OU structure when UDGO is elected and can still choose unit structure on a crop/county basis for the current crop year.”</p> <p>(c) “For each OU, you must have acceptable records of acreage and production for the previous crop year and maintain records for the current crop year and succeeding crop years in which this option remains in effect.”</p> <p>(d) “Upon our request, if you fail to provide to us such records, OUs created under this Option will revert to the BUs.”</p> <p>(e) “Determination of your OUs will be made at the time you report your acreage of the insured crop.”</p> <p>(f) “This is a continuous option which may be canceled by either you or us for any succeeding crop year by giving written notice on or before the earliest cancellation date for all applicable insured crops. If you fail to do so, we will assign yields for such crop years that have planted acreage for the applicable crops. Exhibit 64 Irrigated Practice Guidelines

In accordance with the instructions in the CIH, AIPs are to provide a copy of the following Irrigated Practice Guidelines to all insureds for whom the irrigated practice may apply.

These guidelines are provided to enable insureds to properly report planted or perennial acreage insured under an irrigated practice consistent with their crop insurance policy. It is important that these guidelines be utilized to document whether, at the time insurance attaches, there is a reasonable expectation of receiving adequate water to carry out a good irrigation practice for acreage reported under the irrigated practice. The guidelines, in entirety, are substantive and are to be given to the insured in administration of their crop insurance policy.

A. Definitions

The following definitions are provided to facilitate a uniform understanding of the standards and guidelines for insuring an irrigated practice for planted or perennial crop acreage.

Item #	Element	Substantive/ Non-Substantive
1	<p>“Adequacy of Irrigation Facilities: Irrigation facilities are considered adequate if it is determined that, at the time insurance attaches to planted or perennial acreage, they will be available and usable at the times needed and have the capacity to timely deliver water in sufficient quantities to carry out a good irrigation practice for the acreage insured under the irrigated practice.”</p>	Substantive
2	<p>“Efficient Irrigation: Carrying out a good irrigation practice using a lesser amount of irrigation water than historically applied, but still achieving the irrigated APH yield by implementing enhanced management practices to increase efficiency of irrigation water use.</p> <p>Enhanced management practices to increase efficiency of irrigation water use include, but are not limited to, the following:</p> <p>(a) Irrigation Method - Employing an irrigation water distribution technique or technology that has demonstrated greater efficiency (e.g., converting gravity flood irrigation to a center pivot or underground drip tape).</p> <p>(b) Converting high pressure impact sprinklers to low pressure impacts under center pivot irrigation.</p> <p>(c) Soil Moisture Monitors - Using soil moisture monitor output to set the schedule and amount of irrigation water applied.”</p>	Substantive
3	<p>“Good Irrigation Practice: The Application of adequate water in an acceptable manner, at the proper times, to allow production of a normal crop which is often identified as the approved yield for crops.”</p>	Substantive

A. Definitions (Continued)

Item #	Element	Substantive/ Non-Substantive
4	<p>“Irrigation Equipment and Facilities: The physical resources, other than water, used to regulate the flow of water from a water source to the acreage. This includes pumps, valves, sprinkler heads and other control devices. It also includes pipes or pipelines which:</p> <p>(a) are under the control of the insured; or</p> <p>(b) routinely deliver water only to acreage which is owned or operated by the insured. A center pivot system is considered irrigation equipment and facilities.”</p>	Substantive
5	<p>“Irrigation Water Supply: The water source and means for supplying irrigation water, not including equipment or facilities. (p) Management practices used or to be used to carry out efficient irrigation, as applicable."	Substantive

D. Failure to Qualify or Carry Out a Good Irrigation Practice

Item #	Element	Substantive/ Non-Substantive
1	"If the acreage fails to qualify for insurance under the irrigated practice, it will result in such acreage being insured under a practice other than irrigated. E. Prevented Planting Coverage

Item #	Element	Substantive/ Non-Substantive
1	<p>“Insureds may be eligible for a prevented planting payment for acreage historically grown under an irrigated practice for which the insured had no reasonable expectation of adequate water by the final planting date (or within the late planting period, if applicable). This applies even if the acreage could have been planted with a non-irrigated practice and the insured elects not to plant, provided all other prevented planting provisions have been met, including that an insured COL must have occurred within the PP insurance period.”</p>	Substantive

Exhibit 69 Marketing Certification

The Marketing Certification is required annually and must be completed by insureds that intend to direct market any portion of their crop or when acceptable verifiable production records are required, but these records do not exist because records are controlled by the insured or are not from a disinterested third party, because they, or a person related to them, generates the supporting records (e.g., vertically integrated). See the CIH for further completion and certification instructions.

Production records are controlled exclusively by the policyholder. Examples of direct marketing include selling through an on-farm or roadside stand, a farmer's market, or permitting the general public to enter the acreage for the purpose of harvesting or picking all or a portion of the crop. Only the portion of the crop sold directly to consumers will be considered direct marketed.”	Substantive

Exhibit 70 Organic Practices Guidelines

In accordance with GSH Para. 871D, AIPs must provide a copy of the following Organic Practices Guidelines to all insureds for whom the Organic Certified (OC) or Organic Transitional (OT) practices may apply.

These guidelines are provided to enable insureds to properly report planted or perennial acreage insured under an organic practice consistent with their crop insurance policy. It is important that these guidelines be utilized to document whether, at the time insurance attaches, insureds are aware of what is required to properly report and insure their crop under an organic practice. The guidelines, in their entirety, are substantive and are to be given to the insured.

A. Definitions

The following definitions are provided to facilitate a uniform understanding of the standards and guidelines for insuring acreage under the Organic Certified (OC) and Organic Transitional (OT) practices.

Item #	Element	Substantive/ Non-Substantive
1	<p>“Buffer Zone: Acreage designated in your organic system plan that separates agricultural commodities grown under organic farming practices from those grown under conventional farming practices. A buffer zone must be sufficient in size or other features, as stated in the National Organic Program published in 7 CFR part 205, to prevent or minimize the possibility of unintended contact by prohibited substances or organisms applied to adjacent land acres with an area that is part of the certified organic farming operation.”</p>	Substantive
2	<p>“Organic Certified / Certification: A determination made by a certifying agent that a production or handling operation complies with the Organic Foods Production Act of 1990 (7 U.S.C 6502) and the regulations, which is documented by a certificate of organic operation in accordance with 7 CFR part 205.”</p>	Substantive
3	<p>“Conventional Farming Practice: A system or process that is necessary to produce an agricultural commodity, excluding organic farming practices.”</p>	Substantive
4	<p>“Certifying Agent: A private or governmental entity accredited by the USDA Secretary of Agriculture for the purpose of certifying a production, processing, or handling operation as organic.”</p>	Substantive
5	<p>“Organic INTEGRITY Database: A database maintained by the National Organic Program. INTEGRITY Database located at organic.ams.usda.gov/integrity/ lists organic transitional and organic certified operations and contains up-to-date and accurate information about operations that are permitted to sell products bearing an organic designation. Being listed as Transitional or Certified in INTEGRITY indicates you have an organic system plan and meet requirements for insuring acreage under an organic transitional system plan or organic system plan.”</p>	Substantive

C. Important Consideration for the Organic Practice in the Event of Damage or Loss (Continued)

Item #	Element	Substantive/ Non-Substantive
2	<p>“Uninsurable Causes of Loss:</p> <p>(a) failure to follow recognized Good Farming Practices (GFP) for the type/practice of the insured crop;</p> <p>(b) any loss due to failure to comply with the organic standards will be considered an uninsured cause of loss (COL);</p> <p>(c) contamination by application or drift of prohibited substances onto land on which crops are grown using organic farming practices will not be an insured peril on any certified organic, transitional, or buffer zone acreage; and</p> <p>(d) other causes of loss which are not covered as listed in the Common Crop Insurance Policy, Basic Provisions and Crop Provisions for your policy.”</p>	Substantive

D. Good Farming Practices

Item #	Element	Substantive/ Non-Substantive
1	<p>“The purpose of the GFP provisions is to ensure that your production methods do not adversely affect the quantity or quality of the production. This applies to any practice that could affect the amount and quality of the crop, from ground preparation through harvest. In the case of perennials, this applies to practices from post-harvest of the previous crop year through harvest of the current crop year that could affect the amount and quality of the crop. You are responsible for establishing that the farming practice in question constitutes a GFP. All GFP evaluations, including decisions made by the AIP and determinations made by the Risk Management Agency (RMA), must be in accordance with the GFP provisions. Specifically, the production methods you use must:</p> <p>(a) allow the insured crop to make normal progress toward maturity;</p> <p>(b) produce at least the yield used to determine the production guarantee or amount of insurance, including any adjustments for late planted acreage;</p> <p>(c) not reduce or adversely affect the yield; and</p> <p>(d) be regarded as generally recognized GFP by organic agricultural experts for the area.</p>	Substantive

A list of ACAs is available in the Certifier Locator on the Agricultural Marketing Service website www.ams.usda.gov. <p>For additional information regarding Approved Agricultural Experts, contact your AIP.</p> <p>If a person does not qualify as an expert, based on the information in Subpara. 21A of the GFP Handbook, persons certified through other programs may be recognized as agricultural experts by RMA if their research or occupation is related to the specific crop and practice, in the region for which such expertise is sought, and has demonstrated expertise in the production practice in question.</p> <p>To obtain approval for such persons, contact RMA’s Deputy Administrator for Insurance Services by email to rma.rmsd@usda.gov.”</p>	Substantive

E. Contract Pricing (Continued)

Item #	Element	Substantive/ Non-Substantive
1 (cont.)	<p>This allows you to qualify for a federal crop insurance guarantee that more closely reflects the actual value of the certified organic or transitional crop. Information on how to apply the CPA is in (a)-(c) below:</p> <p>(a) For contract pricing and availability for a particular commodity type or practice, follow the prompts on RMA’s Actuarial Information Browser. See the “Prices” tab. When a contract price code of “yes” exists on the Prices tab for the crop, type, and practice, you may use a contract price to determine your insurance guarantee.</p> <p>(b) For commodities insured using the Commodity Exchange Price Provisions (CEPP), CPA information can be found in the CEPP.</p> <p>(c) For commodities that do not use the CEPP to determine prices, CPA information can be found in the actuarial documents. Please ask your crop insurance agent for a copy of the actuarial documents for the insured crop.</p> <p>If a commodity type or practice allows or requires the use of a contract price through the Crop Provisions or actuarial documents, the CPA is not applicable.</p> <p>To be eligible for contract pricing, you must elect by the sales closing date and provide a copy of the contract to your crop insurance agent by the ARD.
