			A, AC, AX, AY, BF, E, EK, EX, 'F, G, IX, J, N, NA, NK, NX, P, PA, T, TK, TX		Cherries, "0057" is a Consecutive Year Commodity. Commodity Year minus one should equal Reinsurance Year.		1) For Cherries, "0057", Yield Commodity Year, Year "10", must be equal to Commodity Year minus one.
							2) Each Yield Commodity Year must be one less than the Yield Commodity Year in the next higher occurrence of Yield History P15A data. No years may be skipped.
							3) FSA Yield Amount is used only when Commodity Code equals Cherries, "0057", or Navel Oranges, "0215", or Strawberries, "0154".
							4) Actual Yield Year Count can be greater than zero when there is Yield History P15A with Yield Type Code equal to "E", "N", "T" or "IX". Otherwise Actual Yield Year Count must equal zero.
							5) When Actual Yield Year Count is greater than zero, then Actual Yield Year Count must be greater than or equal to the total number of Yield History P15A with Yield Type Code equal to "A", "P","NR", "PR", "R", "RY", "J", "AY", "NA", "PA".
							6) If Yield History P15A with Yield Type Code equal "E", "IX", "N", "T" has been reported and there has been 4 years of Yield History P15A with Yield Type Code NOT equal to empty, "U" or "Z", then
							   When Yield History P15A with Yield Type Code equals "E" and total Actual Yields reported equal 1 or
							   When Yield History P15A with Yield Type Code equals 'IX' and total Actual yields reported equal 3 or
							   when Yield History P15A with Yield Type Code equals "N" and Total Actual yields reported equal 2 or
							   when Yield HIstory P15A with Yield Type Code equals "T" and Total Actual Yields reported greater than 2 then Actual Yield Year Count should equal zero
							7) Yield History P15A with Yield Type Code of "E", "IX", "N", or "T" should be reported in the most recent Yield History. When there has been reported P15A with "E", "IX", "N", "T" there must be greater than 4 years of Yield History P15A reported with Actual Yield Type Code.

Reinsurance Year would equal Commodity Year minus one or Commodity Year minus two.		1) For Pecans, "0020", Yield year "10" must equal Commodity Year minus 1 or Commodity Year minus 2 2) Each Yield Year must be 1 less than the Yield year in the next higher occurrence of yield data. No years may be skipped. The validation is ended when all 10 occurrences are validated, a empty Yield Type Code is reported or an error is flagged. 3) Map Area is not required and must be zero or spaces. 4) Yield History P15A with Yield Type Code equal "G" or "V" combinations can only be reported in the 4 most recent years. 5) Perennial Special Case must equal spaces
Pistachios	0470	If Yield Type Code equals "CT", Actual Organic Certified Yield in a conventional database is used when a producer is returning to a conventional practice after having farmed under organic practices. If Yield Type Code equals "GT", Actual Conventional Yield is reduced by 20% for use in a producers 4 year database for Organic Transitional Acreage when the year was farmed under a conventional practice. If Yield Type Code equals "MR", producer failed to provide production reports for the most recent consecutive year; must be contained in YY10. Actual Yield must equal zero. If "MR" is contained in the database, no Approved Yield calculation should be done and Yield limitation flag must equal 1 and Approved Yield must be equal to Previous Approved Yield.	A, BF, G, V, CT, GT, MR		2012		For Pistachios, the average of the yields reported for the years in the unit's APH database are calculated using the most recent, largest even number of yields if there fewer than 10 yields as follows: If the database has 10 yields Use all 10 years If the database has 9 or 8 yields Use most recent 8, If the database has 7 or 6 yields Use most recent 6, If the database has 5 or 4 yields Use most recent 4.
Popcorn	00043						1) Allowable Gleaned Acreage Codes equal "HG",, "UG" 2) Allowable Stage Codes equal; "UH", "H","P", "R", "NR", "P2", "PF", "PT" 3) Valid Yield Limitation Codes for 2012 equal "01", "03", "04", "05", "07", "08", "09", "10", "11", "12", "13" 4) For 2012 Insurance Plan Codes changed from "90" to "01", "02" and "03"

Commodity Year minus one should equal Reinsurance Year.		1) For Strawberries, "0154", Yield Commodity Year, Year "10", must be equal to Commodity Year minus one.
							2) Each Yield Commodity Year must be one less than the Yield Commodity Year in the next higher occurrence of Yield History P15A data. No years may be skipped.
							3) FSA Yield Amount is used only when Commodity Code equals Cherries, "0057", Navel Oranges, "0215", or Strawberries, "0154".
							4) Actual Yield Year Count can be greater than zero when there is Yield History P15A with Yield Type Code equal to "E", "N", "T" or "IX". Otherwise Actual Yield Year Count must equal zero.
							5) When Actual Yield Year Count is greater than zero, then Actual Yield Year Count must be greater than or equal to the total number of Yield History P15A with Yield Type Code equal to "A", "P","NR", "PR", "R", "RY", "J", "AY", "NA", or "PA".
							6) If Yield History P15A with Yield Type Code equals "E", "IX", "N", "T" has been reported and there has been 4 years of Yield History P15A with Yield Type Code NOT equal to empty, "U" or "Z", then
							   When Yield History P15A with Yield Type Code equals "E" and total Actual Yields reported equals 1 or
							   When Yield History P15A with Yield Type Code equals 'IX" and total Actual yields reported equals 3 or
							   When Yield History P15A with Yield Type Code equals "N" and Total Actual yields reported equals 2 or
							   When Yield HIstory P15A with Yield Type Code equals "T" and Total Actual Yields reported greater than 2 then Actual Yield Year Count should equal zero
							 7) Yield History P15A with Yield Type Code of "E", "IX", "N", or "T" should be reported in the most recent Yield History. When there has been reported P15A with "E", "IX", "N", "T" there must be greater than 4 years of Yield History P15A reported with Actual Yield Type Code.
