* The A & O rates are before the check for the 1.2 loss ratio in a state. If the state loss ratio is 1.2 or greater, the A & O rate will have 1.15 added back in that state. SRA Section III.(a)(2)(I)(i).

** Insurance plan may be subject to the A&O cap as the determination is made at a more granular level than insurance plan. Crop/county programs that are excluded from the A&O cap in accordance with Section III(a)(2)(E) of the SRA for the 2010 ADM comparison are identified in the STCOM monthly report.
