This handbook provides the official FCIC approved standards and procedures for use in the sale and service of any eligible crop insurance policy; required statements and disclosures; and the standards for submission and review of non-reinsured supplemental policies in accordance with the Standard Reinsurance Agreement for the 2019 and succeeding crop years.

B. Source of Authority

E. Procedural Questions

Questions regarding form standards and procedures must be directed to the RMA Product Administration and Standards Division, Underwriting Standards Branch using the address in sub-paragraph D above.

2 AIP Responsibilities

AIPs must develop documents in accordance with RMA standards and other RMA form standard issuances. Upon request, each AIP must provide documents, document completion instructions, and applicable computation results to the RMA or any other USDA oversight agency for review of compliance with these and other RMA form standards.

3 RMA Responsibilities

The RMA must establish and maintain the DSSH to provide the minimum form standards for the applicable crop insurance documents and provide guidance and clarification to the AIP as requested.

4 Acronyms and Definitions

Refer to the General Standards Handbook for applicable acronyms and definitions.

5 Title VI of the Civil Rights Act of 1964

The USDA prohibits discrimination against its customers. Title VI of the Civil Rights Act of 1964 provides that “No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” Therefore, programs and activities that receive Federal financial assistance must operate in a non-discriminatory manner. Also, a recipient of RMA funding may not retaliate against any person because he or she opposed an unlawful practice or policy, or made charges, testified or participated in a complaint under Title VI.

It is the AIPs’ responsibility to ensure that standards, procedures, methods and instructions, as authorized by FCIC in the sale and service of crop insurance contracts, are implemented in a manner compliant with Title VI. Information regarding Title VI of the Civil Rights Act of 1964 and the program discrimination complaint process is available on the RMA public website at <http://www.rma.usda.gov/aboutrma/civilrights/complaint.html>.

See Para. 503 for information about the RMA Non-Discrimination Statement.

6 The Privacy Act of 1974

The Privacy Act of 1974, 5 U.S.C. § 552a (Privacy Act), establishes a code of fair information practices that governs the collection, maintenance, use, and dissemination of information about individuals that is maintained in systems of records by federal agencies. A system of records is a group of records under the control of an agency from which information is retrieved by the name of the individual or by some identifier assigned to the individual.

In accordance with the Privacy Act, the Risk Management Agency is authorized by the Federal Crop Insurance Act or other Acts, and the regulations promulgated thereunder, to solicit the information requested on documents established by RMA, or by AIPs, that have been approved by the FCIC, to deliver Federal crop insurance. The information is necessary for AIPs and RMA to operate the Federal crop insurance program, determine program eligibility, conduct statistical analysis, and ensure program integrity.

See Para. 501 for information about the RMA Privacy Act statement.

7 Freedom to E-File

The Freedom to E-File Act, P.L. 106-222, requires the USDA to establish an electronic filing and retrieval system to enable producers to file paperwork electronically with USDA.

A. General Information

- (1) Section 5 of the Freedom to E-File Act required FCIC to develop a plan which would allow agriculture producers:
 - (a) To obtain, over the internet, from AIPs, all forms and other information concerning the program under the jurisdiction of FCIC in which the producer is a participant;
 - (b) To file electronically all paperwork required for participation in the program; and
 - (c) To have the option to file electronically, or in paper form in accordance to the Freedom to E-File Act; Section 3(b).
- (2) AIPs are required to comply with the Freedom to E-File Act and provide electronic accessibility to producers.
 - (a) AIPs are required to establish an E-Business Implementation Plan (EBIP).
 - (b) The EBIP requires an established back-up system to the primary system or the facility where information is housed to ensure computer failure does not deny access to records.
 - (c) AIPs must meet these requirements prior to approval for an SRA.

7 Freedom to E-File (Continued)

B. Generated Electronic Forms

Electronic forms must be generated in accordance with the standards contained in this handbook, other applicable RMA standards and in accordance with the AIP established EBIP.

8-200 (Reserved)

PART 2 NON-REINSURED SUPPLEMENTAL CROP INSURANCE POLICIES

201 General Information

NRS crop policies provide additional coverage, other than coverage for losses related to hail, to a policy or plan of insurance that is reinsured by FCIC.

202 Submission Requirements

To submit a NRS crop policy three complete hard copies, or an electronic copy in a format approved by RMA, of the new or revised policy and related material must be provided to RMA, including any policies previously approved by RMA that are changed in any manner, and all non-reinsured supplemental policies as required under the SRA. All documents must be edited, checked for spelling, and be in final form. RMA will not specifically review documents for spelling, grammar, punctuation, formatting, etc.

NRS policies must be submitted no later than 120 days prior to the first SCD. Submissions may be sent electronically at directorpdd@rma.gov, or by mail to:

Office of the Deputy Administrator for Product Management
Product Administration and Standards Division
USDA—Risk Management Agency
Beacon Facility—Mail Stop 0812
P.O. Box 419205
Kansas City, MO 64141-6205

203 Review of NRS Crop Insurance Policies

The AIP shall not sell a contract of insurance or similar instrument, which is written in conjunction with an eligible crop insurance contract, unless it has complied with the requirements of 7 C.F.R. 400.713. FCIC will not provide reinsurance for an eligible crop insurance contract if the AIP sold a contract or similar instrument that FCIC determines to have shifted risk to, or increases the risk, reduces or limits the rights of the insured with respect to the underlying policy or causes disruption in the market place of, such eligible insurance contract reinsured under the SRA. RMA shall review supplemental policies to determine that it is not likely to increase or shift risk to the underlying policy or plan of insurance, reduce or limit the rights of insureds, or cause market disruption.

- (1) RMA's PASD will have 75 days to review the policies, provided all information required by RMA is included in the initial submission of the policy package.
- (2) The AIP must maintain and make available at the request of FCIC, the underwriting information pertaining to a non-reinsured supplemental contract or similar instrument of insurance, including the policy number and all SSNs, EINs, or RMA assigned number(s) related to the eligible crop insurance contract.

204-300 (Reserved)

PART 3 FORM STANDARDS OPERATING POLICY

301 Form Development

AIPs are to control and develop all forms in accordance with RMA established policies and procedures. The agent, contractor, or AIP representative is not permitted to develop any form for use within policies administered by the AIP under the authority of FCIC, unless authorized by the AIP. The AIP must meet the standards that are set forth in the policies, options and endorsements as issued by RMA.

Standards contained in this handbook are not applicable to AIP administrative forms that do not affect the policy provisions, such as a form for the direct deposit of an insured's indemnity. AIPs may develop additional forms based upon their internal needs, such as electronic transfer of funds.

Form standards not contained in the DSSH may be in other RMA handbooks such as: the Crop Loss Adjustment Standards Handbooks, Written Agreement Handbook, and other applicable issuances approved by RMA. Section 508(h) private product submissions, or pilot programs approved by the FCIC Board of Directors may also specify form standards. Any forms developed in accordance with form standards from other directives must also adhere to the DSSH Part 3 and Part 4, as applicable.

302 Substantive v. Non-Substantive

Form standards are required to contain all items identified as "Substantive" unless not authorized by a specific policy. See the exhibits to this handbook for specific form requirements. Form standards provided in other handbooks are considered "Substantive" unless otherwise noted. Items identified as "Non-Substantive", are not required, but are recommended forms standards that may be included on the form at the AIPs discretion.

303 Combined Form Standards

AIPs, at their election, may combine two or more forms. If two or more forms issued are combined into one form, the combined form must meet the applicable standards in place for each individual form.

304 Signatures

If a form requires a signature to be obtained, that signature must be a pen and ink signature and in the hand of the person whose signature is required or an acceptable electronic (digital) signature in accordance with the AIPs established EBIP and the Electronic Signatures in Global and National Commerce Act (15 USC §7001 - §7006). Rubber or similar signature or date stamps are not acceptable. Refer to the GSH for more information regarding signatures and signature authority.

If multiple forms have been combined into one form, but the information reported by the insured is collected at different times, a signature must be obtained at the time of collection from the insured consistent with the signature guidelines required for each form.

The AIP has the discretion of using "printed name", "name", or some other variation on a form where a signature and a printed name is substantive.

305 Interest Rates

Any form standards containing an interest rate for unpaid payment amounts cannot be higher than the rates provided in the 7 CFR 457.8 sections 24 and 26.

306 Required Statements

Unless otherwise indicated, required statements pertain to all insurance policies administered under the SRA, not only to those standards that appear in this handbook. All required statements must appear verbatim on the AIP generated form unless otherwise noted. See Parts 5 and 6 for applicable required statements and disclosures.

If a person refuses to acknowledge required statements, then the AIP representative should annotate such refusal; affix the AIP Representative's printed name and signature, the time, and date to the form where such statement(s) have been refused.

307-400 (Reserved)

PART 4 GENERAL FORM STANDARDS

401 Form Style

A. Format

Form standard item entries may be formatted as line entries, column headings, boxes, tables, or blocks, as appropriate. Headings for form entries may be abbreviated, provided an explanation is included in the form completion instructions. It is at the AIP's discretion whether the required headings are column headings or row headings.

B. Form Title

The Form Title and a Form Identification Number (alpha and/or numeric) must be on all forms. The Form Identification Number is to be developed according to the internal procedures of the AIP.

C. Font Size

The text for all documents should be developed with an 8-point font size when possible; however, font size shall not be less than 6-point. This will assist the applicants/insureds in reading documents presented to them.

D. Page Numbering

If multiple pages are required for a particular form each page must be numbered as follows:

“Page __ of __”.

E. Required Statements

If a statement is on the back of the form, add “See Reverse Side for Required Statements”, or other similar reference, on the front of the form.

402 Identification Numbers

Identification numbers include Social Security Number (SSN), Employer Identification Number (EIN) or RMA Assigned Number (RAN).

A. Form Completion Instructions

Form completion instructions must:

- (1) Provide instruction to enter the appropriate identification number;
- (2) Provide instruction to enter the correct identification number type; and
- (3) Provide the applicant/insured the opportunity to verify that their reported identification number is correct.

402 Identification Number (Continued)

B. Masking

Masking, also called “truncating”, results in the 9 digit identification number being displayed as XXXXX1234, XX-XXX1234, XXX-XX-1234, or other variation on AIP generated forms for security.

AIPs must mask the identification number on AIP generated forms containing an identification number. This includes, but is not limited to, forms generated for such purposes as loss adjustment and underwriting reviews. Identification number must not be masked when reported by the person providing the identification number.

AIP must provide unmasked data when a Policy Transfer/Application from one AIP to another AIP to verify correct policy information.

If the identification number is unmasked in order to provide the applicant/insured an opportunity to verify whether the identification number, or to assist in a transfer, is true and accurate, the AIP must employ a method of protecting such number.

C. Identification Number Type on Forms

Must contain the following, check one:

- SSN
- EIN
- RMA Assigned Number

AIPs may use an alternate format for allowing the identification number type provided all identification number types are present (SSN/EIN/RAN).

403 Person Types

Form completion procedures must provide instructions to enter the specific person type, not the SRA Appendix III entity type code. This entry is verified for accuracy during applicable RMA, USDA oversight agencies, or AIP reviews, and during loss adjustment. See Part 2 of the GSH for person type descriptions and see also SRA Appendix III for applicable entity type codes.

404 Substantial Beneficial Interest Holder

For persons with a substantial beneficial interest in the insured as identified on the application: the person type, identification number and identification number type is required on each individual form unless it is collected on the Social Security Number and Employee Identification Number Reporting form. See Exhibit 23.

405 Agent/Loss Adjuster Code

If an AIP assigns a code for its agent or loss adjuster, that code is “Substantive”. The assigned code number cannot be the individual’s SSN or a variation thereof. The code number is required to be completed on the applicable form, as follows:

<i>I.B. Agent</i> 06/01/2018	12RMA34
(Agent’s Signature) (Date)	(Code Number)

406 State and County Name

The entry for "State and County" must be the state and county name where insurance attaches. Form completion procedures must provide this information.

407 AIP Name and Address

AIP’s full name and address as specified in the SRA. The AIP may select item (1) or (2) to fulfill this “substantive” requirement where required on an individual form:

- (1) Provide the AIP’s name and address with the policy or policy jacket at time of issue; or
- (2) Provide the AIP’s full name and address on all forms.

Note: This exception does not circumvent the requirement for the Agent’s company name and address to be provided where indicated on the form as substantive.

408 Street and/or Mailing Address

“Street and/or Mailing Address” are substantive items as indicated by the applicable form standard. When the street and mailing addresses are different, only the mailing address is the required entry.

409 City, State, Zip Code

“City”, “State”, “Zip Code” are substantive items as indicated by the applicable form standard when these items or the form requires “Street and/or Mailing Address”. The AIP has discretion of whether to add these items as independent form entries or provide instruction that the “Street and/or Mailing address” form entry includes the “city, state, and zip code” as appropriate.

410 Added County Election

Guidelines to administer this election are found in the GSH.

If AIPs elect to include this option on the application, one or both of the following statements must appear on the application as “Substantive”:

- Yes No I request insurance coverage for my share of the Category B crops (except forage production) specified below with a designated county in all added counties where the crops are insurable.
- Yes No I request insurance coverage for my share of the Category B crops (except forage production) specified below with a designated county in all added counties within the state where the crops are insurable.

If your designated plan of insurance, level of coverage or price is not available in the added county, coverage will be provided through the Catastrophic Risk Protection Endorsement, if the crop is insurable in the actuarial documents for an added county.”

411 Landlord/Tenant Insuring Other’s Share

Insuring a landlord/tenant is on a policy basis. The form must clearly state the tenant will insure the landlord’s share or landlord will insure the tenant’s share. Form completion instructions must provide an explanation of the landlord/tenant insuring the other’s share and must require evidence of the non-insuring party’s approval. AIPs may use the alternate language with the form’s completion instructions providing explanations. Guidelines are found in the GSH.

Suggested formats (Substantive):

- (1) “Is applicant insuring the tenant’s share?” “Yes No No - My landlord’s share. I am providing a Power of Attorney or Lease Agreement as evidence of my authority to insure their share”
- My tenant’s share under my crop policy. I am providing a Power of Attorney or Lease Agreement as evidence of my authority to insure their share”. (Substantive); or,

(3) Enter statement in the Remarks section that landlord/tenant is insuring the other’s share under the crop policy.

412 Price Election

When Price Election appears on the application, it must be clearly indicated if “Additional Price or Established Price” is elected.

Price Election may be shown as “Price times Price Election Percentage”, or in aggregate. If shown in aggregate, form completion standards must explain “Price times Price Election Percentage”.

413 Options, Elections, or Endorsements

The policy may authorize options, elections and endorsements that require an insured to elect, add, exclude or otherwise modify coverage. If a form is specifically developed for (or a form is specifically modified to capture) an option, election or endorsement, it must be used by the AIP.

Otherwise, AIPs must use the following forms for an insured to elect, add, exclude or otherwise modify coverage:

- (a) Required on or before the SCD, AIPs must use the Application or the Policy Change form.
- (b) Required on or before the ARD or PRD, AIPs must use the Policy Change form.

414 Actuarial Fields

The actuarial documents and RMA processing systems include the following subfields under Type and Practice:

- (1) Type (Substantive)
 - (a) Commodity Type (Non-Substantive)
 - (b) Class (Non-Substantive)
 - (c) Subclass (Non-Substantive)
 - (d) Intended Use (Non-Substantive)

- (2) Practice (Substantive)
 - (a) Irrigation Practice (Non-Substantive)
 - (b) Cropping Practice (Non-Substantive)
 - (c) Organic Practice (Non-Substantive)
 - (d) Interval (Non-Substantive)

AIPs may add the additional fields to the applicable forms requiring the Type/Practice information; however, this is a non-substantive requirement. If AIPs choose to include these on the applicable form, the Type/Practice information must be developed to reflect the following:

TYPE				PRACTICE			
COMMODITY TYPE	CLASS	SUBCLASS	INTENDED USE	IRRIGATION PRACTICE	CROPPING PRACTICE	ORGANIC PRACTICE	INTERVAL

415-500 (Reserved)

PART 5 GENERAL REQUIRED STATEMENTS AND DISCLOSURES

501 RMA Privacy Act Statement – Collection of Information and Data

The Privacy Act prohibits the disclosure of protected information absent the written consent of the individual. The Privacy Act statement is required for agents, loss adjusters and policyholders. This statement must be included on any form the person signs and a copy maintained by the AIP.

Protected information includes, but is not limited to, any personally identifiable information about a policyholder, agent, or loss adjuster; and information about the policyholder's farming operation or insurance policy. Such information is generally acquired from the policyholder, agent or loss adjuster, USDA, the Comprehensive Information Management System, or the insured's previous or current approved insurance provider or agent that is protected from disclosure by the Privacy Act, section 502(c) of the Federal Crop Insurance Act (Act), or any other applicable statute. This includes all hard copy or electronic information. See also, Para. 603

If the Privacy Act statement is provided as a separate document, evidence of receipt of this statement must be shown by securing the signature of applicant/insured/agent/loss adjuster and the date at the time of collection. This process must be completed for each document that requires the Privacy Act statement. The AIP must be able to substantiate the statement was provided in accordance with the Privacy Act. If the AIP can substantiate with legal sufficiency the insured received and acknowledged these required statements by an alternative method, then such method is acceptable. See Exhibit 3.

502 RMA Certification Statement

The Certification Statement must be included on any form that the person signs which collects information from the person, such as the application, acreage report, etc. The certification statement is not applicable to appraisal worksheets. See Exhibit 2.

If a form standards contain a modified certification statement, such as the Individual Conflict of Interest Disclosure, this certification statement is not required, unless otherwise noted by the form standards.

503 RMA Non-Discrimination Statement

It is the AIPs' responsibility to ensure that standards, procedures, methods and instructions, as authorized by FCIC in the sale and service of crop insurance contracts, are implemented in a manner compliant with Title VI. The Non-discrimination Statement must be included on any form the person signs or provided to the person on a separate form in which the person signs and a copy maintained by the AIP. Additionally, applicable AIP marketing materials must also include a non-discrimination statement. Refer to Exhibit 4 for the Non-Discrimination Statements. The RMA and USDA Non-Discrimination Statement is available on the RMA public website at:

PART 6 AIP REQUIRED STATEMENTS AND DISCLOSURES

601 Anti-Rebating Certification Statement

In accordance with section 508(a)(9) of the Act and the SRA, a company and its affiliates are prohibited from providing a rebate, except as authorized in section 508(a)(9)(B). For more information regarding rebates, contact RMA Reinsurance Services Division.

The Anti-Rebating Certification is an individual certification of the applicant/insured and the agent required at the time liability is established. This certification is required for each crop year for the crop or crops contained on the application associated with the policy number.

Furthermore, the agent is the agent who accepts and signs the applicable form in which liability is established. The time liability is established is the time specified by the applicable policy, e.g., at acreage reporting time. See Exhibit 9.

602 Covenant Not to Sue Statement (Covenant)

As defined in Section 1 of the SRA, before an agent is allowed to act on behalf of an AIP with respect to the sales or service of eligible crop insurance contracts, the AIP must obtain from such agent the written acknowledgement referred to in Section III(a) of the SRA.

If the agent fails to sign written acknowledgement to the Covenant by the deadline, any policies sold or serviced by such agent will be denied reinsurance by RMA. Exhibit 10 provides an example of the Covenant for use by the AIP, or any other Covenant utilized by the AIP which meets the standards required by Section III(a) of the SRA is acceptable.

A. Incorporation

To the extent that an AIP has contracts with individual agents, the Covenant Not to Sue Statement (Covenant) must be incorporated into or appended to such contracts. If written acknowledgement was incorporated or appended to an agency contract covering multiple agents, it does not meet the requirement of Section III(a)(2)(K) of the SRA, unless such acknowledgement is signed individually by each agent within the agency.

The AIP is not required to certify to RMA that it has obtained written acknowledgement from each agent. However, AIPs will be required to provide RMA a copy of such acknowledgement for any agent upon request.

B. Prior Reinsurance Year Covenant Acknowledgements

If existing Covenant acknowledgements executed in previous reinsurance years did not have specific references, or any other terminology that would limit its effect to the previous reinsurance year only, such acknowledgement may be considered effective for future reinsurance years.

However, if existing acknowledgements of the Covenant have a reinsurance year limitation, then a new acknowledgement without the reinsurance year limitation must be executed by the agent. If an agent executes, or has previously executed an acknowledgement of the Covenant with no date limitation, then no other acknowledgement is needed as long as the executed acknowledgement is provided to each AIP for which the agent acts.

A. AIP Annual Certification for Affiliates/Contractors

AIPs must notify contractors and affiliates regarding the requirement that all persons employed by or having a contract with the contractor or affiliate must have a signed NDS prior to obtaining access to Protected Information. By April 1 prior to the start of the reinsurance year, an AIP must obtain an Annual Certification from each of its contractors and affiliates certifying the respective contractor or affiliate has obtained a NDS from each person who has access to any Protected Information and who is employed by or has a contract with the contractor or the affiliate.

The certification must be signed and witnessed by an officer of the affiliate or contractor. The following statement must accompany the AIP Annual Certification to RMA:

“I hereby certify that [INSERT THE NAME OF THE AFFILIATE OR CONTRACTOR] has reviewed its files and, as of [INSERT DATE REVIEW WAS COMPLETED], all employees or other persons having access to Protected Information have signed a non-disclosure statement.”

B. AIP Annual Certification to RMA

Annual Certification is required to ensure any new employee or other person having access to Protected Information has signed and executed a NDS. The AIP must provide an Annual Certification to RMA:

- (1) A NDS exists from all persons who have access to any Protected Information and who are employed by or have a contract with the AIP; and
- (2) In the case of persons employed by a contractor or affiliate, has obtained a certification from the contractor or affiliate that they have obtained a NDS from their employees with access to Protected Information.

The following certification must be signed by an officer of the AIP:

“I hereby certify that [INSERT AIP NAME] has reviewed its files and as of [INSERT DATE REVIEW WAS COMPLETED], all employees or other persons having access to Protected Information have signed a non-disclosure statement and all affiliates and contractors have certified that their employees and other persons having access to Protected Information have signed non-disclosure statements.”

The AIP must provide this certification with the annual Plan of Operations, which is due no later than April 1 prior to the start of the reinsurance year and sent to:

Director, Reinsurance Services Division
USDA/Risk Management Agency
1400 Independence Avenue SW
Stop 0804

603 Non-Disclosure Statements (NDS) (Continued)

B. AIP Annual Certification to RMA (continued)

AIPs and their contractors and affiliates may use electronic versions of the NDS form which incorporates either a digital signature or an authentication system to properly identify the submitter. Electronic records of signed or authenticated NDS's must be retained by the respective AIP, contractor, or affiliate and be available for inspection. Additionally Para. 402 applies. See also Exhibit 11.

C. Individual Certification

All persons who have executed an acceptable NDS will be provided access to Protected Information. If a person employed by or having a contract with the AIP has previously executed a NDS with another AIP, that person must:

- (1) Either submit a copy of the original NDS to the AIP; or
- (2) Sign and submit a new NDS to the current AIP.

If a new NDS is properly executed the original NDS with the previous AIP is nullified. The AIP must maintain copies of all such NDSs and make the documents available for inspection.

604 Conflict of Interest (COI) Disclosure Statements

All agents, loss adjusters, employees, and affiliates must submit an executed Conflict of Interest Disclosure Statement by the earliest applicable acreage reporting date. Any changes to a disclosure statement previously submitted in accordance with these procedures must be submitted within 15 days of entering a relationship requiring disclosure.

For each reinsurance year after the first disclosure, the form may contain a statement that allows the discloser to certify that no previously disclosed information has changed from the information contained in the previous year's disclosure. At the AIPs discretion, the COI may include additional information. When a revised COI is released or issued by RMA, all agents, loss adjusters, employees, and affiliates must submit a new COI in accordance with the terms and conditions of the newly issued statement.

When a claim is filed, the eligible crop insurance contracts associated with the discloser must be identified and the AIP must ensure that the mandatory reviews indicated on the conflict of interest reports provided by RMA are conducted. Agents are not permitted to assist the adjuster or assist the insured in any manner regarding preparation of the claim, including without limitation, providing production by unit for use in completing the MPCCI claim forms. The agent is prohibited from accompanying the loss adjuster to the field during MPCCI claim activities. Elective reviews may be conducted by the AIP on other business, financial, legal, or familial relationships not identified on the conflict of interest reports provided by RMA. The chart provides a general reference guide.

A. General Information

Section 508(a)(10) of the Act prohibits an individual from receiving compensation for the sale and service of a policy or plan of insurance, if the total compensation to be paid to the individual for policies in which the individual or an immediate family member has a substantial beneficial interest exceeds 30 percent of the total compensation for the sale and service of all policies or plans of insurance under the Act, or a lesser percentage, if the respective State has a lower limit for controlled business. Immediate Family Member is defined in the GSH.

AIPs must ensure that all individuals, including subagents, receiving compensation (including any salary commission, profit sharing, bonus, or any other direct or indirect benefit) for the sales and service of FCIC policies or plans of insurance through the AIP or any AIP affiliated entity have timely access to the certification form and have had a reasonable opportunity to complete and return the form to the AIP prior to 90 days following the annual settlement date for the reinsurance year. All certifications are to be retained by the AIP or its affiliate and not sent to RMA.

AIPs may use electronic versions of the certification forms that incorporate either a digital signature or an authentication system to properly identify the submitter. Electronic records of signed or authenticated certification forms must be retained by the respective AIP and be available for inspection.

If an AIP began collecting certification using procedures that differ from those below, the AIP must notify Reinsurance Services Division at the address listed in Para. 605E below.

B. Compensation More than 30 Percent –Immediate Family Policies

If the amount of compensation to which the individual is entitled under its contract with the AIP or affiliate would result in the agent receiving more than 30 percent from immediate family policies, the individual is in violation of section 508(a)(10). An individual in violation cannot:

- (1) Pay back an amount necessary to be in compliance;
- (2) Defer payments to determine whether they will violate the provision; or
- (3) Take any other action to adjust the individual's compensation owed under the contract with the AIP or affiliate.

An individual in violation of section 508(a)(10) will be subject to disqualification and civil fines under the procedures implementing section 515(h) of the Act, and any other procedures approved by RMA implementing section 515(h). The gravity of the violation by the individual will determine whether a sanction is imposed and if so, the type and amount.

C. Individual Annual Certification to AIP or Affiliate

An individual subject to the certification requirement of the Act must submit an annual certification to each AIP with which he or she has an affiliation or from which he or she has received compensation; however, certification concerns the aggregate of all direct and indirect compensation from all AIPs with which the individual may have an affiliation.

Example: An agent may write FCIC policies for three AIPs, but have family members with substantial beneficial interests in policies written with one of the AIPs. Such an agent would be required to answer affirmatively to receiving compensation (including any salary, commission, profit sharing, bonus, or any other direct or indirect benefit) for the sale or service of policies or plans of insurance reinsured by FCIC for which the agent's immediate family member has a substantially beneficial interest.

D. Salary and Compensation.

Salary compensation must not be treated differently than commission or the percentage of compensation received from policies. Salary compensation shall be determined by:

- (1) Dividing the individual's salary by the total amount of premium written by the individual;
- (2) Multiplying the result of (1) by the amount of total premium from the policies in which the individual and any immediate family member(s) have a substantially beneficial interest; and
- (3) Dividing the results of (2) by the total premium written by the individual.

E. Controlled Business Notification to RMA

Within 120 days following the annual settlement date for the reinsurance year, AIPs must notify RMA, from among all individuals who have received compensation (including any commission, profit sharing, bonus, or any other direct or indirect benefit) for the sales and service of an FCIC policy or plan of insurance, any specific individuals who either:

- (1) Have not certified to the AIP by properly completing and returning a signed form to the AIP for the reinsurance year; or
- (2) Have answered affirmatively to receiving compensation (including any salary, commission, profit sharing, bonus, or any other direct or indirect benefit), for the sale or service of policies or plans of insurance reinsured by FCIC for which the individual or the individual's immediate family member have a substantial beneficial interest.

This notification must be directed to:

F. Individual Controlled Business Certification

If the AIP is collecting all of the Individual Controlled Business Certification, the AIP must certify to RMA that it has collected all forms from those individuals required to submit an Individual Controlled Business Certification.

G. Affiliate Controlled Business Certification

An Affiliate Controlled Business Certification is required if an affiliate is responsible for collecting the individual certifications on behalf for the AIP. The AIP is not required to obtain a copy of the individual certifications if they have received the affiliate certification form for those individuals. The affiliate must retain the individual certifications for which they are certifying receipt.

Failure to disclose the receipt of multiple Federal benefits, or failure to repay one of the multiple Federal benefits such as either the NAP benefit or the Federal crop insurance indemnity for the same crop, may result in my being disqualified from receiving Federal crop insurance benefits, as well as being ineligible for various programs administered by the Farm Service Agency for up to five (5) years.

Native Sod

I understand that if I till native sod acreage, I will be assessed a reduction in yield guarantee and premium subsidy, these reductions apply in the crop year that my total native sod acreage tilled exceeds 5 acres in the county (cumulated across crops and crop years), and these reduction in benefits may be retroactively applied within a crop year.

The AIP may use all terms for one Acreage Report type or only those standards that are applicable for the applicable policy (e.g., multiple Acreage Report Types). See the GSH and CIH for further completion and application instructions.

High-Risk Land Exclusion Option

The BP provides insurance coverage on all insurable acres planted to a crop in the county. When coverage and rates are provided in the actuarial documents for high-risk land, insureds are required to insure the high-risk land at an increased cost reflective of the increased risk. Insureds who do not wish to insure high-risk land on an additional coverage policy may amend the BP by signing and submitting the High-Risk Land Exclusion Option (by crop(s) and policy) to the AIP. See CIH for further instruction regarding this option.

Agreement to Combine Optional Units (Continued)

3 Terms and Conditions		
A	<p>“This is a continuous agreement.”</p> <p>(1) “Upon our verification and approval of this Agreement, we agree to combine the acreage and production history from separate APH databases for the combined optional units for the insured crop(s) listed, into a single APH database by practice, type or transitional yield map area, as applicable.”</p> <p>(2) “By signing this Agreement, you agree to farm two or more optional units as a combined unit. Once approved, this option is continuous and remains in effect unless the crop’s basic unit structure changes and those changes cause the combined unit structure to be invalid or if the crop’s insurance policy is cancelled and continuity of insurance coverage is broken.”</p> <p>(3) “The Agreement must be submitted to us on or before the production reporting date for the applicable crop(s) and approved by us to be effective for the crop year. If not submitted on or before the crop’s production reporting date, the option (if approved) will be effective the succeeding crop year.”</p> <p>(4) “The optional units being combined must be located in the same county and in separate sections, section equivalents or Farm Service Agency Farm Numbers (FSA FNs), whichever is applicable.”</p> <p>(5) “The sections, section equivalents, or FSA FNs containing the optional units being combined must adjoin (lie next to or be in contact with each other). A copy of an aerial photograph or other map that clearly identifies the sections, section equivalents or FSA FNs containing the optional units being combined that demonstrates they adjoin must be attached.”</p> <p>(6) “If you transfer a crop’s policy on which the Agreement is in force to a different insurance agency/AIP, the Agreement transfers with the crop’s policy and remains in effect and you are not permitted to separate the combined units into additional optional units. You must provide a copy of this Agreement to your new insurance agency/AIP. If the Agreement is not transferred and you divide the combined unit into optional units and the new insurance agency/AIP discovers that you have divided a combined unit listed on this agreement into optional units:</p> <p style="margin-left: 20px;">(a) The acreage and production history from the separate optional unit APH databases will be combined according to this Agreement, beginning with the crop year that the combined units were separated; and</p> <p style="margin-left: 20px;">If any indemnities were paid on the optional units, the approved APH yield will be corrected for such crop years as indicated in a. above and the</p> <p style="margin-left: 20px;">(b) indemnity will be recalculated. If the recalculated indemnity is less than the indemnity that was paid when you violated the terms of this agreement, you must pay the AIP the difference.”</p> <p>(7) “If the basic unit structure changes after this Agreement is approved, and the combined unit must be divided into more than one basic unit, you must notify us and recertify the acreage and production according to the land that is contained in each basic unit no later than the crop’s production reporting date. If you fail to do so, we will assign yields for such crop years that have planted acreage for the applicable crops. The acreage and production and/or assigned yield applicable to the land contained in each basic unit will be used to establish separate APH databases for the new basic units.”</p>	Substantive

Irrigated Practice Guidelines

In accordance with the instructions in the Crop Insurance Handbook, FCIC-18010, approved insurance providers (AIPs) are to provide a copy of the following Irrigated Practice Guidelines to all insureds for whom the irrigated practice may apply.

These guidelines are provided to enable insureds to properly report planted or perennial acreage insured under an irrigated practice consistent with their crop insurance policy. It is important that these guidelines be utilized to document whether, at the time insurance attaches, there is a reasonable expectation of receiving adequate water to carry out a good irrigation practice for acreage reported under the irrigated practice. The guidelines, in entirety, are substantive and are to be given to the insured in administration of their crop insurance policy.

1 Definitions		
	Note: The following definitions are provided to facilitate a uniform understanding of the standards and guidelines for insuring an irrigated practice for planted or perennial crop acreage.	
A	<u>Adequacy of Irrigation Facilities</u> — Irrigation facilities are considered adequate if it is determined that, at the time insurance attaches to planted or perennial acreage, they will be available and usable at the times needed and have the capacity to timely deliver water in sufficient quantities to carry out a good irrigation practice for the acreage insured under the irrigated practice.	Substantive
B	<p><u>Efficient Irrigation</u>— Carrying out a good irrigation practice using a lesser amount of irrigation water than historically applied, but still achieving the irrigated APH yield by implementing enhanced management practices to increase efficiency of irrigation water use.</p> <p>Enhanced management practices to increase efficiency of irrigation water use include, but are not limited to, the following:</p> <ul style="list-style-type: none"> • Irrigation Method - Employing an irrigation water distribution technique or technology that has demonstrated greater efficiency (e.g. converting gravity flood irrigation to a center pivot or underground drip tape). • Converting high pressure impact sprinklers to low pressure impacts under center pivot irrigation. • Soil Moisture Monitors - Using soil moisture monitor output to set the schedule and amount of irrigation water applied. 	Substantive
C	<u>Good Irrigation Practice</u> – The application of adequate water in an acceptable manner, at the proper times, to allow production of a normal crop which is often identified as the approved APH yield for crops.	Substantive
D	<u>Irrigation Equipment and Facilities</u> – The physical resources, other than water, used to regulate the flow of water from a water source to the acreage. This includes pumps, valves, sprinkler heads, and other control devices. It also includes pipes or pipelines which: (1) are under the control of the insured; or (2) routinely deliver water only to acreage which is owned or operated by the insured. A center pivot system is considered irrigation equipment and facilities.	Substantive

Irrigated Practice Guidelines (Continued)

1 Definitions (continued)		
E	<u>Irrigation Water Supply</u> – The water source and means for supplying irrigation water, not including equipment or facilities. This includes the water source and dams, canals, ditches, pipelines, etc., which contain the water for movement from the water source to the acreage that (1) are not under the control of the insured; or (2) routinely deliver water to acreage in addition to that which is owned or operated by the insured.	Substantive
F	<u>Reasonable Expectation of Adequate Water</u> – The insured had no reason to know at the time coverage began the amount of irrigation water may be limited or reduced. No reasonable expectation exists if the insured knew, or had reason to know, the amount of irrigation water may be reduced before coverage begins.	
G	<u>Water Source</u> – The source from which water is made available. This includes wells, lakes, reservoirs, streams, aquifers, etc.	Substantive

2 Requirements		
A	For planted or perennial acreage to be insured under and irrigated practice, the insured must:	Substantive
	(1) be able to document and demonstrate that there is a reasonable expectation of adequate water (refer to section 3);	
	(2) be able to document and demonstrate good irrigation practices;	
	(3) be able to demonstrate that they have adequate irrigation equipment and facilities;	
	(4) provide verifiable documentation to their AIP by the ARD that the irrigation water supply has replenished after a failure of the irrigation water supply prevented the insured from planting or the insured had a failure of irrigation water supply; and	
	(5) keep separate production records for acreage insured under an irrigated practice from acreage insured under a practice other than irrigated (or with no practice applicable) and uninsured acreage.	

3 Determination of Reasonable Expectation of Adequate Water		
A	Factors to be considered (applicable to both the AIP and the insured) when determining and documenting whether a reasonable expectation of adequate water existed include, but are not limited to the following: (1) Most recent 10-year historical average of available water and any applicable forecasting data from a credible authority responsible for monitoring and forecasting such conditions such as Irrigation Districts, State Department of Water Resources, Bureau of Reclamation, Water Boards, etc.	Substantive

Irrigated Practice Guidelines (Continued)

3 Determination of Reasonable Expectation of Adequate Water (continued)		
A	<p>Examples: Current Federal, state, or local water district allocations, historical inflows, current water levels, expected inflows resulting from snowpack, expected rainfall, etc.;</p> <ul style="list-style-type: none"> (2) Water supply availability, quality, and usage; (3) Pump efficiency and capacity; (4) Water requirements (amount and timing) for all irrigated crops; (5) Water rights available to the insured (primary, secondary, urban versus agricultural use, etc.); (6) Contingency plans to handle water shortages; (7) Acres to be irrigated; (8) Ownership of the water source including the legal entitlement or rights to the water (state or Federal versus landowner or other private party); (9) Meters, measuring devices, and methods used to monitor good irrigation practice; (10) Soil types, soil moisture levels, and pre-plant irrigation needs; (11) Water conservation methods, devices used, and plans utilized (if applicable); (12) Past crop planting history and tillage methods; (13) Supplemental water availability and usage including return flow or any precipitation which would normally be received, after insurance attaches; (14) Recommendations from local Cooperative Extension Service (CES), National Resource Conservation Service (NRCS), or other source recognized by CES or NRCS to be an expert in the area regarding irrigation and crop production; (15) Decreased water allocation resulting from the diversion of water for environmental, public use or priority, or other reasons. <p>Note: Not an insurable cause of loss (COL) unless the diversion is made necessary due to an insured COL; and</p> <ul style="list-style-type: none"> (16) Management practices used or to be used to carry out efficient irrigation, as applicable. 	Substantive

Irrigated Practice Guidelines (Continued)

4 Failure to Qualify or Carry Out a Good Irrigation Practice		
A	If the acreage fails to qualify for insurance under the irrigated practice, it will result in such acreage being insured under a practice other than irrigated. If no other appropriate practice is available for the acreage, insurance will not be considered to have attached on the acreage.	Substantive
B	<p>Failure to carry out a good irrigation practice on acreage properly insured under the irrigated practice will result in an appraisal for uninsured causes on such acreage, unless:</p> <ul style="list-style-type: none"> (1) the failure was caused by unavoidable failure of the irrigation water supply after insurance attached; or 2) failure or breakdown of the irrigation equipment or facilities due to an insured COL, provided all reasonable efforts to restore the irrigation equipment facilities to proper working order within a reasonable amount of time, unless the AIP determines it is not practical to do so. <p>Note: Cost will not be considered when determining whether it is practical to restore the equipment or facilities.</p>	Substantive
C	If a loss is evident, any reported acreage qualifying as an irrigated practice at the time insurance attaches cannot be revised to a non-irrigated practice after the acreage reporting date, even if liability stays the same or decreases or if the insured failed to carry out a good irrigation practice.	Substantive

5 Prevented Planting Coverage		
A	Insureds may be eligible for a prevented planting payment for acreage historically grown under an irrigated practice for which the insured had no reasonable expectation of adequate water by the final planting date (or within the late planting period, if applicable). This applies even if the acreage could have been planted with a non-irrigated practice and the insured elects not to plant, provided all other prevented planting provisions have been met, including that an insured COL must have occurred within the PP insurance period.	Substantive
B	Insureds must provide, upon the AIP's request, documentation of the factors which were considered in reporting that there was no reasonable expectation of adequate water for the acreage reported as prevented planting under an irrigated practice.	Substantive

Loss Adjustment Self-Certification Replant Worksheet

This form must be titled “Self-Certification Replant Worksheet”. This worksheet can be used only: (1) when the AIP authorizes its use, (2) for authorized crops listed in the LAM, and (3) when the acreage of the authorized crop to be replanted is 50 acres or less for a unit and the unit acreage qualifies for a replanting payment in accordance with the policy/endorsement replanting provisions. See the LAM for further completion instructions.

1 General Information		
	Note: The following statement must appear below the form title:	
A	<p>“The Self-Certification Replant Worksheet may be used when the acreage to be replanted is 50 acres or less for the unit. Per the policy provisions, in order to qualify for a replant payment, the number of acres to be replanted must be at least the lesser of 20 acres or 20% of the insured planted acreage for the unit (as determined on the final planting date or within the late planting period if a late planting period is applicable). The potential for the acres to be replanted must not exceed the amount stated in the crop policy. 	<p>Simplified Claims Qualification Process Statement</p> <p>“This form serves as written verification of your notice of loss and as an aide in determining qualified insureds for the SCP. We may rely on the information you provide on (or attach to) this form in making material determinations in the preparation of your claim.</p> <p>Once this completed Notice of Loss form and supporting documentation has been received by [INSERT AIP NAME], it will be determined whether or not your claim qualifies for the SCP. If it does qualify, the appropriate claim for indemnity form(s) will be prepared and may be sent to you for your signature if the insurance provider determines when reviewing this information with you that a correction is needed. Otherwise, the signature on this SCP form will serve as the signature for each Claim for Indemnity form to which this information was transferred, and a copy will be mailed to you. The claim form(s) will contain all the necessary data and production information to complete your claim. If qualified, you will have your claim processed in the most expedient manner possible. You will not need to wait for an adjuster. The SCP is subject to an infield review for compliance with established policies and procedures. If any of the unit(s) listed in [INSERT LOCATION ON THE FORM THE LOSS UNIT NUMBER INFORMATION IS REFERENCED] does not qualify for SCP, you will be contacted by a claims representative to set up an appointment to adjust your loss on that or all units listed above.”</p> <p>“Supporting documentation must be attached to this form and delivered to the address provided by your agent or insurance provider. You must attach either a copy of settlement sheet(s), summary sheet(s), or similar third party ledger(s) that accounts for all production from any crop unit you have listed above. Individual load tickets will not qualify. Individual loads on any settlement/summary sheet(s) must be clearly marked to indicate which unit they came from. If you have FSA or similar measurement service for determining acreage, such as Global Positioning Systems, remote sensing devices, etc., for the current crop year, please attach copies and indicate who made the acreage measurement. If you have met the requirements of precision farming and want to use those records to establish production, you must attach yield maps and planting and harvesting summary repots generated from the precision farming technology system. The per unit acreage used in calculating any indemnity will be the lesser of your reported acres or your actual planted acres. In all cases you must attach copies of maps identifying each field, crop and acreage by loss unit.”</p>	Substantive
