# TEXAS CITRUS FRUIT LOSS ADJUSTMENT STANDARDS HANDBOOK

## 2024 and Succeeding Crop Years

**THIS PAGE IS INTENTIONALLY LEFT BLANK**

**UNITED STATES DEPARTMENT OF AGRICULTURE  
FARM PRODUCTION AND CONSERVATION  
RISK MANAGEMENT AGENCY  
KANSAS CITY, MO 64133**

<b>TITLE: TEXAS CITRUS FRUIT LOSS ADJUSTMENT STANDARDS HANDBOOK</b>	<b>NUMBER: FCIC-25500 OPI: Product Management</b>
<b>EFFECTIVE DATE: 2024 and Succeeding Crop Years</b>	<b>ISSUE DATE: October 24, 2022</b>
<b>SUBJECT:</b>  Provides the procedures and instructions for administering the Texas Citrus Fruit crop insurance program	<b>APPROVED:</b>  <i>/s/ Richard H. Flourney</i>  Deputy Administrator for Product Management

**REASON FOR ISSUANCE**

This handbook provides procedures and instructions for administering the Texas Citrus Fruit crop insurance program for the 2024 and succeeding crop years.

**SUMMARY OF CHANGES**

Listed below are the changes to the 2024 FCIC-25500 Texas Citrus Fruit Loss Adjustment Standards Handbook with significant content change. All changes, and additions are highlighted. Three asterisks (\*\*\*) used throughout the handbook indicate where major deletions occurred. Minor changes and corrections are not included in this listing.

<b>Reference</b>	<b>Description of Change</b>
Throughout	Updated to External Handbook Standards.
<a href="#">Subparagraph 1B</a>	Added to comply with External Handbook Standards.
<a href="#">Subparagraph 1C</a>	Added to comply with External Handbook Standards.
<a href="#">Subparagraph 1D</a>	Updated handbook descriptions to comply with External Handbook Standards.
<a href="#">Subparagraph 2D(2)</a>	Updated for standard language concerning Privacy Act and Non-Discrimination statements.
<a href="#">Paragraph 14</a>	Removed former Paragraph 14, "Duties in the Event of Damage or Loss."
<a href="#">Paragraph 14</a>	Revised the crop years in the calendar depicting the applicable stage at the time crop damage occurs.
<a href="#">Paragraph 21</a>	Replaced the words "sold by" with "harvested for" to align with the Peach CP.
<a href="#">Paragraph 21</a>	Relocated "(e.g., roadside markets)" from Paragraph 21(1)(c) to Paragraph 21(1)(d).
<a href="#">Subparagraph 24B(2)</a>	Revised the word "tally" to "total" for clarity.
<a href="#">Subparagraph 25C(5)</a>	Revised the word "tally" to "total" for clarity.
<a href="#">Paragraph 41</a>	Clarified that the Fresh Fruit Factor is contained in the actuarial documents rather than the Special Provisions.
<a href="#">Exhibit 1</a>	Added the acronyms, AD, APH, BP, CLU, COFO, FAD, FSA, OPI, SRA, USDA, and UUF.

## SUMMARY OF CHANGES (CONTINUED)

Reference	Description of Change
<a href="#">Exhibit 2</a>	Removed definitions for the term “Direct Marketing.” Added definitions for “Drip Line” and “Ring Picked.”
<a href="#">Exhibit 4, Item 3</a>	Removed the word “serial” from “FSA farm serial number” because the term is obsolete and no longer used.
<a href="#">Exhibit 4, Item 29</a>	Added UUF/Third Party Damage stage codes.
<a href="#">Exhibit 4, Item 35</a>	Clarified that the Fresh Fruit Factor is contained in the actuarial documents rather than the Special Provisions.
<a href="#">Exhibit 4, Item 65</a>	Clarified that the Fresh Fruit Factor is contained in the actuarial documents rather than the Special Provisions.
<a href="#">Exhibit 8</a>	Revised the introductory sentence prior to the table for clarity and accessibility.

# PART 1: GENERAL INFORMATION AND RESPONSIBILITIES

## 1 General Information

---

### A. Purpose and Objective

The RMA issued loss adjustment standards for this crop are the official standard requirements for adjusting losses in a uniform and timely manner. The RMA issued standards for this crop and crop year are in effect as of the signature date for this crop handbook located at [www.rma.usda.gov/Policy-and-Procedure/Loss-Adjustment-Standards---25000](http://www.rma.usda.gov/Policy-and-Procedure/Loss-Adjustment-Standards---25000).

A bulletin or FAD can supersede either the original handbook or subsequent amendments.

### B. Source of Authority

Refer to the LAM for sources of authority.

### C. Title VI of the Civil Rights Act of 1964

The USDA prohibits discrimination against its customers. Title VI of the Civil Rights Act of 1964 provides that “No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” Therefore, programs and activities that receive Federal financial assistance must operate in a non-discriminatory manner. Also, a recipient of RMA funding may not retaliate against any person because they opposed an unlawful practice or policy, or made charges, testified, or participated in a complaint under Title VI.

It is the AIPs’ responsibility to ensure that standards, procedures, methods and instructions, as authorized by FCIC in the sale and service of crop insurance contracts, are implemented in a manner compliant with Title VI. Information regarding Title VI of the Civil Rights Act of 1964 and the program discrimination complaint process is available on the USDA public website at [www.ascr.usda.gov](http://www.ascr.usda.gov). For more information on the RMA Non-Discrimination Statement see the DSSH.

### D. Related Handbooks

The following table identifies handbooks that shall be used in conjunction with this handbook.

Handbook	Relation/Purpose
CIH	This handbook provides the official FCIC approved underwriting standards for policies administered by AIPs for the General Administrative Regulations, Actual Production History Regulation Subpart G; Common Crop Insurance Policy Basic Provisions, and Area Risk Protection Regulations.
DSSH	This handbook provides the official FCIC approved form standards and procedures for use in the sale and service of any eligible Federal crop insurance policy; required statements and disclosures; and the standards for submission and review of non-reinsured supplemental policies in accordance with the SRA.

## 1 General Information (Continued)

---

### D. Related Handbooks (Continued)

Handbook	Relation/Purpose
GSH	This handbook provides the official FCIC approved standards for policies administered by AIPs under the General Administrative Regulations, Common Crop Insurance Policy Regulations Basic Provisions, including the Catastrophic Risk Protection Endorsement, Actual Production History Regulation Subpart G; the Area Risk Protection Insurance Regulations Basic Provisions; the Stacked Income Protection Plan of Insurance; the Rainfall and Vegetation Index Plans; and the Whole-Farm Revenue Protection Pilot Policy.
LAM	This handbook provides the official FCIC approved general loss adjustment standards for all levels of insurance provided under FCIC unless a publication specifies that none or only specified parts of this handbook apply.

- (1) Terms, abbreviations, and definitions general (not crop specific) to loss adjustment are identified in the GSH.
- (2) Terms, abbreviations, and definitions specific to Texas citrus fruit loss adjustment and this handbook are in [Exhibit 1](#) and [Exhibit 2](#), herein.

### E. CAT Coverage

Refer to the CIH, GSH, and LAM for provisions and procedures not applicable to CAT coverage.

## 2 AIP Responsibilities

---

### A. Utilization of Standards

All AIPs shall utilize these standards for both loss adjustment and loss training for the applicable crop year. These standards, which include crop appraisal methods, claims completion instructions, and form standards, supplement the general (not crop-specific) loss adjustment standards identified in the LAM.

### B. Form Distribution

The following is the minimum distribution of forms completed by the adjuster and signed by the insured (or the insured's authorized representative) for the loss adjustment inspection.

- (1) One legible copy to the insured; and
- (2) The original and all remaining copies as instructed by the AIP.

### C. Record Retention

It is the AIPs responsibility to maintain records (documents) as stated in the SRA and described in the LAM.

**D. Form Standards**

- (1) The entry items in [Exhibit 3](#) and [Exhibit 4](#) are the minimum requirements for the Appraisal Worksheets and the PW. All entry items are “Substantive” (they are required).
- (2) The Privacy Act and Non-Discrimination statements are required statements that must be printed on the form or provided to the insured as a separate document. These statements are not shown on the example form(s) in the [exhibits](#). See the DSSH for [required statements](#).
- (3) The certification statement required by the current DSSH must be included on the PW directly above the insured’s signature block immediately followed by the statement below:  
  
“I understand the certified information on this Production Worksheet will be used to determine my loss, if any, to the above unit. The insurance provider may audit and approve this information and supporting documentation. The Federal Crop Insurance Corporation, an agency of the United States, subsidizes and reinsures this crop insurance.”
- (4) Refer to the DSSH for other crop insurance form requirements (such as point size of font, and so forth). [The current DSSH can be found on the RMA website at www.rma.usda.gov](#).

**3-10 (Reserved)**

---

## PART 2: POLICY INFORMATION

The AIP determines the insured has complied with all policy provisions of the insurance contract. The Texas Citrus Fruit CP, which are to be considered in this determination include (but are not limited to) the information set forth in this part.

### 11 Insurability

---

The following may not be a complete list of insurability requirements. Refer to the BP, CP, and SP for a complete list.

- (1) The crop insured will be all acreage of each citrus fruit crop designated in the SP the insured elects to insure that is grown in the county and for which premium rates are provided in the AD:
  - (a) in which the insured has a share;
  - (b) that is adapted to the area;
  - (c) that is irrigated;
  - (d) that has produced an average yield of at least three tons per acre the previous year, or that the AIP's appraised yield potential for the acreage is at least three tons per acre;
  - (e) that is grown in a grove that, if inspected, is considered acceptable by the AIP; and
  - (f) that is not sold by direct marketing, unless allowed by the SP or by written agreement.
- (2) A citrus fruit group interplanted with another perennial agricultural commodity is insurable unless the AIP inspects the acreage and determine it does not meet the requirements contained in the CP.

### 12 Unit Division

---

Refer to the insurance contract for unit provisions. Unless limited by the CP or SP, a basic unit, as defined in the BP and CP, may be divided into optional units if for each optional unit, all of the conditions stated in the applicable provisions are met.

### 13 Causes of Loss

---

- (1) Insurance is only provided against the following causes of loss that occur within the insurance period:
  - (a) excess rain;
  - (b) excess wind;
  - (c) fire, unless weeds and other forms of undergrowth have not been controlled or pruning debris has not been removed from the grove;
  - (d) freeze;

## 13 Causes of Loss (Continued)

---

- (e) hail;
  - (f) tornado;
  - (g) wildlife;
  - (h) failure of the irrigation water supply if caused by an insured peril or drought that occurs during the insurance period; or
  - (i) insects and plant disease, unless excluded or otherwise restricted through the SPs, provided the loss of production is not due to damage resulting from insufficient or improper application of control measures as recommended by agricultural experts.
- (2) In addition to the causes of loss excluded in the BP, insurance is not provided for the inability to market citrus fruit for any reason other than actual physical damage from an insurable cause of loss (e.g., quarantine, boycott, or refusal of any person to accept production).

\*\*\*

## 14 Production Guarantees

---

The production guarantee per acre is progressive by stage and increases at specific intervals to the final stage production guarantee.

- (1) The first stage begins on the date insurance attaches and extends through April 30 of the calendar year of normal bloom. The first stage production guarantee is 40 percent multiplied by the second stage production guarantee.

**Example:** The second stage guarantee is 4.90 tons/acre.

First stage production guarantee per acre =  $0.40 \times 4.90 = 1.96$  tons/acre.

- (2) The second stage begins on May 1 of the calendar year of normal bloom and extends through the end of the insurance period. The second stage production guarantee is the APH yield per acre multiplied by the coverage level.

**Example:** The APH yield per acre for early oranges is 7.54 tons/acre. The coverage level is 65%.

Second stage production guarantee per acre =  $7.54 \times 0.65 = 4.90$  tons/acre.

- (3) The crop year begins on November 20 of calendar year 1 and ends on May 30 of calendar year 3.

**14 Production Guarantees (Continued)**

Use the three-year calendar below to determine the applicable stage at the time crop damage occurs:

**2024\* Crop Year Guarantee Stages**

Calendar Year 1 (2022*)													
Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec		
										→ <b>Nov 21</b> Insurance attaches. First Stage begins.			
Calendar Year 2 (2023*)													
Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec		
		→ <b>April 30</b> End of First Stage.		→ <b>May 1</b> Second Stage begins.									
Calendar Year 3 (2024*)													
Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec		
			→ <b>May 31</b> End of Second Stage. End of Insurance Period.										

\*Adjusters will need to update crop/calendar years for each successive crop year after 2024.

**15-20 (Reserved)**

## PART 3: APPRAISALS

Potential production for all types of inspections will be appraised in accordance with procedures specified in this handbook and the LAM. Appraisals must not be made until an accurate appraisal of potential production can be made.

### 21 General Appraisal Information

---

- (1) Specifically for Texas citrus fruit, circumstances that require an appraisal include (but are not limited to when):
  - (a) the insured chooses not to harvest the acreage;
  - (b) production remains on the trees which have been partially harvested;
  - (c) verifiable production records may not be available; or
  - (d) any production will be harvested for direct marketing (e.g., roadside markets) if direct marketing is specifically permitted by the SP or by a written agreement.
- (2) AIP representatives will set appraisal dates.
- (3) Whenever possible, appraise citrus fruit after the fruit drop period and before the fruit is removed from the trees.

### 22 Acreage Determination

---

#### A. General Information

Measure all citrus tree acreage based on land acres (i.e., planimetered, wheeled/taped, GPS, etc.) with deductions for non-crop areas or other uninsured acreage of another perennial crop interplanted with the insured citrus crop. Use the information below as a guideline for establishing grove boundary lines to measure land acres for grove inspections and loss adjustment purposes.

#### B. Establishing Grove Boundary Lines for Land Acreage Measurements

Establish a boundary line around the outside rows of trees in the grove/subgrove as described below:

##### (1) Length Measurements

On the outside row of trees on the long side of the grove, measure from the center of the tree trunk outwards on a perpendicular line to the row to a distance that is equal to  $\frac{1}{2}$  the distance between trees to establish the length boundary line.

**B. Establishing Grove Boundary Lines for Land Acreage Measurements (Continued)**

(2) Width Measurements

On the outside row of trees on the wide side of the grove, measure from the center of the tree trunk outwards on a perpendicular line to the row to a distance that is equal to  $\frac{1}{2}$  the distance between tree rows to establish the width boundary line.

(3) Roads as Boundary Lines

Whenever a road forms a grove/subgrove boundary, the boundary line will be  $\frac{1}{2}$  of the spacing between tree rows not to exceed the center of the road as the boundary line.

(4) Land Acre Deductions

(a) Deduct any non-crop areas such as the width of canals and picking lanes only when such widths exceed the established tree row spacing, do not deduct for bench leveling.

(b) Deduct any uninsurable acreage (e.g., any acreage of trees of another perennial crop interplanted with the insured crop for the unit, etc.).

Measure the grove/subgrove boundary lines to determine the number of land acres (refer to the LAM for information on measuring acreage).

**Example:** An early orange grove trees are planted 15 feet apart within each row and 25 feet apart between rows. On the long side of the grove, measure 7.5 feet from the center of the trunk outwards to establish the length boundary line. On the wide side of the grove, measure 12.5 feet from the center of the trunk outwards to establish the width boundary line.

---

**23 Selecting Representative Sample Trees**

---

Make a general examination of all acreage in the grove or subgrove before selecting sample trees. Determine the number and general location of insured trees to be used in the representative sample as follows:

(1) Total acreage of the insured crop (less acreage or trees of any other perennial crops interplanted with the insured crop) and the number of insurable trees.

(2) Age and general capabilities of the trees.

## 23 Selecting Representative Sample Trees (Continued)

---

- (3) Extent of variation in the amount of production or damage to fruit on trees within the acreage. When damage is not uniform, more trees may be required for appraising.
  - (a) Include different age or size of trees, if applicable. Never use weaker than average trees.
  - (b) Consider variation in elevation of the ground.
  - (c) Observe the location of fruit on the trees.
  - (d) Select sample trees from a representative number of rows in the grove. Split the grove into subgroves and appraise each subgrove when there are significant differences within the same grove or the insured intends to destroy part of the grove. See [Exhibit 6](#), herein for representative sample tree requirements.
- (4) Exclude as representative sample trees any trees that:
  - (a) have been abandoned;
  - (b) have been damaged by uninsured causes (e.g., mechanical damage, chemical damage, etc.);
  - (c) the insured failed to provide acceptable production records; or
  - (d) the insured failed to meet the notification requirements for production sold by direct marketing.
- (5) Exclude, as representative sample trees, any trees of another perennial crop interplanted with the insured citrus fruit crop. Verify that any interplanted citrus fruit acreage was inspected, and such acreage had met the requirements for insurance to attach.

## 24 Appraisal Methods

---

### A. General Information

- (1) These instructions provide information on appraisal methods for:

Appraisal Method...	Use...
Fruit Count Appraisal Method	To determining the amount of fruit loss on insured acreage.
Weight Appraisal Method	To determine the potential amount of citrus fruit production that will not be harvested in a timely manner or that is left on the trees after the end of the insurance period.

- (2) Consider any citrus fruit on the ground that is not harvested (or is unmarketable either as fresh fruit or juice because it is immature, unwholesome, decomposed, adulterated, or otherwise unfit for human consumption) as totally lost, if damaged by an insurable cause.

**B. Fruit Count Appraisal Method**

- (1) Use the procedures in [Paragraph 23](#) and [Exhibit 6](#), herein to select representative sample trees.
- (2) Count all of the marketable citrus fruit on each sample tree and any marketable fruit on the ground within the drip line of the sample tree, as applicable.
  - (a) Record the fruit-count from each sample tree in Part I of the Adjuster’s Citrus Worksheet (Texas), hereafter referred to as the appraisal worksheet.
  - (b) **Total** fruit counts from all representative sample trees.
- (3) Convert the total fruit count from all representative sample trees to tons per acre as described in [Exhibit 3](#), herein.

**C. Weight Appraisal Method**

- (1) Walk through the entire grove to visually analyze crop damage due to insurable causes. Observe the following:
  - (a) number of trees with unpicked fruit;
  - (b) number of trees “ring” or “color” picked;
  - (c) number of trees harvested clean;
  - (d) whether or not damage is uniform; and
  - (e) the extent and variation of damage. If damaged by freeze, note the extent of damage variation according to location of damaged fruit on the trees.
- (2) Select representative sample trees based on the grove analysis outlined in step 1 above, [Paragraph 23](#), and [Exhibit 6](#), herein.
- (3) Pick all of the fruit from each representative sample tree including any fruit from the ground within the drip line of the sample tree, as applicable, that would be acceptable by the processor for processing as juice.
- (4) Weigh the fruit from each sample and record weight in pounds, to tenths on the appraisal worksheet.
- (5) **Total** the fruit weights in pounds to tenths from all sample trees.

## **25 Deviations and Modifications**

---

- (1) Deviations in appraisal methods require RMA written authorization (as described in the LAM) prior to implementation.
- (2) There are no pre-established appraisal modifications contained in this handbook, refer to the LAM for additional information.

## **26 Handling Appraisal Discrepancies**

---

If the insured disagrees with the appraisal, make arrangements for leaving representative trees unharvested and for inspecting those trees when the citrus fruit is ready to harvest.

- (1) The adjuster and insured should jointly determine the trees to be selected for this representative sample. Make a sketch map of the unit/grove/subgrove and sample trees by row number and tree count within the chosen row.
- (2) The adjuster should physically mark or tag trees selected for appraisals to verify exact location of sample trees in the unit/grove/subgrove.
- (3) An adjuster must be present when the representative trees are harvested.

If an insured refuses to sign appraisal worksheet(s) refer to the LAM for information on unusual/controversial cases.

## **27 General Information for Appraisal Worksheet Entries and Completion Procedures**

---

- (1) Include the AIP's name in the appraisal worksheet title if it is not preprinted on the AIP's worksheet or when a worksheet entry is not provided.
- (2) Include the claim number on the appraisal worksheet (when required by the AIP) when a worksheet entry is not provided.
- (3) Separate appraisal worksheets are required for each unit, commodity type, and varying tree densities inspected, as applicable and for acreage within a unit damaged solely by uninsured causes. Refer to [Paragraph 23](#) herein for sampling instructions.
- (4) For every inspection complete items 1 through 9 and items 34 through 36 on the appraisal worksheet (see [Exhibit 3](#)). For fruit count appraisals complete Part I of the appraisal worksheet. For weight appraisals complete Part II of the appraisal worksheet.
- (5) Standard appraisal worksheet items are numbered consecutively in [Exhibit 3](#) below. Example appraisal worksheets are provided to illustrate how to complete item entries.

## **28-40 (Reserved)**

---

## PART 4: PRODUCTION WORKSHEET

### 41 General Information for Production Worksheet Entries and Completion Information

---

- (1) The PW is a progressive form containing all notices of damage for all preliminary and final inspections (including “No Indemnity Due” claims) on a unit.
- (2) If a PW has been prepared on a prior inspection, verify each entry and enter additional information as needed. If a change or correction is necessary, strike out all entries on the line and re-enter correct entries on a new line. The adjuster and insured should initial any line deletions.
- (3) Refer to the LAM for instructions regarding the following:
  - (a) Acreage report errors.
  - (b) Delayed notices and delayed claims.
  - (c) Corrected claims or fire losses (double coverage) and cases involving uninsured causes of loss, unusual situations, controversial claims, concealment, or misrepresentation.
  - (d) Claims involving a Certification Form (when all the acreage on the unit has been appraised to be put to another use or other reasons as described in the LAM).
  - (e) “No Indemnity Due” claims (which must be verified by an appraisal or notification from the insured that the production exceeded the guarantee).
- (4) The adjuster is responsible for determining if any of the insured’s requirements under the notice and claim provisions of the policy have not been met. If any have not, the adjuster should contact the AIP.
- (5) Instructions labeled “Preliminary” apply to preliminary inspections only. Instructions labeled “Final” apply to final inspections only. Instructions not labeled apply to all inspections.
- (6) For quality adjustment calculations of production that is not marketable as fresh fruit due to insurable causes, use the Fresh Fruit Factor contained in the [AD](#).
- (7) Any production will be considered marketed or marketable as fresh fruit unless, due to insured causes, such production was not marketed as fresh fruit.
- (8) In the absence of acceptable records of disposition of harvested citrus fruit, the disposition and amount of production to count for the unit will be the guarantee on the unit.
- (9) Any citrus fruit on the ground that is not harvested will be considered totally lost if damaged by insured causes of loss.
- (10) Refer to subsection 15(b) of the Basic Provisions for information on determining production to count on acreage that is harvested after it has been appraised.

**41 General Information for Production Worksheet Entries and Completion Information (Continued)**

---

- (11) The PW has no entries for stage guarantees. Be sure to use the applicable 1st or 2nd stage guarantee to calculate the claim for indemnity for any citrus acreage damaged by insured causes.

## EXHIBITS

### Exhibit 1 Acronyms and Abbreviations

---

The following table provides the acronyms and abbreviations used in this handbook.

Approved Acronym/ Abbreviation	Term
AD	Actuarial Documents
AIP	Approved Insurance Provider
APH	Actual Production History
BP	Basic Provisions
CAT	Catastrophic Risk Protection
CIH	Crop Insurance Handbook
CLU	Commercial Land Unit
COFO	Commercially Objectionable Foreign Odor
CP	Crop Provisions
DSSH	Document and Supplemental Standards Handbook
FAD	Final Agency Determination
FCIC	Federal Crop Insurance Corporation
FSA	Farm Service Agency
GPS	Global Positioning System
GSH	General Standards Handbook
LAM	Loss Adjustments Manual
OPI	Office of Primary Interest
RMA	Risk Management Agency
PW	Production Worksheet
SP	Special Provisions
SRA	Standard Reinsurance Agreement
USDA	United States Department of Agriculture
UUF	Uninsured Unavoidable Fire

**Crop Year:** The period beginning with the date insurance attaches to the insured crop and extending through the normal harvest time. The crop year is designated by the calendar year following the year in which the bloom is normally set.

\*\*\*

**Drip Line:** The outer circumference of the tree's branches (i.e., the canopy perimeter).

**Fruit Size:** The number of fruit per field box.

**Harvest:** The severance of mature citrus from the tree by pulling, picking, or any other means, or by collecting marketable fruit from the ground.

**Intended use:** The insured's expected end use or disposition of the commodity at the time the commodity is reported. Insurable intended uses will be specified in the SP.

**Interplanted (acreage):** Acreage on which two or more agricultural commodities are planted in any form of alternating or mixed planting pattern and at least one of these agricultural commodities constitutes an insured crop under the CP.

**Production Guarantee Stages:** The CP provide for production guarantees by stage of crop development. The first stage begins when insurance attaches and extends through April 30 of the calendar year of normal bloom. The second stage begins on May 1 of the calendar year of normal bloom and extends through end of the insurance period.

**Production Guarantee per Acre:** The first stage production guarantee is determined by multiplying the second stage guarantee by 40 percent. The second stage production guarantee of citrus fruit (in tons) is determined by multiplying the APH yield per acre by the coverage level elected by the insured.

**Ring Picked:** Selectively picked fruit using sizing rings to only harvest those fruits which exceed a specified minimum size.

**Exhibit 3 Form Standards – Appraisal Worksheet**

Verify and/or make the following entries for each appraisal worksheet element/item number. A completed appraisal worksheet example is at the end of this exhibit. For general form standards and other general information, see [Subparagraph 2D](#) and [Paragraph 27](#).

**Part I – Appraisal Fruit Count Method**

<b>Element/Item Number</b>	<b>Standard</b>
Company	Name of AIP if not preprinted on the worksheet (Company Name).
Claim Number	Claim number as assigned by the AIP.
1. Insured’s Name	Name of insured that identifies exactly the person (legal entity) to whom the policy is issued.
2. Policy Number	Insured’s assigned policy number.
3. Crop Year	Four-digit crop year as defined in the policy for which the claim has been filed.
4. Unit Number	Unit number from the Summary of Coverage after it is verified to be correct.
5. Unit Acreage	Number of determined acres, to tenths, in the unit being appraised (see <a href="#">Paragraph 12</a> , herein).
6. Crop Name & Type	Enter the commodity name and type exactly as specified on the actuarial documents.
7. Cause & Date of Damage	The insured cause of damage and date of damage as first three letters of the month during which most of the insured damage (including progressive damage) occurred. Include specific date where applicable, as in the case of hail damage (e.g., “Jan 10, YYYY,” etc.).
8. Planting Pattern	Line through heading and enter “Tree Spacing.” The spacing between trees and between rows of trees in whole feet (e.g., trees are planted 16 feet apart in the row and rows are planted 25 feet apart, enter 16 × 25).
9. Trees in Unit	Use the tree spacing in item 8, <a href="#">Exhibit 5</a> , current Producer’s Pre-acceptance Worksheet, Pre-acceptance Perennial Crop Inspection Report, and/or addendum worksheets, as applicable, to determine the number of insurable trees in the unit. Refer to LAM for additional instructions on determining the number of trees per acre.
Trees in Grove/ Subgrove Appraised	The number of insurable trees in the grove or <b>subgrove</b> appraised.
10. Grove ID	Grove/subgrove identification number.
Acres	Number of grove/subgrove acres rounded to tenths (see <a href="#">Paragraph 12</a> , herein).

**Exhibit 3 Form Standards – Appraisal Worksheet (Continued)**

Element/Item Number	Standard
11. Number of Fruit per Tree	(1) Determine the number of representative sample trees based on acreage (item 10), the number of trees in the grove/subgrove (item 9), and <a href="#">Exhibit 6</a> , herein.  (2) Count and record the number of marketable citrus fruit per sample tree and any marketable fruit on the ground within the drip line of the sample tree, as applicable.
12. Total Fruit	Total of all item 11 entries in whole fruit.
13. Total Fruit	Total of all item 12 entries.
14. No. Trees Sampled	Total number of sample trees from item 11.
15. Average Fruit/Tree	Item 13 divided by item 14, results rounded to tenths.
16. Fruit Size	Select and record the “Fruit Size” for the citrus crop from <a href="#">Exhibit 7</a> .
17. Field Boxes per Tree	Item 15 divided by item 16, results in boxes, rounded to hundredths.
18. Trees per Acre	Item 9 (trees in grove/subgrove appraised) divided by item 10 (grove acres), results rounded to whole trees (e.g., 752 trees ÷ 6.9 acres = 109 tree/acre).
19. Total Boxes	Item 17 multiplied by item 18, results in boxes, rounded to tenths.
20. Lbs./Box	Enter 90.0 pounds/box for oranges, or 85.0 pounds/box for grapefruit, as applicable.
21. Total Lbs.	Item 19 multiplied by item 20, results in whole pounds.
22. Lbs./Ton	Enter “2,000” if not preprinted on worksheet.
23. Tons per Acre	Item 21 divided by item 22, results in tons, rounded to tenths.  (1) For insured cause appraisals: Transfer this entry to column 31 “Appraised Production” on the PW for insured cause appraisals.  (2) For uninsured cause appraisals: Multiply this amount by appraised acres in item 10 and transfer results to column 37 “Uninsured Causes” on the PW.

Part II – Weight Appraisal Method

Element/Item Number	Standard
24. Grove ID	Grove/subgrove identification number.
Acres	Number of grove/subgrove acres rounded to tenths (refer to Paragraph 12, herein).
25. Potential in Pounds per Tree	<p>(1) Determine the number of representative sample trees based on acreage (item 24), the number of trees in the grove/subgrove (item 9), and <a href="#">Exhibit 6</a>, herein.</p> <p>(2) Pick and weigh all of the fruit from each sample tree including any fruit from the ground within the drip line of the sample tree, as applicable, that would be acceptable by the processor for processing as juice. Enter weight of such fruit, in pounds, rounded to tenths.</p>
26. Total Pounds	Total all item 25 entries in pounds, rounded to tenths.
27. Total Pounds	Total of all item 26 entries.
28. No. Trees Sampled	Total number of sample trees from item 25.
29. Average Lbs. per Tree	Item 27 divided by item 28, results in pounds, rounded to tenths.
30. Trees per Acre	Item 9 (trees in grove/subgrove appraised) divided by item 24 (grove acres), results rounded to whole trees (e.g., 2,496 trees ÷ 22.9 acres = 109 tree/acre).
31. Total Lbs. per Acre	Item 29 multiplied by item 30, results rounded to whole pounds.
32. Lbs. per Ton	Enter “2,000” if not preprinted on worksheet.
33. Tons per Acre	<p>Item 31 divided by item 32, results in tons, rounded to tenths.</p> <p>(1) For insured cause appraisals: Transfer this entry to column 31 “Appraised Production” on the PW for insured cause appraisals.</p> <p>(2) For uninsured cause appraisals: Multiply this amount by appraised acres in item 10 and transfer results to column 37 “Uninsured Causes” on the PW.</p> <p><b>Narrative:</b> Insert information pertinent to the appraisal (e.g., any acreage of other uninsurable interplanted trees, trees damaged by uninsured causes, uninsured causes of damage, average fruit size calculations, etc.).</p>

**Exhibit 3 Form Standards – Appraisal Worksheet (Continued)**

The following required entries are not illustrated on the Appraisal Worksheet examples below.

<b>Element/Item Number</b>	<b>Standard</b>
34. Adjuster's Signature, Code No., and Date	(1) Signature of adjuster, code number, and date signed after the insured (or insured's authorized representative) has signed.  (2) If the appraisal is performed prior to signature date, document the date of appraisal in the Narrative section of the appraisal worksheet (if available); otherwise, document the appraisal date in the Narrative of the PW.
35. Insured's Signature and Date	(1) Insured's (or insured's authorized representative's) signature and date.  (2) Before obtaining the insured's signature, review all entries on the appraisal worksheet with the insured or insured's authorized representative, particularly explaining codes, etc., that may not be readily understood.
36. Page Numbers	Page numbers.  <b>Example:</b> Page 1 of 1, Page 1 of 2, Page 2 of 2, etc.

NARRATIVE												

This form example does not illustrate all required entry items (e.g., signatures, dates, etc.).

**Exhibit 4 Form Standards – Production Worksheet**

Verify and/or make the following entries for each PW element/item number. A completed PW for citrus fruit insured with an intended use of fresh fruit and citrus fruit insured with an intended use of juice are at the end of this exhibit. For general form standards and other general information, see [Subparagraph 2D](#) and [Paragraph 41](#).

Element/Item Number	Standard
1. Crop/ Code #	Enter the applicable commodity name and code number exactly as specified on the actuarial documents.
2. Unit #	Unit number from the Summary of Coverage after it is verified to be correct.
3. Location Description	Land location that identifies, if available, the location of the unit (e.g., section, township, and range; FSA Farm Numbers; FSA CLU and tract numbers; GPS identifications; or Grid identifications) as applicable for the crop.  ***
4. Date(s) of Damage	First three letters of the month(s) during which the determined insured damage occurred for the inspection and cause(s) of damage listed in item 5. If no entry in item 5 below, make no entry. For progressive damage, enter in chronological order the month that identifies when the majority of the insured damage occurred. Include the specific date where applicable as in the case of hail damage (e.g., “Jan 10”). Enter additional dates of damage in the extra spaces, as needed. If more space is needed, document additional dates of damage in the Narrative (or on a Special Report). Refer to the illustration in item 6 below. If there is no insurable cause of loss, and a no indemnity due claim will be completed, make no entry.
5. Cause(s) of Loss	Name of the determined insured cause(s) of loss as listed in the LAM for the date of damage listed in item 4 above for this inspection. If an insured cause(s) of loss is coded as “Other,” explain in the Narrative. Enter additional causes of damage in the extra spaces, as needed. If more space is needed, document the additional determined insured causes of loss in the Narrative (or on a Special Report). Refer to the illustration in item 6 below.  If it is evident that no indemnity is due, enter “No Indemnity Due” across the columns in item 5 (refer to the LAM for more information on no indemnity due claims). If the claim is denied, enter “DC,” and refer to the LAM for further instructions.
6. Insured Cause %	<b>Preliminary:</b> Make no entry.  <b>Final:</b> Whole percent of damage for the insured cause of damage listed in item 5 above for this inspection. Enter additional “Insured Cause %” in the extra spaces, as needed.

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard
<p>6. Insured Cause % (Continued)</p>	<p>(1) If additional space is needed, enter additional determine “Insured Cause %” in the Narrative or on a Special Report. The total of all “Insured Cause %” including those entered in the Narrative shall equal 100%.</p> <p>(2) Example entries for items 4 thru 6 and the Narrative, reflecting entries for multiple dates of damage, the corresponding insured causes of damage and insured cause percentages:</p> <p>4. Date of damage:    May        Jun 30    Jun 30    Aug        Aug</p> <p>5. Cause(s) of        Excess    Tornado    Hail    Drought    Heat Damage:                    Moisture</p> <p>6. Insured Cause %:    10            20            15            25            20</p> <p><b>Narrative:</b>    Sep 5 additional date of damage, freeze cause of damage, 10% insured cause percentage.</p> <p><b>Important:</b>    Make no entry if there is no insurable COL, and no indemnity due claim will be completed.</p>
<p>7. Company/Agency</p>	<p>Name of the AIP and agency servicing the contract.</p>
<p>8. Name of Insured</p>	<p>Name of the insured that identifies exactly the person (legal entity) to whom the policy is issued.</p>
<p>9. Claim #</p>	<p>Claim number as assigned by the AIP.</p>
<p>10. Policy #</p>	<p>Insured’s assigned policy number.</p>
<p>11. Crop Year</p>	<p>Four-digit crop year, as defined in the policy, for which the claim is filed.</p>
<p>12. Additional Units</p>	<p><b>Preliminary:</b>    Make no entry.</p> <p><b>Final:</b>            Unit number(s) for all non-loss units for the crop at the time of final inspection. A non-loss unit is any unit for which a PW has not been completed. Additional non-loss units may be entered on a single PW.</p> <p><b>Important:</b>    If more spaces are needed for non-loss units, enter the unit numbers, identified as “Non-Loss Units,” in the Narrative or on an attached Special Report.</p>
<p>13. Est. Prod. Per Acre</p>	<p><b>Preliminary:</b>    Make no entry.</p> <p><b>Final:</b>            Estimated yield per acre, in tons to tenths, of all non-loss units for the crop at the time of final inspection.</p>

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard
<p>14. Date(s) Notice of Loss</p>	<p><b>Preliminary:</b></p> <ul style="list-style-type: none"> <li>(1) Date the first or second notice of damage or loss was given for the unit in item 2, in the 1st or 2nd space, as applicable. Enter the complete date (MM, DD, and YYYY) for each notice.</li> <li>(2) A notice of damage or loss for a third preliminary inspection (if needed) requires an additional set of PWs. Enter the date of notice for a third preliminary inspection in the 1st space of item 14 on the second set of PWs.</li> <li>(3) Reserve the “Final” space on the first page of the first set of PWs for the date of notice for the final inspection.</li> <li>(4) If the inspection is initiated by the AIP, enter “Company Insp.” instead of the date.</li> <li>(5) If the notice does not require an inspection, document as directed in the Narrative instructions.</li> </ul> <p><b>Final:</b> Transfer the last date (in the 1st or 2nd space from the first or second set of PWs) to the “Final” space on the first page of the first set of PWs if a final inspection should be made as a result of the notice. Always enter the complete date of notice (MM/DD/YYYY) for the final inspection in the “Final” space on the first page of the first set of PWs. For a delayed notice of loss or delayed claim, refer to the LAM.</p>
<p>15. Companion Policy(s)</p>	<ul style="list-style-type: none"> <li>(1) If no other person has a share in the unit (insured has 100 percent share), make no entry.</li> <li>(2) In all cases where the insured has less than a 100 percent share of a loss-affected unit, ask the insured if the other person sharing in the unit has a multiple-peril crop contract (i.e., not crop-hail, fire, etc.). If the other person does not, enter “None.” <ul style="list-style-type: none"> <li>(a) If the other person has a multiple-peril crop insurance contract and it can be determined that the same AIP services it, enter the contract number. Handle these companion policies according to AIP instructions.</li> <li>(b) If the other person has a multiple-peril crop insurance contract and a different AIP or agent services it, enter the name of the AIP and/or agent (and contract number) if known.</li> </ul> </li> </ul>

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

<b>Element/Item Number</b>	<b>Standard</b>
15. Companion Policy(s) (Continued)	(c) If unable to verify the existence of a companion contract, enter “Unknown” and contact the AIP for further instructions.  (3) Refer to the LAM for further information regarding companion contracts.

**Section I – Determined Acreage Appraised, Production, and Adjustments**

Make separate line entries for varying:

- (1) rate classes, types, irrigated practices, or organic practices, as applicable;
- (2) APH yields;
- (3) appraisals;
- (4) adjustments to appraised production;
- (5) stages or intended use(s) of acreage;
- (6) shares (e.g., 50 percent and 75 percent shares on the same unit); or
- (7) appraisals for damage due to hail or fire if Hail and Fire Exclusion is in effect.

<b>Element/Item Number</b>	<b>Standard</b>
16. Field ID	The grove/subgrove identification symbol from the appraisal worksheet, sketch map, or aerial photograph, as applicable. Refer to the Narrative instructions.
17. Multi-crop Code	The applicable two-digit code for first crop and second crop. Refer to the LAM for instructions regarding entry of first and second crop codes.
18. Reported Acres	In the event of over-reported acres, handle in accordance with the individual AIP’s instructions. In the event of under-reported acres, enter the reported acres to tenths for the grove or <b>subgrove</b> . If there are no under-reported acres, make no entry. Refer to the LAM or CIH for acreage determination instructions specific to perennial crops.
19. Determined Acres	Refer to the LAM for definition of acceptable determined acres for perennial crops used herein. Determined acres to tenths for which consent is given for other use and/or: <ol style="list-style-type: none"> <li>(1) put to other use without consent;</li> <li>(2) abandoned;</li> <li>(3) damaged by uninsured causes;</li> </ol>

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard
19. Determined Acres (Continued)	<p>(4) for which the insured failed to provide acceptable records of production; or</p> <p>(5) from which production was sold by direct marketing if the insured failed to meet the requirements contained in the CPs.</p> <p><b>Final:</b> Determined acres to tenths. Acreage breakdowns within a unit may be estimated (refer to the LAM) if a determination is impractical. Account for all planted acreage in the unit.</p>
20. Interest or Share	Insured’s interest in the crop to three decimal places as determined at the time of inspection. If shares vary on the same unit, use separate line entries.
21.	Make no entry.
22. Type	Type: Three-digit code number (e.g., 150 for “Early & Midseason (Fresh)” or 151 for “Early & Midseason (Juice)”), entered exactly as specified on the actuarial documents for the type grown by the insured.
23.	Make no entry.
24.	Make no entry.
25.	Make no entry.
26. Irr. Practice	Three-digit code number (e.g., 002), entered exactly as specified on the actuarial documents for the irrigated practice carried out by the insured.
27.	Make no entry.
28. Organic Practice	Three-digit code number, entered exactly as specified on the actuarial documents for the organic practice carried out by the insured. If “No Organic Practice Specified” is shown in the actuarial documents, enter the appropriate three-digit code number from the actuarial documents (e.g., 997). If an organic practice is not specified on the actuarial documents, make no entry.

<p>29. Stage</p>	<p><b>Preliminary:</b> Make no entry.</p> <p><b>Final:</b> Stage abbreviation as shown below:</p> <table border="1"> <thead> <tr> <th><u>Stage</u></th> <th><u>Explanation</u></th> </tr> </thead> <tbody> <tr> <td>“1st” .....</td> <td>Begins on the date insurance attached and extends through April 30 of the calendar year of normal bloom.</td> </tr> <tr> <td>“2nd” .....</td> <td>Begins on May 1 of the calendar year of normal bloom and extends through the end of the insurance period.</td> </tr> <tr> <td>“P” .....</td> <td>Acreage abandoned without consent, damaged solely by uninsured causes, or for which the insured failed to provide records of production which are acceptable to the AIP, or from which production was sold by direct marketing and the insured failed to give the timely 15-day notice requirement that production would be sold by direct marketing (lack of timely notice affected the ability of the AIP to make the required appraisal).</td> </tr> <tr> <td>“TZ” .....</td> <td>UUF/Third Party Damage – Zero production on same acreage.</td> </tr> <tr> <td>“TA” .....</td> <td>UUF/Third Party Damage – Appraised production on same acreage.</td> </tr> <tr> <td>“TH” .....</td> <td>UUF/Third Party Damage – Harvested production on same acreage.</td> </tr> </tbody> </table> <p><b>Important:</b> Any acreage of the citrus crop damaged in the first stage to the extent that the majority of producers in the area would not further maintain the citrus crop, enter “1st” in column 29.</p> <p>Any acreage of the citrus crop damaged in the first stage to the extent that a majority of the producers in the area would maintain the citrus crop for harvest, enter “2nd” in column 29.</p> <p><b>Gleaned Acreage:</b> Refer to the LAM for information on gleaning.</p>	<u>Stage</u>	<u>Explanation</u>	“1st” .....	Begins on the date insurance attached and extends through April 30 of the calendar year of normal bloom.	“2nd” .....	Begins on May 1 of the calendar year of normal bloom and extends through the end of the insurance period.	“P” .....	Acreage abandoned without consent, damaged solely by uninsured causes, or for which the insured failed to provide records of production which are acceptable to the AIP, or from which production was sold by direct marketing and the insured failed to give the timely 15-day notice requirement that production would be sold by direct marketing (lack of timely notice affected the ability of the AIP to make the required appraisal).	“TZ” .....	UUF/Third Party Damage – Zero production on same acreage.	“TA” .....	UUF/Third Party Damage – Appraised production on same acreage.	“TH” .....	UUF/Third Party Damage – Harvested production on same acreage.
<u>Stage</u>	<u>Explanation</u>														
“1st” .....	Begins on the date insurance attached and extends through April 30 of the calendar year of normal bloom.														
“2nd” .....	Begins on May 1 of the calendar year of normal bloom and extends through the end of the insurance period.														
“P” .....	Acreage abandoned without consent, damaged solely by uninsured causes, or for which the insured failed to provide records of production which are acceptable to the AIP, or from which production was sold by direct marketing and the insured failed to give the timely 15-day notice requirement that production would be sold by direct marketing (lack of timely notice affected the ability of the AIP to make the required appraisal).														
“TZ” .....	UUF/Third Party Damage – Zero production on same acreage.														
“TA” .....	UUF/Third Party Damage – Appraised production on same acreage.														
“TH” .....	UUF/Third Party Damage – Harvested production on same acreage.														

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard																				
<p>30. Use of Acreage</p>	<p>Use the following abbreviations:</p> <table border="0"> <thead> <tr> <th data-bbox="586 302 860 336"><u>Use</u></th> <th data-bbox="873 302 1032 336"><u>Explanation</u></th> </tr> </thead> <tbody> <tr> <td data-bbox="586 338 860 371">"Trees removed,"</td> <td data-bbox="873 338 1032 371"></td> </tr> <tr> <td data-bbox="586 373 860 407">"Grove replanted,"</td> <td data-bbox="873 373 1032 407"></td> </tr> <tr> <td data-bbox="586 409 860 443">etc. ....</td> <td data-bbox="873 409 1032 443">Use made of the acreage.</td> </tr> <tr> <td data-bbox="586 485 860 518">"WOC" .....</td> <td data-bbox="873 485 1515 636">Other use without consent (does not apply to 1st stage appraisal where there will be "no further care" for the balance of the crop year; enter "UH").</td> </tr> <tr> <td data-bbox="586 674 860 707">"SU" .....</td> <td data-bbox="873 674 1097 707">Solely uninsured.</td> </tr> <tr> <td data-bbox="586 745 860 779">"ABA" .....</td> <td data-bbox="873 745 1495 896">Abandoned without consent (does not apply to 1st stage appraisal where there will be "no further care" for the balance of the crop year; enter "UH").</td> </tr> <tr> <td data-bbox="586 934 860 968">"DMWO" .....</td> <td data-bbox="873 934 1450 1001">Production sold by direct marketing without proper 15-day notice effected appraisals.</td> </tr> <tr> <td data-bbox="586 1039 860 1073">"H" .....</td> <td data-bbox="873 1039 1016 1073">Harvested.</td> </tr> <tr> <td data-bbox="586 1110 860 1144">"UH" .....</td> <td data-bbox="873 1110 1049 1144">Unharvested.</td> </tr> </tbody> </table> <p>Verify any "Use of Acreage" entry. If the final use of the acreage was not as indicated, strike out the original line and initial it. Enter all data on a new line showing the correct "Use of Acreage."</p> <p><b>Gleaned acreage:</b> Refer to the LAM for information on gleaning.</p>	<u>Use</u>	<u>Explanation</u>	"Trees removed,"		"Grove replanted,"		etc. ....	Use made of the acreage.	"WOC" .....	Other use without consent (does not apply to 1st stage appraisal where there will be "no further care" for the balance of the crop year; enter "UH").	"SU" .....	Solely uninsured.	"ABA" .....	Abandoned without consent (does not apply to 1st stage appraisal where there will be "no further care" for the balance of the crop year; enter "UH").	"DMWO" .....	Production sold by direct marketing without proper 15-day notice effected appraisals.	"H" .....	Harvested.	"UH" .....	Unharvested.
<u>Use</u>	<u>Explanation</u>																				
"Trees removed,"																					
"Grove replanted,"																					
etc. ....	Use made of the acreage.																				
"WOC" .....	Other use without consent (does not apply to 1st stage appraisal where there will be "no further care" for the balance of the crop year; enter "UH").																				
"SU" .....	Solely uninsured.																				
"ABA" .....	Abandoned without consent (does not apply to 1st stage appraisal where there will be "no further care" for the balance of the crop year; enter "UH").																				
"DMWO" .....	Production sold by direct marketing without proper 15-day notice effected appraisals.																				
"H" .....	Harvested.																				
"UH" .....	Unharvested.																				
<p>31. Appraised Potential</p>	<p>Transfer the per-acre appraisal in tons from item 23 or 33 on the appraisal worksheet.</p> <p>If there is no potential on UH acreage, enter "0.0." Refer to the LAM for Zero Appraisal Documentation.</p>																				

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard
32a. Moisture %	<p>Make the following entries, as applicable:</p> <p>(1) For any citrus fruit insured with an intended use of juice that is not marketed as fresh fruit, and due to insurable causes, does not contain 120 or more gallons of juice per ton, enter such gallons of juice per ton (see Exhibit 8 for information on calculating gallons of juice per ton). Round gallons to tenths.</p> <p>(2) For any citrus fruit insured with an intended use of fresh that is not marketable as fresh fruit due to insurable causes, make no entry.</p> <p>(3) If no quality adjustment, make no entry.</p>
32b. Factor	<p>Make the following entries, as applicable:</p> <p>(1) For any citrus fruit insured with an intended use of juice that is not marketed as fresh fruit, enter 120.0 gallons when there is an entry in column 32a.</p> <p>(2) For any citrus fruit insured with an intended use of fresh that is not marketable as fresh fruit due to insurable causes, make no entry.</p> <p>(3) If no quality adjustment, make no entry.</p>
33.	Make no entry.
34. Production Pre-QA	Column 19 multiplied by column 31, results in tons, rounded to tenths.
35. Quality Factor	<p>Make the following entries, as applicable:</p> <p>(1) For appraised production of citrus fruit with an intended use of juice that is not marketed as fresh fruit, column 32a divided by column 32b. Round to three decimal places.</p> <p>(2) For appraised production of citrus fruit insured with an intended use of fresh fruit that is not marketable as fresh fruit due to insurable causes, enter the applicable Fresh Fruit Factor contained in the AD.</p> <p>(3) For appraisals without quality adjustment, make no entry.</p> <p>Include a copy of all supporting documentation in the insured’s claim file. For additional quality adjustment definitions, instructions, documentation, qualifications, and testing requirements, refer to the LAM. Also refer to the quality adjustment instructions in the Narrative, herein.</p>

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard
36. Production Post-QA	<p>Make the following entries in tons, rounded to tenths:</p> <p>(1) For appraisals <b>with</b> quality adjustment, column 34 multiplied by column 35.</p> <p>(2) For all appraisals <b>without</b> quality adjustment, transfer entry from column 34.</p>
37. Unins. Causes	<p>Make the following entries in tons, rounded to tenths:</p> <p>Result of appraisal for uninsured cause(s) appraisal (taken from item 23 or 33 on the appraisal worksheet). If no uninsured causes, make no entry.</p> <p>(1) Hail and Fire exclusion not in effect:</p> <p>(a) Enter not less than the insured’s production guarantee per acre in tons, rounded to tenths, for the line (calculated by multiplying the elected coverage level percentage by the approved APH yield per acre shown on the APH form) for any “P” stage acreage. On preliminary inspections, advise the insured to keep the harvested production from any acreage damaged solely by uninsured causes separate from other production.</p> <p>(b) For acreage that is damaged partly by uninsured causes, enter the appraised uninsured loss of production per acre in tons, rounded to tenths, for any such acreage. Refer to the LAM for instructions regarding assessing uninsured cause appraisals.</p> <p>(2) Refer to the LAM when a Hail and Fire Exclusion is in effect and damage is from hail or fire.</p> <p>(3) Enter the result of adding uninsured cause appraisals to hail and fire exclusion appraisals.</p> <p>(4) For fire losses, if the insured also has other fire insurance (double coverage), refer to the LAM.</p>
38. Total to Count	Result of adding item 36 and item 37.
39. Total	Total of all column 19 entries in acres.

Element/Item Number	Standard												
<p>40. Quality</p>	<p>Check the applicable qualifying quality adjustment condition(s) affecting the unit’s appraised and harvested production (refer to the CP and SP) in the table below.</p> <p style="text-align: center;"><b>Qualifying Quality Adjustment Conditions Table</b></p> <table border="0" style="margin-left: auto; margin-right: auto;"> <tr> <td style="padding-right: 20px;">TW</td> <td style="padding-right: 20px;">Vomitoxin</td> <td style="padding-right: 20px;">Dark Roast</td> <td>COFO</td> </tr> <tr> <td>KD</td> <td>Fumonisin</td> <td>Sclerotinia</td> <td>Other</td> </tr> <tr> <td>Aflatoxin</td> <td>Garlicky</td> <td>Ergoty</td> <td>None</td> </tr> </table> <p>(1) For all qualifying quality adjustment conditions checked, in the Narrative or on a Special Report:</p> <p style="padding-left: 40px;">(a) Document the level for each qualifying quality adjustment condition as indicated by approved test results, and the name and location of each testing facility that verifies the presence of the qualifying quality adjustment condition and the date(s) of such tests; or</p> <p style="padding-left: 40px;">(b) Enter “See documentation included in the claim file” (e.g., include copy of the test facility certificate, grade certificate, summary or settlement sheet, etc., that documents the quality adjustment conditions).</p> <p>(2) If “Other” is checked, in addition to the above documentation requirements, document in the Narrative or on a Special Report:</p> <p style="padding-left: 40px;">(a) A description of the qualifying quality adjustment conditions; and</p> <p style="padding-left: 40px;">(b) The name of the controlling authority that considers this qualifying quality adjustment condition to be injurious to human or animal health and why.</p> <p>(3) Check “None” if none of the production qualifies for quality adjustment.</p>	TW	Vomitoxin	Dark Roast	COFO	KD	Fumonisin	Sclerotinia	Other	Aflatoxin	Garlicky	Ergoty	None

Aflatoxin	Garlicky	Ergoty	None										

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard
41. Mycotoxins Exceed FDA, State, or Other Health Organization Maximum Limits	Check “Yes” if any mycotoxins listed in item 40 (including any identified as “Other”) exceed the FDA, state, or other health organization maximum limits; otherwise, leave blank.  Document in the Narrative or on a Special Report the disposition of the production that was:  (1) Sold, document the name and address of the buyer; or  (2) Not sold, document the date(s) of such disposition, how the production was used, or how such production was destroyed.  Refer to the LAM for additional information on mycotoxins.
42. Totals	Total of columns 34, 36, 37, and 38. If a column has no entries, make no entry.

**Narrative Instructions**

If more space is needed, document on a Special Report, and enter “See Special Report.” Attach the Special Report to the PW.

- a. If no acreage is released on the unit, enter “No Acreage Released,” adjuster’s initials, and date.
- b. If notice of damage was given and no inspection is necessary, enter “No Inspection,” the unit number(s), date, and adjuster’s initials (do not enter unit numbers for which notice has not been given). The insured’s signature is not required.
- c. Explain any uninsured causes, unusual, or controversial cases.
- d. If there is an appraisal in column “37” for uninsured causes due to a hail/fire exclusion, show the original hail/fire liability per acre and the hail/fire indemnity per acre.
- e. Document the actual appraisal date if an appraisal was performed prior to the adjuster’s signature date on the appraisal worksheet, and the date of the appraisal is not recorded on the appraisal worksheet.
- f. State that there is “No Other Fire Insurance” when fire damages or destroys the insured crop and it is determined that the insured has no other fire insurance. Also refer to the LAM.
- g. Explain any errors found on the Summary of Coverage.
- h. Explain any commingled production. Refer to the LAM.
- i. Explain any entry for “Production Not to Count” in column “62,” and/or any production not included in column “56” (e.g., harvested production from uninsured acreage that can be identified separately from the insured acreage in the unit).
- j. Explain a “No” checked in item “44.”

**Narrative Instructions (Continued)**

- k. Attach a sketch map or aerial photograph to identify the total unit:
  - (1) if consent is or has been given to put part of the unit to another use;
  - (2) if uninsured causes are present; or
  - (3) for unusual or controversial cases.
- l. Explain any difference between inspection and signature dates. For an absentee insured, enter the date of the inspection and the date of mailing the PW for signature.
- m. When any other adjuster or supervisor accompanied the adjuster on the inspection, enter the code number of the other adjuster or supervisor and date of inspection.
- n. Explain the reason for a “No Indemnity Due” claim. “No Indemnity Due” claims are to be distributed in accordance with the AIP’s instructions.
- o. Explain any delayed notices or delayed claims as instructed in the LAM.
- p. Document any authorized estimated acres shown in column “19” as follows: “Line 3 ‘E’ acres authorized by AIP MM/DD/YYYY.”
- q. Document the method and calculation used to determine acres for the unit. Refer to the LAM.
- r. For production that qualified for quality adjustment, include a copy of all supporting documentation in the insured’s claim file.
  - (1) Indicate if the quality factor was determined from a juice test, individual records, an average juice content from the nearest juice plant, etc.
  - (2) Explain any “0.000” quality adjustment factor entered in column 35 and column 65.
  - (3) Document any substances or conditions that are identified as being harmful to human or animal health that are allowed for quality adjustment as well as any which are not allowed.
  - (4) Document all calculations used to determine quality adjustment factors.
  - (5) Refer to the LAM for additional documentation requirements.
- s. Explain if there is no market value for any appraised potential of citrus.
- t. Specify the type of insects or disease when the insured cause of damage or loss specified in the policy that prevented the control measures taken to be ineffective or for which there is no effective control mechanism available and sources contacted to verify that an effective control mechanism is not available.
- u. Explain the reason for a “No Indemnity Due” claim. “No Indemnity Due” claims are to be distributed in accordance with the AIP instructions.

**Narrative Instructions (Continued)**

- v. Document the name and address of the charitable organization when gleaned acreage is applicable. Refer to the LAM for more information on gleaning.
- w. Document any other pertinent information, including any data to support any factors used to calculate the production.

**Section II – Determined Harvested Production**

- (1) When all acreage has been harvested, determine total production from warehouse receipts, packer/processor receipts, or farm management records (refer to the LAM for farm record requirements) verified by the adjuster and supported by written records from the first handler. This production will be the basis for computing losses from the insured and uninsured causes of damage on the PW.
- (2) Account for all harvested production for all entities sharing in the crop except production appraised before harvest and shown in Section I because the quantity cannot be determined later.
- (3) For production commercially sold, enter the name and address of processor as applicable in items “49” through “52.” For fruit otherwise disposed of, indicate method of disposition.
- (4) If additional lines are necessary, the data may be entered on a continuation sheet. Use separate lines for:
  - (a) Different first handlers (buyers, packing houses, or processors). The insured must have maintained satisfactory records of all production sold. Verify any packinghouse or processor records. (In all localities) if the first handler was not a packer or processor, the production will be determined by the adjuster on the basis of available records.
  - (b) Varying shares; e.g., 50 percent and 75 percent shares on the same unit.
  - (c) Varying determinations of production (varying value, etc.).
  - (d) Varying practices or types/varieties when a separate approved APH yield exists.
  - (e) If there is harvested production from more than one insured practice (or crop) and a separate approved APH yield has been established for each, the harvested production also must be entered on separate lines in columns 47a through 66 by crop. If production has been commingled, refer to the LAM.
- (5) There will generally be no harvested production entries in items “47a” through “66” for preliminary inspections.

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard
43. Date Harvest Completed	<p>Used to determine if there is a delayed notice or a delayed claim. Refer to the LAM.</p> <p><b>Preliminary:</b> Make no entry.</p> <p><b>Final:</b></p> <p>(1) The earlier of the date the entire acreage on the unit was (1) harvested, (2) totally destroyed, (3) put to other use, (4) a combination of harvested, destroyed, or put to other use, or (5) the calendar date for the end of the insurance period.</p> <p>(2) If at the time of final inspection (if prior to the end of the insurance period), there is any unharvested insured acreage remaining on the unit that the insured does not intend to harvest, enter “Incomplete.”</p> <p>(3) If at the time of final inspection (if prior to the end of the insurance period), none of the insured acreage on the unit has been harvested, and the insured does not intend to harvest such acreage, enter “No Harvest.”</p> <p>(4) If the case involves a Certification Form, enter the date from the Certification Form when the entire unit is put to another use, etc. Refer to the LAM.</p>
44. Damage Similar to Other Farms in the Area?	<p><b>Preliminary:</b> Make no entry.</p> <p><b>Final:</b> Check “Yes” or “No.” Check “Yes” if amount and cause of damage due to insurable causes is similar to the experience of other groves in the area. If “No” is checked, explain in the Narrative.</p>
45. Assignment of Indemnity	<p>Check “Yes” <b>only</b> if an assignment of indemnity is in effect for the crop year; otherwise, check “No.” Refer to the GSH.</p>
46. Transfer of Right to Indemnity	<p>Check “Yes” <b>only</b> if a transfer of right to indemnity is in effect for the unit for the crop year; otherwise, check “No.” Refer to the GSH.</p>
47a. Share	<p>Record only varying shares on same unit to three decimal places.</p>
47b. Field ID	<p>(1) If only one practice, variety, or type of harvested production is listed in Section I, make no entry.</p> <p>(2) If more than one practice, variety, or type of harvested production is listed in Section I, and a separate approved APH yield exists, indicate for each practice/type/variety the corresponding Field ID (from column “16”).</p>

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard
48. Multi-crop Code	The applicable two-digit code for first crop and second crop. Refer to the LAM for instructions regarding entry of first crop and second crop codes.
49-52. Length or Diameter, Width, Depth, Deductions	For harvested production sold, enter the name and address of the buyer, packing house, or processor. For harvested production otherwise disposed of, indicate method the disposition.
53-55.	Make no entry.
56. Bu. Ton, Lbs., Cwt.	Circle "Ton" in column heading. Enter the gross harvested production in tons, rounded to tenths. If the insured has selected juice coverage from the actuarial documents and harvested as fresh, count on a ton for ton basis (e.g., 10.0 tons harvested as fresh, count 10.0 tons as juice, etc.). Convert any harvested production in pounds, containers, etc. to tons, explain in the Narrative.
57-60b.	Make no entry.
61. Adjusted Production	Transfer entry from column 56.
62. Prod. Not To Count	Enter the net production not to count in tons, rounded to tenths. When acceptable records identifying such production are available, from harvested acreage which has been assessed an appraisal of not less than the guarantee per acre, or from other sources (e.g., other units or uninsured acreage). This entry must never exceed production shown on the same line. Explain any "Production not to Count" in the Narrative.
63a. Production Pre-QA	Column 61 minus column 62, results in tons, to tenths.
64a. Value	<p>Make the following entries, as applicable:</p> <ol style="list-style-type: none"> <li>(1) For any citrus fruit insured with an intended use of juice that is not marketed as fresh fruit, and due to insurable causes, does not contain 120 or more gallons of juice per ton, enter such gallons of juice per ton (see exhibit 8 for information on calculating gallons of juice per ton). Round gallons to tenths.</li> <li>(2) For any citrus fruit insured with an intended use of fresh that is not marketable as fresh fruit due to insurable causes, make no entry.</li> <li>(3) If no quality adjustment, make no entry.</li> </ol>

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard
64b. Mkt. Price	<p>Make the following entries, as applicable:</p> <p>(1) For any citrus fruit insured with an intended use of juice that is not marketed as fresh fruit, enter 120.0 gallons when there is an entry in column 64a.</p> <p>(2) For any citrus fruit insured with an intended use of fresh that is not marketable as fresh fruit due to insurable causes, make no entry.</p> <p>(3) If no quality adjustment, make no entry.</p>
65. Quality Factor	<p>Make the following entries, as applicable:</p> <p>(1) For harvested production of citrus fruit with an intended use of juice that is not marketed as fresh fruit, column 64a divided by column 64b. Round to three decimal places.</p> <p>(2) For harvested production of citrus fruit insured with an intended use of fresh fruit that is not marketable as fresh fruit due to insurable causes, enter the applicable Fresh Fruit Factor contained in the AD.</p> <p>(3) If no quality adjustment, make no entry.</p>
66. Production to Count	<p>Make the following entries, in tons, rounded to tenths:</p> <p>(1) For harvested production with quality adjustment, column 63 multiplied by column 65.</p> <p>(2) For harvested production without quality adjustment, transfer entry from column 63.</p>
67. Total	Total of all column 63 entries. If no entry in column 63, make no entry.
68. Section II Total	Total of all column 66 entries.
69. Section I Total	Transfer entry from section 1 column 38 total.
70. Unit Total	Item 68 plus item 69.
71. Allocated Prod.	Refer to the LAM for instructions for determining allocated production. Enter the total production, in tons, rounded to tenths, allocated to this unit that is included in sections I or II of the PW. Document how allocated production was determined and record supporting calculations in the Narrative or on a Special Report.

**Exhibit 4 Form Standards – Production Worksheet (Continued)**

Element/Item Number	Standard
72. Total APH Prod	<p>Make the following entries:</p> <p>(1) When there are entries in column 37 and/or item 71: Item 70 minus item 71, minus the total of column 37.</p> <p>(2) When there is no entry in column 37 or item 71: Transfer the entry from item 70.</p> <p><b>Note:</b> Make no entry when separate APH yields are maintained by type, practice, etc., within the unit.</p>

The following required entries are not illustrated on the PW examples below.

73. Insured’s Signature and Date	<p>(1) Insured’s (or insured’s authorized representative’s) signature and date.</p> <p>(2) Before obtaining the insured’s signature, review all entries on the PW with the insured or insured’s authorized representative, particularly explaining codes, etc., that may not be readily understood.</p> <p>(3) Final indemnity inspections should be signed on bottom line.</p>
74. Adjuster’s Signature, Code #, and Date	<p>(1) Signature of adjuster, code number, and date signed after the insured (or insured’s authorized representative) has signed.</p> <p>(2) For an absentee insured, enter adjuster’s code number only. The signature and date will be entered after the absentee has signed and returned the PW.</p> <p>(3) Final indemnity inspections should be signed on bottom line.</p>
75. Page Numbers	<p><b>Preliminary:</b> Page numbers - “1,” “2,” etc., at the time of inspection.</p> <p><b>Final:</b> Page numbers.</p> <p><b>Example:</b> Page 1 of 1, Page 1 of 2, Page 2 of 2, etc.</p>

## Exhibit 5 Tree Populations per Acre

### A. Calculations

To calculate the number of trees per acre, multiply the distance between trees (nearest tenth foot) by the distance between rows (nearest tenth foot) and divide the result into 43,560. Round the results to the nearest whole number.

**Example:** 6.5 ft. × 10 ft. = 65 sq. ft.  
43,560 ÷ 65 sq ft. = 670 trees per acre

**Important:** Refer to the LAM on how to calculate the number of trees per acre.

### B. Tree Populations for Common Tree/Row Spacings

The diagrams below depict the tree populations per acre for common tree/row spacings. The tree populations were calculated using the methodology provided in Subparagraph A above.

		Distance Between Trees (in feet)					
		4	5	6	7	8	9

**Exhibit 6      Representative Sample Requirements**

---

<b>Acres in Grove or Block</b>	<b>Minimum Number of Samples</b>
0.1 - 10.0	The lesser of 5 trees or 5% of the number of trees.

One additional tree is required for each additional 10.0 acres (or fraction thereof) in the grove.

**Exhibit 7 Fruit Size (Number of Citrus Fruit per Field Box)**

---

**A. Number of Oranges per 90.0 Pound Field Box**

96	126	150	176	200	216	220	252	288	324
----	-----	-----	-----	-----	-----	-----	-----	-----	-----

**B. Number of Grapefruit per 85.0 Pound Field Box**

36	46	54	64	70	80	96	112
----	----	----	----	----	----	----	-----

**Note:** If citrus fruit size varies on the acreage being appraised, establish an average size and explain in the Narrative how this average size was determined. For example, if there are equal numbers of size 126 and 176 oranges, the closest average size would be size 150, enter "150."

**A.      General Information**

Use the following information to determine juice content for calculating quality adjustment factors for juice claims:

- (1)      If the average juice content has not already been determined, deliver a fruit sample to the nearest juice plant for juice quantity determination when the following records are not available:
  - (a)      Individual producer records of juice content; or
  - (b)      An average juice content from the nearest juice plant if not available.
- (2)      Select a fruit sample that contains at least 40 pounds of citrus fruit from the acreage that is being appraised. Such fruit must be representative of the insured citrus fruit in the grove.
- (3)      Retain a copy of the juice analysis from the juice plant in the insured’s claim folder. Document percent juice calculations on the PW or Special Report, as applicable.

**B.      Calculations**

**(1)      Follow the steps bellow to convert percent juice to gallons of juice per ton:**

<b>Step</b>	<b>Formula</b>	<b>Example</b>
1	Juice % (from analysis) × weight of sample fruit	0.150 × 40 lbs. = 6.0 lbs. juice
2	Step 1 results ÷ 8.0 lbs./gallon*	6.0 lbs. ÷ 8.0 lbs./gallon = 0.750 gallons
3	(Step 2 results × 2000.0) ÷ 40.0	(0.750 × 2000.0) ÷ 40.0 = 37.5 gallons of juice

**Important:**      8.0 lbs. is the weight of one gallon of juice.

- (2)      Transfer result of step 3 to column 32a “Moisture %” or column 64a “Value” on the PW, as applicable.
