INFORMATIONAL MEMORANDUM

TO: All Approved Insurance Providers

FROM: James Bellmon, Director of the Oklahoma City Regional Office

SUBJECT: Following Another Crop Blanket Written Agreement (Standardized Written Agreement) Details for the Oklahoma City Region

I. BACKGROUND

The Risk Management Agency (RMA) reviewed and updated the double crop Blanket Written Agreement (BL) counties in Oklahoma and Texas for the 2025 crop year. This memo details the Following Another Crop (FAC) written agreement options and requirements available in Oklahoma and Texas to help enable agricultural producers to insure two crops on the same land each year, such as spring planted grain sorghum or soybeans following the harvest of a crop such as winter wheat.

II. FAC Written Agreement Options and Requirements

Blanket Written Agreements (BL) are available in select counties that offer grain sorghum and soybean coverage in Oklahoma and Texas, in which the Following Another Crop (FAC) practice is not available. Blanket Written Agreements are a standardized written agreement offer prebuilt by RMA into the Regional Office Exceptions (ROE) System which allows for a producer to choose to insure their FAC grain sorghum and FAC soybeans. Since the written agreement offer is prebuilt by RMA, a producer does not have to go through an extensive underwriting process and can simply choose to insure their FAC crop by submitting the request with an actuarial change request (ACR) form through their agent and Approved Insurance Provider (AIP).

Each county has a unique written agreement number that AIPs can access. The BL in each county provides the terms and conditions of insurance available to producers interested in insuring FAC grain sorghum and FAC soybeans in the states of Oklahoma and Texas for the 2025 crop year.

The final planting date, end of late planting period date, rates, and T-yields for the FAC practice may vary by county.

For all FAC grain sorghum and FAC soybeans insured under BL, the definition for FAC applies:

FAC (Following Another Crop): A planted crop following:

- 1. A perennial hay crop that was harvested in the same calendar year; or*
- 2. A crop (other than a cover crop), that is hayed, grazed, or harvested past date published in county actuarial documents.*

NFAC (Not Following Another Crop): A planted crop not following:

- 1. A perennial hay crop that was harvested in the same calendar year; and*
- 2. A crop (other than a cover crop), that is hayed, grazed, or harvested past date published in county actuarial documents. The crop must be terminated in accordance with NRCS Cover Crop Termination Guidelines.*

Termination means growth has ended. A crop that follows a cover crop that meets the criteria outlined in the Insurance Availability section of the Special Provisions is considered NFAC.

III. Blanket Written Agreement Numbers

Blanket Written Agreements were used previously with breached levees, which is where the BL designator originated. See Exhibit A for BL Offer numbers.

IV. Action

Insured's can select a BL Offer by submitting a signed and dated ACR form for soybeans and grain sorghum, where applicable, to their crop insurance agent by the sales closing date. AIPs may apply the BL Offer to the applicable crop types and practices. AIPs process the BL Offers as they would a pre-approved and accepted written agreement, attaching the BL WA number to the insured's policy, and transmitting to RMA within 30 days of the sales closing date.

For producers that may miss the sales closing date deadline, new type/practice (TP) written agreement requests may be accepted until the acreage reporting date for the crop. A crop inspection may be required if the producer applies after the sales closing date. The rates, T-yields, and dates offered under a TP written agreement request will be like those offered under a blanket written agreement. All other requirements for a TP written agreement request apply in accordance with the [Written Agreement Handbook](#). All other general guidance, frequently asked questions, maps, and other material related to the double cropping expansion can be found at rma.usda.gov/about-crop-insurance/highlighted-initiatives-plans/double-cropping.

DISPOSAL: Effective for the 2025 Reinsurance Year.
